1. Introduction

This document is intended as a companion to the 005010X279 • 270/271 Health Care Eligibility Benefit Inquiry and Response Implementation Guide dated April 2008. This document also includes updates appearing in:

- Errata 005010X279E1 • 270/271 Health Care Eligibility Benefit Inquiry and Response dated January 2009
- Errata 005010X279A1 • 270/271 Health Care Eligibility Benefit Inquiry and Response dated June 2010

The 5010 Implementation Guide and related Errata documents are available from the Washington Publishing Company at www.wpc-edi.com.

1.1 Scope

This document is expected to be used in conjunction with the 270/271 Implementation Guide and related Errata. The content of this document follows the guidelines authorized in the version modifications to the Health Insurance Portability and Accountability Act (HIPAA) Final Rule transaction standards published in the Federal Register January 16, 2009. Health plans, covered entities and their business associates that engage in the exchange of eligibility transactions are required by the Affordable Care Act (ACA) to comply with additional operating rule regulations for the 270/271 transactions. These operating rules are maintained by CAQH CORE.

This Companion Guide provides MDHHS-specific instructions regarding certain elements within the Implementation Guide but does not change, supersede, or add to the definitions, data conditions, or use of data elements or segments in the standard. This document provides MDHHS rules regarding:

- Identifiers to use when a national standard has not been adopted.
- Parameters in the Implementation Guide and related Errata that provide options.

Section 9, Transaction Specific Information, contains provider data clarifications for fields and values. Transaction specific data will be detailed using a table with the following information included:

- Loop
- Segment
- Data Element
- Loop/Segment/Element Name
- Companion Guide Rules

1.2 Overview

The primary purpose of this document is to assist trading partners with the submission and retrieval of valid 270/271 health care eligibility benefit inquire and response transactions and is intended to support use in batch and real-time mode.

This document provides information on the following topics:

- Real-time and batch use
- Search options
- Companion Guide Rules for the 270 and 271 transactions
- Appendix A containing a crosswalk of MDHHS Eligibility Data to the EB01, EB03, EB04, EB05, and EB07 Segments

Technical details for the following topics can be found in the MDHHS Electronic Submissions Manual (ESM). Please see Section 1.3 References for the ESM location.

- Testing with the Payer
- Data Exchange Gateway usage for batch
- Electronic Batch Upload
- Using the ACA CORE Communication Protocols with MDHHS, for real-time and batch, including header requirements, error reporting, and transmission procedures
- Acknowledgements and Reports (999 and TA1)

1.3 References

This section specifies additional on-line sources of helpful information related to electronic data interchange and X12 transactions.

1.4 Transaction Description

The 270/271 Health Care Eligibility Request and Response transactions are used to convey health care eligibility and benefit information. This paired transaction set is comprised of two transactions: the 270, which is used to request (inquire) information, and the 271, which is used to respond with coverage, eligibility, and benefit information.

1.5 General Information

This document is for Medicaid enrolled providers and/or their contracted billing agents and clearinghouse vendors. Please note that the information contained within this document is based on existing MDHHS Benefit Plan (BP) information and is subject to change. See the Medicaid Provider Manual for more information on program policy and benefit information (Section 1.3 *References*).

2. Getting Started

2.1 Working with MDHHS

An entity (provider, billing agent, clearinghouse, etc.) who wishes to retrieve responses, must enroll with MDHHS as a provider or billing agent. Please access the Provider Enrollment section at the location below for information on provider and billing agent enrollment:

www.michigan.gov/tradingpartners >> Electronic Submissions Transactions >> How to Enroll

Note: Clearinghouse vendors will need to enroll as a Billing Agent in CHAMPS and also be associated to their Providers to be able to submit and receive 270/271 transactions on their behalf.

2.2 Certification and Testing Overview

MDHHS has a two-stage testing process, which is described in Section 3, *Testing with the Payer*.

Completion of the testing process is required prior to electronic submission of production data to MDHHS. Once the testing requirements are met, MDHHS will advise the entity when they can submit transactions.

