**EXCERPT FROM CON COMMISSION BYLAWS**  
**ARTICLE IX – CONFLICT OF INTEREST PROVISIONS**

**B. Definition - Conflict of Interest**

1. Under the State Ethics Act, 1973 PA 196, MCL 15.341, et seq, and in accordance with the Advisory Opinion of the State Board of Ethics of November 5, 2004, a conflict of interest for Commission members exists when the individual member has a financial or personal interest in a matter under consideration by the Commission. The personal interest of a Commission member includes the interest of the member's employer, even though the member may not receive monetary or pecuniary remuneration as a result of an adopted CON review standard.
2. A Commission member does not violate the State Ethics Act if the member abstains from deliberating and voting upon the matter in which the member's personal interest is involved.
3. A Commission member may deliberate and vote on matters of general applicability that do not exclusively benefit certain health care facilities or providers who employ the Commission member, even if the matter involves the member's employer or those for whom the member's employer does work.
4. Deliberating includes all discussions of the pertinent subject matter, even before a motion being made.

**C. Procedures - Conflict of Interest**

1. A Commission member must disclose any potential conflict of interest after the start of a meeting, when the Commission begins to consider a substantive matter, or, where consideration has already commenced, when a conflict or potential conflict of interest becomes apparent to the member.
2. After a meeting is called to order and the agenda reviewed, the chairperson must inquire whether any Commission member has a conflict or potential conflict of interest with regard to any matters on the agenda.
3. A Commission member who is disqualified from deliberating and voting on a matter under consideration due to a conflict of interest may not be counted to establish a quorum regarding that particular matter.
4. Where a Commission member has not discerned any conflict of interest, any other Commission member may raise a concern whether another member has a conflict of interest on a matter. If a second member joins in the concern, the Commission must discuss and vote on whether the member has a conflict of interest before continuing discussion or taking any action on the matter under consideration. The question of conflict of interest is settled by an affirmative vote of a majority of those Commission members appointed and serving, excluding the member or members in question.
5. The minutes of the meeting must reflect when a conflict of interest had been determined and that an abstention from deliberation and voting had occurred.

(By authority conferred on the CON Commission by Section 22215 of Act No. 368 of the Public Acts of 1978, as amended, and sections 7 and 8 of Act No. 306 of the Public Acts of 1969, as amended, being sections 333.22215, 24.207, and 24.208 of the Michigan Compiled Laws.)

**Section 1. Applicability**

Sec. 1. These standards are requirements for the approval and delivery of HLL services under Part 222 of the Code. Pursuant to Part 222 of the Code, heart/lung and liver transplantation are covered clinical services. A CON issued for a heart/lung transplantation service includes a service that performs heart, heart/lung, or lung transplant procedures, and a separate CON is not required to begin performing any of these procedures if one or more are not performed initially. The Department shall use these standards in applying Section 22225(1) of the code, being ~~Section~~ Section 333.22225(1) of the Michigan Compiled Laws and Section 22225(c) of the Code, being Section 333.22225(2)(c) of the Michigan Compiled Laws.

(iv) any patient who is not known to be dead but whose survival cannot be ascertained to a date that is within 60 days before the fiducial date, must be considered as "lost to follow up" for the purposes of the survival rate calculation;

FOR PURPOSES OF SCORING, THE APPLICANT'S MEDICAID PERCENTAGE WILL BE THE CUMULATIVE OF ALL TITLE XIX AND HEALTHY MICHIGAN INPATIENT MED/SURG AND INPATIENT REHAB DAYS DIVIDED BY THE CUMULATIVE OF ALL INPATIENT MED/SURG AND INPATIENT REHAB DAYS AT THE APPLICANT'S CURRENTLY LICENSED HOSPITAL FOR THE PROPOSED PROJECT. FOR PURPOSES OF EVALUATING THIS CRITERION, AN APPLICANT SHALL SUBMIT THE MOST RECENT REVIEWED AND ACCEPTED MEDICAID COST REPORT FOR THE APPLICANT'S CURRENTLY LICENSED HOSPITAL FOR THE PROPOSED PROJECT. PERCENTAGES OF DAYS SHALL BE ROUNDED TO THE NEAREST 1/10 (E.G. 5.3%). THE~~

## Department Recommendation

APPLICANT FROM THE HOSPITAL WITH THE HIGHEST PROPORTION OF MEDICAID DAYS WILL RECEIVE FIVE (5) POINTS. IN THE CASE OF TWO OR MORE APPLICANTS WITH QUALIFYING PROJECTS, THE PROGRAM FROM THE HOSPITAL WITH THE SECOND HIGHEST PROPORTION OF MEDICAID DAYS WILL RECEIVE THREE (3) POINTS, AND THE THIRD-PLACE APPLICANT WILL RECEIVE ONE (1) POINT.

