

Bulletin Number: MSA 09-03

Distribution: Hearing Aid Dealers, Audiologists/Hearing Centers, Outpatient Hospitals, Practitioners
Medicaid Health Plans

Issued: January 1, 2009

Subject: Volume Purchase Contract for Hearing Aids

Effective: February 1, 2009

Programs Affected: Medicaid, Children's Special Health Care Services (CSHCS)

The Michigan Department of Community Health (MDCH) has elected to participate in a volume purchase contract arrangement for hearing aids, and has joined with Minnesota Medicaid and Wisconsin Medicaid in their current contract.

Effective for dates of service on or after February 1, 2009, covered hearing aids for both children and adults are indicated on the attached list of participating vendors/models. Prior authorization will not be required for initial analog or digital/programmable hearing aids if all other hearing aid requirements are met and restrictions, i.e., frequency of replacement, are not exceeded.

Providers must purchase hearing aids directly from the manufacturers/vendors that contract with MDCH. Hearing aid dealers and licensed audiologists affiliated with a hearing center must bill and will be reimbursed the contract price for the hearing aid.

The policy and the amount paid for dispensing fees will not change for non-contracted hearing aids.

The terms of the hearing aid contract are as follows:

- Hearing aids must:
 - Be new, current production models
 - Be complete instruments, including all necessary equipment to make it fully functional and fit properly
 - Use standard commercial batteries and battery sizes
 - Be accompanied by a live performance graph and invoice at the contracted price
 - Have a minimum 24-month manufacturer warranty covering parts and labor, not including ear piece, cord, and batteries
 - Have a 12-month loss and damage warranty
- No extra charge may be made for:
 - Specialty molded ear piece/ear molds
 - Casing color choice
 - Hypo-allergenic or soft canal casing
 - Packaging, postage, insurance, or handling while the aid is under any original or repair warranty

Other information regarding the contract:

- Hearing aids that do not prove satisfactory to a user are to be returned to the manufacturer within 90 days from the date the hearing aid is provided to the beneficiary at no cost to MDCH or the hearing aid dealer or licensed audiologist affiliated with a hearing center.
- The contract price for a hearing aid cannot be further reduced or altered.
- Manufacturers will not process hearing aid orders unless all applicable authorization requirements are met.

Medicaid covers the most cost-effective alternative that meets the beneficiary's medical need. If a beneficiary requires a hearing aid not included on the attached list, prior authorization is required along with documentation stating why none of the contracted hearing aids will suffice for the specific beneficiary.

Payment for a contracted hearing aid includes all repairs and modifications for a two-year period and loss and/or damaged replacements for a one-year period. Repairs required after the new hearing aid repair warranty has expired will be reimbursed based on the contracted rate and will have a new warranty period specified per the contract. When a contracted hearing aid requires a repair, MDCH will not reimburse the hearing aid dealer/audiologist for hearing aid fitting/checking services.

Manufacturers will not charge for packing, shipping, invoicing, postage, insurance, or handling while the hearing aid is under warranty and as long as the manufacturer is participating under the terms of the Contract. The Manufacturer will also be responsible for all shipping costs on non-warranty equipment repairs.

With the exception of modifications and adjustments required within the manufacturer's warranty period, the dispensing fee will now cover all services and products listed in section 1.7 of the Hearing Aid Dealers Policy for a period of 90 days.

No prior authorization is required for repairs to hearing aids purchased under the contract. The processing fee of \$19.20 may be added to the repair cost for hearing aids that are not covered under warranty.

When billing for new contracted hearing aids or repair of contracted hearing aids, please include the correct model name and model number in the comments section of the claim form. The repair charge must not exceed the contracted price.

As a reminder, licensed hearing aid dealers and licensed audiologists affiliated with hearing centers may dispense hearing aids.

Medicaid health plans have the option of participating in the contract, but are not required to do so.

Manual Maintenance

Retain this bulletin until the information has been incorporated into the Michigan Medicaid Provider Manual.

Questions

Any questions regarding this bulletin should be directed to Provider Inquiry, Department of Community Health, P.O. Box 30731, Lansing, Michigan 48909-8231, or e-mail at ProviderSupport@michigan.gov. When you submit an e-mail, be sure to include your name, affiliation, and phone number so you may be contacted if necessary. Providers may phone toll-free 1-800-292-2550.