3. Testing with the Payer

The MDHHS Electronic Submissions Manual contains an overview of the testing process (see Section 1.3 *References*). More information on testing is available at the following location:

www.michigan.gov/tradingpartners >> Electronic Submissions Transactions

In general, the steps to complete testing are as follows:

1. Register as an electronic biller
2. Obtain authentication credentials appropriate to the mode of electronic billing
3. Create a 270 request based on the Implementation Guide and this Companion Guide
4. Submit 270 request through the test environment
5. Retrieve acknowledgement(s)
6. Retrieve response 271 and review content

4. Connectivity with the Payer / Communications

4.1 System Availability

The MDHHS CHAMPS system is available 24 hours 7 days a week except for a regular weekly and monthly maintenance windows. The weekly maintenance window occurs every Sunday from 8:00 a.m. to 10:00 a.m. The monthly maintenance window starts at 6:00 p.m. on the third Saturday of each month and ends at 6:00 a.m. on Sunday. For information on unscheduled outages, please check the Biller "B" Aware page at the following location:

www.michigan.gov/mdhhs >> Doing Business with MDHHS >> Health Care Providers >> Providers >> Medicaid >> Medicaid Alerts >> Biller "B" Aware

4.2 Process Flows

MDHHS supports several options for 270/271 transactions, including support for the ACA CORE required communication modes. For ACA CORE, CHAMPS supports the following envelope standards for batch and real-time transport modes for the 270/271 transaction set.

- HTTP MIME Multipart (Envelope Standard A)
- SOAP+WSDL (normative) (Envelope Standard B)

MDHHS supports other batch options in addition to the ACA CORE transport mode standards. These include the Data Exchange Gateway and Electronic Batch Upload.

4.3 Transmission Administrative Procedures

4.3.1 Structure Requirements

- Real-time 270 requests are limited to one inquiry, per patient, per transaction.
- Per the Implementation Guide, on a batch 270, up to ninety-nine patient requests may be submitted in a single transaction. Loop 2000C occurrences in excess of ninety-nine will receive a negative 999 with the following error message: "Number of patient

requests is <requests in the 271>. Recommended maximum for requests is 99”.

4.3.2 Response Times for ACA CORE Communication Protocols

- A response to the real-time inquiry will be provided within 20 seconds during hours of availability.
- The v5010 271 response to a v5010 270 batch inquiry submitted by 9:00 pm Eastern time of a business day will be returned by 7:00 am Eastern time the following business day.

4.4 Communication Protocols

Please see the Electronic Submissions Manual for additional information on using communication protocols (see Section 1.3 *References*).

4.4.1 HTTP MIME Multipart

MDHHS supports standard HTTP MIME messages. The MIME format used must be that of multipart/form-data. Responses to transactions sent in this manner will also be returned as multipart/form-data.

4.4.2 SOAP+WSDL

MDHHS also supports transactions formatted according to the Simple Object Access Protocol (SOAP) conforming to standards set for the Web Services Description Language (WSDL) for XML envelope formatting, submission, and retrieval.

7. Payer Specific Business Rules and Limitations

7.1 Supported Service Types

MDHHS supports the Service Types required by the HIPAA 5010 270/271 Implementation Guide and CAQH CORE.

7.2 Search Options and Responses

MDHHS supports the data set search criteria outlined below:

- Primary Search Options:
 - **Member ID:**
 - **2100A Loop:**
 - Data Element NM109: Use Code '**D00111**'
 - **2100C Loop:**
 - Data Element NM108: Use Qualifier '**MI**'
 - Data Element NM109: '**Beneficiary ID**'
 - **Inquiries using the UIC:**
 - **2100A Loop:**
 - Data Element NM109: Use Code '**D00111-UIC**'
 - **2100C Loop:**
 - Data Element REF01: Use Qualifier '**18**'
 - Data Element REF02: '**UIC Number**'
- Alternate Search Options - any two of the following:
 - Recipient Full Name (First Name, Last Name)
 - Recipient Date of Birth
 - Recipient SSN

-
- Additional Alternate Search Options to identify a unique member if AAA 76 (Duplicate Subscriber/Insured ID Number) is returned in 271:
- Gender Code
 - Postal Code
 - MA Case Number (Applicable for Member ID Selection only)

7.2.1 Invalid Social Security Numbers

MDHHS follows the Social Security Administration validation logic for SSNs. For example SSNs beginning with 666 and 999 and SSNs containing zeros for any segment of the number are not valid. A 271 will be returned with an AAA of 75 “Subscriber Not Found”.

7.2.2 Recipient Name (First Name or Last Name) Containing Special Characters

When performing an Eligibility Search using the Recipient’s Full Name (First and Last) all applicable special characters should be included. For example, if a Member has a special character (hyphen (-), apostrophe (’), etc.) in their First and/or Last Name and the special character is not included in the search the System will return a 271 response with the AAA of 73 error “Invalid/Missing Subscriber/Insured Name”.