### (d) ADDITIONAL REVIEW STANDARDS APPLICABLE TO LIVER TRANSPLANTATION SERVICES ONLY:

(i) A QUALIFYING PROJECT WILL HAVE POINTS AWARDED FOR THE QUALITY MEASURES OF THE EXISTING RENAL TRANSPLANT PROGRAM AT THE APPLICANT HOSPITAL, ACCORDING TO THE MOST RECENT VERSION AT THE TIME OF APPLICATION OF THE PROGRAM SPECIFIC REPORT FOR THE ADULT RENAL TRANSPLANT PROGRAM BY THE SCIENTIFIC REGISTRY OF TRANSPLANT RECIPIENTS (SRTR). THE POINTS AWARDED TO AN APPLICANT WITH A QUALIFYING PROJECT WILL BE AWARDED ACCORDING TO THE TABLE BELOW:

	DECEASED DONOR TRANSPLANT RATE RATIO ("GETTING A TRANSPLANT FASTER")	ONE YEAR GRAFT SURVIVAL ("ONE YEAR KIDNEY SURVIVAL")
1 BARS	0 POINTS	0 POINTS

(ii) A QUALIFYING PROJECT WILL HAVE POINTS AWARDED FOR METRICS THAT ARE ASSOCIATED WITH THE CARE OF PATIENTS WITH ADVANCED LIVER DISEASE AND LIVER TRANSPLANTATION. APPLICANTS WITH QUALIFYING PROJECTS FOR LIVER TRANSPLANTATION WILL BE RANKED ACCORDING TO THE VOLUME OF THE FOLLOWING EVENTS. THE APPLICANT WITH THE HIGHEST VOLUME OF EACH METRIC WILL RECEIVE TWO (2) POINTS. REMAINING APPLICANTS WILL RECEIVE ZERO (0) POINTS.

(A) MOST RECENT CALENDAR YEAR HOSPITAL VOLUME OF ENDOSCOPIC RETROGRADE CHOLANGIOPANCREATOGRAPHY PROCEDURES.

(iv) A QUALIFYING PROJECT WILL HAVE POINTS AWARDED BASED ON THE RANKING OF THE APPLICANT'S NUMBER OF LICENSED ICU BEDS, EXCLUDING NICU, AS CONFIRMED BY THE MICHIGAN DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS, HEALTH FACILITIES ENGINEERING SECTION. THE APPLICANT WITH THE HIGHEST NUMBER OF LICENSED ICU BEDS (EXCLUDING NICU) WILL BE AWARDED TWO (2) POINTS. REMAINING APPLICANTS WILL RECEIVE ZERO (0) POINTS.

(a) A qualifying project will be awarded points based on the percent of compliance with the Uniform Anatomical Gift Law, Act No. 186 of the Public Acts of 1986, being Section 333.10101 et seq. of the Michigan Compiled Laws. The number of points awarded shall be calculated by dividing the number of deaths reported to the OPO by the total number of eligible deaths reported to the Department and

## Department Recommendation

multiplying the product by 4. The maximum number of points that can be awarded under this subsection is 4. An applicant shall provide, in the application at the time it is submitted to the Department, documentation of the total number of eligible deaths at the licensed site at which the proposed transplantation service will be provided, for the most recent year for which the Department has verifiable data.

(ab) A qualifying project will have points awarded based on the number of transplantation services of the type proposed, both operating and CON approved, but not yet operational, in the health service area in which the proposed program will be located, on the date the application is submitted to the Department, as shown in the following schedule:

Number of Transplant Programs in HSA	Points Awarded
Two or more programs	0
One program	2
No programs	4

(c) A qualifying project will have up to 4 points awarded based on the percentage of the medical/surgical indigent volume at the licensed site at which the proposed heart/lung or liver transplantation service will be provided in accordance with the following:

(i) For each applicant in the same comparative group, determine the medical/surgical indigent volume. Determine the licensed site that has the highest indigent volume in the same comparative group. Divide the medical/surgical indigent volume for that licensed site by 4.0. The result is the indigent volume factor rounded to the nearest whole number.

