

**MBDR Newsblast: Annual ICD-10 Reportable Codes Update
Monday November 20, 2023**

The Michigan Birth Defects Registry (MBDR) was established as part of the Public Health Code (Act 368 of 1978). Confidentiality of all data is required by law and strictly maintained by the Health Department staff. Section 2631 of the Public Health Code regulates procedures protecting confidentiality and regulating disclosure of data and records. Birth Defects Surveillance Authorization, Public Act 236 of 1988 established the statewide Birth Defects Registry.

Annual ICD-10 Reportable Birth Defects for 2023-2024 POSTED

The annual update of ICD-10 codes for reportable birth defects have been released from the National Birth Defects Prevention Network (NBDPN).

This update has been placed on our website at: www.michigan.gov/mbdr under 'Reportable Birth Defects' section, listed by year.

ICD-10 Reportable Birth Defects Changes 2023-2024

Please update your reportable BD codes IMMEDIATELY to reflect these requirements.

For required MBDR Resources, Support or Assistance, please contact us at:

Flatfile Structure, Submission, and Interoperability Questions

The role of MBDR is to collect and organize data, but the building blocks for the Michigan Birth Defects Registry come from the "reporting entity" (hospital, clinical laboratory, physician, genetic counselor, health clinic, and other health professional or health facility required to report birth defects) who identify and submit the cases. Thank you for your continued cooperation in submitting timely, accurate and complete data to the MBDR.