7.3 Disproportionate Share Hospitals - DSH Audit Support

Eligibility inquiries for Disproportionate Share Hospital (DSH) audits are available for Hospital Providers (Inpatient only) enrolled under the Facility/Agency/Organization (FAO) enrollment type. Providers need to complete the following steps to submit Dates of Service (DOS) older than 1 year:

Step 1	Go to the ‘Complete Modification Checklist’ in the CHAMPS Provider Subsystem to complete the “Manage Provider Checklist” questions, including the following DSH question: <ul style="list-style-type: none">➤ “Do you need eligibility data (via HIPAA 270/271 real time and batch transactions) for DOS older than 1 year to complete a Medicare DSH audit? Selecting Yes acknowledges that any 270 - eligibility inquiry you submit with a DOS older than 1 year will only be used for Medicare DSH validation and for services related to Inpatient Hospital.”
---------------	---

Step 2	Select “Yes” under the Answer field drop-down for this question and complete the last 2 steps: Complete Modification Check List and Submit Modification Request for Review. This will generate an access request to MDHHS to approve.
Step 3	Once approved by MDHHS, begin submitting 270 transactions using EQ01 Service Type code “48” (Hospital – Inpatient) in the 2110C Loop. <i>Note: Submitting a 270 transaction with a 48 Service Type Code is an explicit request. The response will return all Benefit Plans associated with this service type code. A generic response will not be provided.</i>

8. Trading Partner Agreements

An EDI Trading Partner is defined as any MDHHS customer (provider, billing service, software vendor, employer group, financial institution, etc.) that transmits directly to, or receives electronic data directly from MDHHS.

If you are not already submitting electronic transactions to MDHHS, you will need to enroll with MDHHS. Please refer to Section 2.1 for information on enrolling with MDHHS as a provider or billing agent. Enrollment is required to send or retrieve electronic transactions.

Note: Electronic submitters will need to be associated to their Providers (or to themselves) within CHAMPS to be able to submit and receive 270/271 transactions on the Provider’s behalf.

9. Transaction Specific Information

9.1 ANSI ASC X12 270 - Transaction Set Companion Guide Rules

This document uses several text conventions to aid in the interpretation of the Companion Guide Rules. The following table lists the text conventions used in this document for 270 transactions *submitted* to MDHHS.

Convention used	Explanation
< >	Text included within < > describes the values MDHHS requires for submission.
“ ”	Text with “ ” around a value represents HIPAA Implementation Guide values.

Appendix C: TPL Medicare Response

Due to the Centers for Medicare & Medicaid Services (CMS) New Medicare Card Project, individual’s Social Security numbers were removed from Medicare cards to help combat identify theft. The new cards will now use a unique, randomly-assigned number called a Medicare Beneficiary Identifier (MBI) to replace the Social Security based Health Insurance Claim Number (HICN). Below are the 271 response rules for this HICN to MBI change-over.

Scenario	Response Generation Rule
Subscriber Additional Identification Medicare Group Number Rule (Loop 2110C. REF 02 with REF01 qualifier 6P)	<p>For All Commercial Payers, send Group Number.</p> <p>Starting 10/1/2018 – 12/31/2019: For Medicare Coverage with Payer ID= “11111111” OR “22222222” OR “33333333” OR “44444444” OR “77777777”, System will send the current MBI, if available. If no MBI is available, the Medicare Group Number will be sent on the 271 response.</p> <p>For Medicare Coverage with Payer ID= “55555555” OR “66666666”, the System will send the Group Number on the 271.</p> <p>Starting 1/1/2020 – 12/31/2999: For Medicare Coverage with Payer ID= “11111111” OR “22222222” OR “33333333” OR “44444444” OR “77777777”, System will send the current MBI, if available. If no MBI is available, the Medicare Group Number will be left blank on the 271 response.</p> <p>For Medicare Coverage with Payer ID= “55555555” OR “66666666”, the System will send the Group Number on the 271.</p>
Subscriber Additional Identification Medicare Policy Number Rule (Loop 2110C, REF02 with REF01 qualifier 1L)	<p>For All Commercial Payers, send Policy Number.</p> <p>Starting 10/1/2018 – 12/31/2019: For Medicare Coverage, (Payer ID= “11111111” OR “22222222” OR “33333333” OR “44444444” OR “55555555” OR “66666666” OR “77777777”), System will send the current MBI, if available. If no MBI is available, the Medicare Policy Number will be sent on the 271 response.</p> <p>Starting 1/1/2020 – 12/31/2999: For Medicare Coverage, (Payer ID= “11111111” OR “22222222” OR “33333333” OR “44444444” OR “55555555” OR “66666666” OR “77777777”), System will send the current MBI, if available.