(ii) For each applicant in the same comparative group, divide the medical/surgical indigent volume by the indigent volume factor determined in subdivision (i). The result, to the nearest whole number, is the number of points that will awarded to each applicant pursuant to this subsection.

For purposes of this subsection, indigent volume means the ratio of a hospital's indigent charges to its total hospital charges expressed as a percentage, rounded to the nearest whole number, as determined by the Michigan Department of Community Health Medical Services Administration. The indigent volume data being used in this subsection is the data in the most current DCH MSA Disproportionate Share Hospital (DSH) report at the time the application(s) is deemed submitted by the Department.

(d) A qualifying project will have 2 points awarded if an applicant documents that, during the 36-month period prior to the date an application is submitted to the Department, at least 15 patients received pre and post transplant care at the licensed site at which the heart/lung or liver transplant procedures will be performed and were referred for and received a heart/lung or liver transplant at an existing heart/lung or liver transplantation service, and submits documentation from the existing heart/lung or liver transplantation service(s) of these referrals.

(2) Each application in a comparative review group shall be individually reviewed to determine whether the application has satisfied all the requirements of Section 22225 of the Code, being Section 333.22225 of the Michigan Compiled Laws, and all other applicable requirements for approval in the Code and these standards. If the Department determines that one or more of the competing applications satisfies all of the requirements for approval, these projects shall be considered qualifying projects. The Department shall approve those qualifying projects which, taken together, do not exceed the need, as defined in Section 22225(1) being Section 333.22225(1) of the Michigan Compiled Laws, and which have the highest number of points when the results of subsection (2) are totaled. If two or more qualifying projects are determined to have an identical number of points, the Department shall approve those qualifying projects which, taken together, do not exceed the need, as defined in Section 22225(1) of the Code, being Section 333.22225(1) of the Michigan Compiled Laws, in the order in which the applications were received by the Department, based on the date and time stamp placed on the application by the CON administrative unit of the Department responsible for administering the CON program when an application is submitted.

## Department Recommendation

(3) Submission of conflicting information in this section may result in a lower point reward. If an application contains conflicting information which could result in a different point value being awarded in this section, the Department will award points based on the lower point value that could be awarded from conflicting information. For example, if submitted information would result in 6 points being awarded, but other conflicting information would result in 12 points being awarded, then 6 points will be awarded. If the conflicting information does not affect the point value, the Department will award points accordingly. For example, if submitted information would result in 12 points being awarded and other conflicting information would also result in 12 points being awarded, then 12 points will be awarded.

### Section 10. Effect on prior CON Review Standards; comparative reviews

Department Recommendation

Sec. 10. These CON review standards supersede and replace the CON Review Standards for Heart/Lung and Liver Transplantation Services approved by the CON Commission on March 25, 2010 JUNE 14, 2012 and effective on MAY 28, 2010 SEPTEMBER 28, 2012.

- (1) Projects reviewed under these standards shall be subject to comparative review.

## Kelly Summers

Section 4(4) – This section does not include Liver so maybe “HLL” should be changed to “heart, heart/lung or lung” **CHANGED AS SUGGESTED**

Section 5(3) – I think the word “either” needs to be removed to achieve the intent of the new changes. **CHANGED AS SUGGESTED**

Section 7 (1)(a) – I feel the distance requirement should be *reworded* so that hospitals within 30 miles receive the SAME points, not zero points. This prevents an unintended scenario where three hospitals apply. Hospital A is 50 miles from the nearest transplant center. Hospital B and Hospital C are both 100 miles from the nearest transplant center. As currently written, Hospital B and C would get zero points, since they are both the same distance away, and Hospital A would get 5 points, even though it is the closest to the existing transplant center. The language should be revised so Hospitals B and C would get the same points (5) - this has the same effect without unintentionally benefitting Hospital A. **CHANGED SUCH THAT PROGRAMS WITHIN 30 MILES WOULD GET THE SAME POINTS; ADMITTEDLY I WAS NOT ANTICIPATING MORE THAN 2 PROGRAMS WOULD APPLY SIMULTANEOUSLY**

