Medicaid Health Plan Common Formulary Changes Effective May 1, 2025 4

State of Michigan Medicaid Health Plan Common Formulary: 6

5/1/2025

In order to streamline drug coverage policies for Medicaid and Healthy Michigan Plan members and providers, the Michigan Department of Health and Human Services (MDHHS) has created a formulary that is common across all contracted Medicaid Health Plans (MHPs) for the current Comprehensive Health Plan Contract. The development of the Common Formulary was required under Section 1806 of Public Act 84 of 2015.

Effective for dates of service on or after October 1, 2020, the Michigan Department of Health and Human Services (MDHHS) Policy Bulletin 20-51 https://www.michigan.gov/documents/mdhhs/MSA_20-51_695442_7.pdf will require Medicaid Health Plans (MHPs) to follow the Michigan PDL used by the Fee-for-Service (FFS) pharmacy program. This will be described as the Single PDL. The Michigan PDL is available on the web at <https://mi.primetherapeutics.com> >> Provider >> Michigan Preferred Drug List (PDL)/Single PDL. Drugs not part of the Single PDL will continue to be covered in accordance with the Common Formulary

Drugs Reimbursed through Fee-For-Service Benefit (Carve-Out)

MDHHS contracts with capitated managed care plans to provide services for its beneficiaries. These plans are responsible for most pharmacy services. Selected drugs and classes are carved out from the managed care plan coverage and are paid directly to a pharmacy by the MDHHS fee-for service program. This list is available at [Medicaid Health Plan Carveout](#). For these drugs, pharmacies must bill Prime Therapeutics for reimbursement. Refer to the D.O Pharmacy Claims Processing Manual at [Pharmacy Claims Processing Manual \(primetherapeutics.com\)](#) for instructions on submitting these claims.

Products Covered As A Medical Benefit

The Common Formulary includes drugs that are covered as a pharmacy benefit. The following are examples of products that may not be identified on the Common Formulary because a MHP may cover them as a medical benefit:

- Physician-administered injectable drugs
- Vaccines
- Intrauterine Devices

Members and providers should work with their MHPs to determine how these products are covered.

Medicaid Health Plans May Be Less Restrictive

As part of the Common Formulary, minimum requirements will be established for drug utilization management policies such as quantity limits, age and gender edits, prior authorization criteria and step therapies. MHPs may be less restrictive, for products whose drug class(es) are not present on the Single Preferred Drug List, but not more restrictive, than the coverage parameters of the Common Formulary.

5/1/2025

Standard Prior Authorization Form

A standard prior authorization form, FIS 2288, was created to simplify the process of requesting prior authorization for prescription drugs. The form is available at [Michigan.gov/difs](https://michigan.gov/difs) >> **Forms** >> **Insurance**.

Non-Formulary Prior Authorization Requests

For any drug that is not on the Common Formulary but is on the Michigan Pharmaceutical Product List (MPPL), providers can request a Non-Formulary Prior Authorization from the Health Plan. (see more below regarding MPPL). Prescribers can use the standard prior authorization form referenced above to request any non-formulary prior authorization.

Michigan Pharmaceutical Product List

As a reminder, with the exception of products that are carved out, MHPs must have a process to approve provider requests for any prescribed medically appropriate product identified on the Medicaid Pharmaceutical Product List (MPPL), found at <https://mi.primetherapeutics.com> >> **Provider Portal** >> **MPPL and Coverage Information**. Products that are listed on the MPPL but are not listed on the MHP Common Formulary are available for coverage consideration through a non-formulary prior authorization process.

Mandatory Generic Drug Policy for products whose drug class(es) are not present on the Single Preferred Drug List.

A mandatory generic drug policy encourages the generic version to be dispensed rather than a brand-name product. In most instances, a brand-name drug for which a generic product becomes available will become non-formulary, with the generic product covered in its place, upon release of the generic product onto the market. Mandatory generic coverage is permitted only for products whose drug class(es) are not present on the Single Preferred Drug List.

Prescription generic drugs are approved by the US Food and Drug Administration for safety and effectiveness and are manufactured under the same strict standards that apply to brand-name drugs. When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

Unit Dose Packaging

Products in Unit Dose packaging are not typically covered. Individual Medicaid Health Plans may be less restrictive and cover unit dose packaged products on a case by case basis.

Non-Rebatable Drugs

Products that do not have a Federal Medicaid rebate are not typically covered. Individual Medicaid Health Plans may be less restrictive and cover non-rebatable products on a case by case medical necessity basis.

5/1/2025

Medically Accepted Indications

Medically accepted indications will also be considered for approval. Medically accepted indications include any use of a drug which is approved under the Federal Food, Drug and Cosmetic Act, or the use of which is supported by one or more citations included or approved for inclusion in the compendia listed in Section 1927(g)(l)(B)(i) of the Social Security Act.

