***Stage 2:**

Only for ages 6-12 months

Adapted From: [U.S. Food & Drug Administration](#) and [American Academy of Pediatrics](#)

Helpful facts about imported baby formula

For most babies, it is fine to switch to any available formula during the shortage. But if you use imported baby formula, keep the following in mind:

Some labels use "stages" for age groups.

Stage 1

0-6 months

Stage 2

Over 6 months

Make sure to use the scoop that comes with the imported formula. Be sure to use the correct number of scoops.

Milliliters (mls) are used instead of ounces (oz).
30 mls = 1 oz.

You may see "teat" referred to instead of the bottle's nipple.

Common conversions from Celsius to Fahrenheit (°C to °F)

0 °C = 32 °F

Freezing point of water

37 °C = 98.6 °F

Average human body temperature

100 °C = 212 °F

Boiling point of water

*Only for ages 6-12 months

Read labels carefully and contact your pediatrician with any questions.

Temporary Choices for Powder Formula, Updated July 14, 2022 Shopping Guide

 **S**₁ = 12-12.9 oz

 **M**_{1.5} = 19.4-23.2 oz

 **L**₂ = 27.4-33.2 oz

 **XL**_{2.5} = 34-36.4 oz

Check your benefit balance to see how many cans you can buy.

You can mix and match sizes.

Pick cans that count as 1 or 2 cans (or add up to a whole number) to help you get the most out of your benefits.

If you have one can left, you can only purchase a small can.

  +   = 9     
   

 +  +  +  = 7    
  

   +  +  = 10     
    

  +      = 9