Section 7(2)(a) - A qualifying project will have points awarded for the quality measures of the existing renal transplant program and the applicant hospital, according to the most recent version at the time of application of the Program Specific Report for the adult renal transplant program as issued by the Scientific Registry for Transplant Recipients ([www.srtr.org](http://www.srtr.org)). The points awarded to an applicant with a qualifying project will be awarded according to the table below: My suggested changes for the best metrics –

	Overall acceptance ratio (“Getting a transplant faster”)	One year graft patient survival (“One year patient ”survival”) estimated hazard ratio
1 bars	<0.95 = 0 points	>1.0 = 0 points
2,3,4 bars	0.96-1.0 = 1 point	0.96-1.0 = 1 point

5 bars	>1.0 = 3 points	<0.95 = 3 points
--------	-----------------	------------------

**THIS SHOULD BE DISCUSSED AMONG THE SAC – I PREFER THE BARS TO BE CONSISTENT WITH THE SRTR METHODOLOGY**

Also, I would like to see this metric weighted more heavily. It is the only metric that looks at actual, quantified quality of an applicant by looking at its existing transplant program. This metric should be at least as heavily weighted as 1b which is more about *implied* quality. An applicant could get as many as 8 points for the 1b metric but only 6 points for 2a

**THIS SHOULD BE DISCUSSED AMONG THE SAC – IT WOULD BE REASONABLE TO INCREASE THE POINTS ASSIGNED FOR QUALITY**

**HENRY FORD**

(2)Except for an application pursuant to Section 3(4) of these standards, an applicant for a liver transplantation service shall demonstrate a minimum of **40 liver transplantation procedures** annually based on the methodology set forth in Section 9.

**THIS SHOULD BE DISCUSSED AMONG THE SAC – a reminder that Corewell East did not do 40 liver transplants until the 12<sup>th</sup> year of program existence (2022); Henry Ford with 40 liver transplants in the 10<sup>th</sup> year of program existence (1998)**

(a) A qualifying project will have 1 point awarded for each existing solid organ transplant program in operation at the hospital submitting the application for a HLL program. Adult and pediatric programs for the same organ that exist at the same hospital will be awarded only 1 point.

**Commented [MR1]:** Should we specify the source? SRTR?

**THIS SHOULD BE DISCUSSED AMONG THE SAC – should adult and pediatric programs be counted separately?**

(a) A qualifying project will have points awarded for the quality measures of the existing renal transplant program and the applicant hospital, according to the most recent version at the time of application of the Program Specific Report for the renal transplant program as issued by the Scientific Registry for Transplant Recipients (www.srtr.org). The points awarded to an applicant with a qualifying project will be awarded according to the table below:

**THIS SHOULD BE DISCUSSED AMONG THE SAC – would we consider outcomes of a pediatric renal transplant program in the application of an adult liver transplant program?**

- i. Most recent calendar year hospital volume of the following interventional radiology procedures: percutaneous transhepatic cholangiography (CPT codes 47531, 47532, 47533, 47534, 47540), transjugular intrahepatic portosystemic shunt (CPT code 37182, 37183), and mesenteric angiography (CPT code 75726, 37241).
- (b) A qualifying project will have points awarded based on the ranking of the applicant's number of CON approved operating rooms. The applicant hospital with the highest number of CON approved operating rooms will be awarded 2 points. Other applicants will receive 0 points.
- (c) A qualifying project will have points awarded based on the ranking of the applicant's number of licensed ICU beds, excluding NICU, as confirmed by the Michigan Department of Licensing and Regulatory Affairs, Health Facilities Engineering Section. The applicant hospital with the highest number of licensed ICU beds (excluding NICU) will be awarded 2 points. Other applicants will receive 0 points.

**THIS SHOULD BE DISCUSSED AMONG THE SAC – I have no objections**

(4) Compliance with the following monitoring and reporting requirements:

(a) The heart, heart/lung, or lung transplantation service shall be operating at an annual volume of at least 12 transplant procedures by the second 12-months of operation following the date on which the first heart, heart/lung, or lung transplant procedure is performed and annually thereafter.

(b) The liver transplantation service shall be operating at an annual volume of at least 20 transplant procedures by the second 12-months of operation following the date on which the first liver transplant procedure is performed and annually thereafter.

**THIS SHOULD BE DISCUSSED AMONG THE SAC – I have no objections but want it to be consistent with the volume projections mentioned above**
