Dear Colleagues,

Please note, as of October 1, 2019, CSHCS clients are eligible for a maximum of fifteen (15) Level II Care Coordination units per eligibility year. This change is an increase from the ten units that were previously authorized under CSHCS policy. If additional units are required beyond the fifteen allowed, an exception request must be submitted to MDHHS detailing the need and rationale for requested units. The Guidance Manual will be updated to reflect this change when the new version is released. We are also updating our contract language to reflect this change with an effective date of October 1, 2019. The required changes to the Children's Healthcare Automated Support Services (CHASS) system have already been completed and are currently viewable. Billing can commence immediately. Please contact Craig Boyce with any questions or concerns.

Thank you!