Vitamins and Supplements

Select vitamins are covered only for beneficiaries in the Children’s Special Health Care Services (CSHCS) program as indicated on the MPPL. These are shown on the formulary as “Covered for CSHCS Only”. Prenatal vitamins are available for coverage for women of child-bearing age. Vitamin D, Fluoride and Folic Acid are also available for coverage for select ages and conditions.

Formulary Change Summary List

The Medicaid Health Plan Common Formulary will be reviewed on a quarterly basis. During these reviews new medications that are FDA-approved will be evaluated after they have been available in the marketplace for at least six months. Specific drug classes will also be reviewed at this time. MDHHS regularly monitors drug product pricing and will convene special Workgroup meetings to address significant price fluctuations. Any changes made to the formulary as a result of these reviews will be reflected in the drug formulary documents. These changes made periodically throughout the year are reflected below.

Medicaid Health Plan Common Formulary Changes Effective May 1, 2025

Drug Class	Drug Name	New Status
Cardiovascular Anti-inflammatory/Immune Modulators	Lodoco 0.5mg Tablet	Not Covered on formulary
Androgen - Single Agents	Undecatrex 200mg Capsule	Not Covered on formulary
Dermatological - Antiperspirants	Sofdra 12.45% Gel	Not Covered on formulary
Beta Blockers Cardiac Selective	bisoprolol fumarate 5mg, 10mg tablets	Covered on formulary – Preferred
Beta Blockers Cardiac Selective	Bystolic 2.5mg, 5mg, 10mg, 20mg Tablets	Covered on formulary with Prior Authorization – Non-Preferred
Beta Blockers Non-Cardiac Selective	Nadolol 20mg, 40mg 80mg tablet	Covered on formulary – Preferred
Beta Blockers Non-Cardiac Selective	Hemangeol 4.28mg/ml Oral Solution	Covered on formulary with Age Edit – Preferred
Ophthalmic - Carbonic Anhydrase Inhibitors	Azopt 1% Eye Drops	Covered on formulary with Prior Authorization – Non-Preferred

5/1/2025

Medicaid Health Plan Common Formulary Changes Effective May 1, 2025, continued

Drug Class	Drug Name	New Status
Ophthalmic - Carbonic Anhydrase Inhibitors	brinzolamide 1% eye drops	Covered on formulary – Preferred
Angiotensin II Receptor Blocker-Nepriylsin Inhibitor Comb. (ARNi)	Entresto 24mg-26mg, 49mg-51mg, 97mg-103mg Tablets	Covered on formulary with Prior Authorization and Quantity Limit –Preferred
Angiotensin II Receptor Blocker-Nepriylsin Inhibitor Comb. (ARNi)	Entresto Sprinkle 6-6mg, 15-16mh Pellet	Covered on formulary with Prior Authorization and Quantity Limit –Non-Preferred
Antihyperlipidemic-HMG CoA Reduct Inhib & Cholesterol Absorption Inhib	ezetimibe-simvastatin 10-10mg, 10-20mg, 10-40mg, 10-80mg	Covered on formulary with Quantity Limit – Preferred
Alpha-Beta Blockers	carvedilol ER 10mg, 20mg, 40mg, 80mg capsules	Covered on formulary with Prior Authorization – Non-Preferred 90 days grandfathering from 5/1/2025 effective date
Ophthalmic - Anti-inflammatory, Immunomodulators	Restasis Multidose 0.05% Eye Drops	Covered on formulary with Prior Authorization and Quantity Limit –Non-Preferred
Calcium Channel Blockers - Dihydropyridines	Norliqva 1mg/ml Solution	Covered on formulary with Prior Authorization and Age Edit – Preferred
Antiparkinson - Dopaminerg-Peripheral Dopa-decarboxylase Inhibit Comb	Crexont 35mg-140mg, 52.5mg-210mg, 70mg-280mg, 87.5mg-350mg Capsules	Covered on formulary with Prior Authorization – Non-Preferred
Eczema Agents, Interleukin-13 (IL-13) Inhibitors, MAB	Ebglyss 250mg/2ml Syringe, 250mg/2ml Pen	Covered on formulary with Prior Authorization, Quantity Limit and Age Edit – Non-Preferred
Cardiovascular Sympathomimetic - Anaphylaxis Therapy Single Agents	Neffy 2mg/0.1ml Nasal Spray	Covered on formulary with Prior Authorization and Quantity Limit –Non-Preferred
Eczema Agents, Interleukin-13 (IL-13) Receptor Alpha Antagonist, MAB	Nemluvio 30mg Pen	Covered on formulary with Prior Authorization, Quantity Limit and Age Edit – Non-Preferred
Antiparkinson - Dopaminerg-Peripheral Dopa-decarboxylase Inhibit Comb	Vyalev 120mg-2,400mg/10ml Vial	Covered on formulary with Prior Authorization and Age Edit – Non-Preferred
