## REQUESTING A MICHIGAN DEATH RECORD

The Michigan Vital Records Office has records of deaths that occurred in Michigan and were **filed** with the state since **1867**. Some records were not filed with the state; some records are missing from the pre-1906 files. Death records are not restricted documents in Michigan. Anyone can request that a search be conducted if the application is completed, signed, and submitted with the required fee paid.

Short Form versus Long Form – A short form record includes pertinent facts of who is deceased, when and where the death occurred, but no medical information or manner of death. A long form record includes the full death registration including the medical conditions reported and other circumstances which led to death.
