Duration = # of infants still BF at the end of the period/ Total # of infants initiated BF x 100

Breastfeeding Rate and Duration Report

Date:

10/25/2022

Prepared by

Bagya Kodur

Email:

Kodurb@michigan.gov

Description

This is a point-in-time look at current breastfeeding duration statistics by state and local agency. The report is run for only currently active clients. It provides a count and rate for each breastfed duration interval and includes only infants. The report includes those currently breastfeeding and those that initiated breastfeeding but are no longer breastfeeding. It shows drop-off of clients at each breastfed time interval. This report helps highlight critical points of intervention for clients. It is a great tool for breastfeeding planning. Typically, this report is run twice a year and can be made available upon request for monitoring special projects
