Reviewable Unit Instructions

### Executive Summary

**Summary Description Including Goals and Objectives** The SPA will amend the qualifying diagnoses, operational components, and expand the BHH to more geographic areas. The new qualifying diagnoses represent the highest cost/utilization ICD-10 codes for SMI/SED. In terms of operational components, the new structure will charge a Lead Entity (e.g., a PIHP) with the administrative oversight and payment for health home activities. The Lead Entity will partner with Health Home Partners that meet criteria specified in the SPA, and the payment will flow through the Lead Entity to the Health Home Partners. The staffing model and rates will be optimized to reflect an integrated care team to serve the highest-need SMI/SED beneficiaries. Finally, the BHH will be expanded to all counties within PIHP Regions 1, 2, and 8 to serve an estimated 5,000-6,000 beneficiaries once fully implemented.

### Federal Budget Impact and Statute/Regulation Citation

#### Federal Budget Impact

|        | Federal Fiscal Year | Amount     |
|--------|---------------------|------------|
| First  | 2021                | \$18400000 |
| Second | 2022                | \$18400000 |

#### Federal Statute / Regulation Citation

Section 1945 of the Social Security Act

Supporting documentation of budget impact is uploaded (optional).

#### Reviewable Unit Instructions

#### Name of Health Homes Program:

Chronic Care Management for Individuals with Serious and Persistent Mental Health Conditions

**One or more Indian Health Programs or Urban Indian Organizations furnish health care services in this state**

- Yes
- No

**This state plan amendment is likely to have a direct effect on Indians, Indian Health Programs or Urban Indian Organizations, as described in the state consultation plan.**

- Yes
- No

The state has solicited advice from Indian Health Programs and/or Urban Indian Organizations, as required by section 1902(a)(73) of the Social Security Act, and in accordance with the state consultation plan, prior to submission of this SPA.

#### Complete the following information regarding any solicitation of advice and/or tribal consultation conducted with respect to this submission:

#### Solicitation of advice and/or Tribal consultation was conducted in the following manner:

- All Indian Health Programs
- All Urban Indian Organizations

States are not required to consult with Indian tribal governments, but if such consultation was conducted voluntarily, provide information about such consultation below:

- All Indian Tribes

| Date of consultation: | Method of consultation:                                      |
|-----------------------|--|
| 2/14/2020             | Letter of Notification to Tribal Chairs and Health Directors |

The state must upload copies of documents that support the solicitation of advice in accordance with statutory requirements, including any notices sent to Indian Health Programs and/or Urban Indian Organizations, as well as attendee lists if face-to-face meetings were held. Also upload documents with comments received from Indian Health Programs or Urban Indian Organizations and the state's responses to any issues raised. Alternatively indicate the key issues and summarize any comments received below and describe how the state incorporated them into the design of its program.

#### Reviewable Unit Instructions

### Program Authority

1945 of the Social Security Act

The state elects to implement the Health Homes state plan option under Section 1945 of the Social Security Act.

#### Name of Health Homes Program

Chronic Care Management for Individuals with Serious and Persistent Mental Health Conditions

### Executive Summary

**Provide an executive summary of this Health Homes program including the goals and objectives of the program, the population, providers, services and service delivery model used**

This SPA 20-1500 is amending the existing Chronic Care Management for Individuals with Serious and Persistent Mental Health Conditions Health Homes Program (HHP). The SPA is requesting authority to optimize and expand this Health Home in select Michigan counties. The Health Home will provide comprehensive care management and coordination services to Medicaid beneficiaries with a select serious mental illness/serious emotional disturbance (SMI/SED) diagnosis. For enrolled beneficiaries, the Health Home will function as the central point of contact for directing patient-centered care across the broader health care system. Beneficiaries will work with an interdisciplinary team of providers to develop a person-centered health action plan to best manage their care. The model will also elevate the role and importance of Peer Support Specialists and Community Health Workers to foster direct empathy and raise overall health and wellness. In doing so, this will attend to a beneficiary's complete health and social needs. Participation is voluntary and enrolled beneficiaries may opt-out at any time. Michigan has three goals for the Health Home program: 1) improve care management of beneficiaries with SMI/SED; 2) improve care coordination between physical and behavioral health care services; and 3) improve care transitions between primary, specialty, and inpatient settings of care.

HHPs must meet specific qualification set forth in the SPA, Michigan Department of Health and Human Services (MDHHS) policy, and provide the six federally required core health home services.

MDHHS will provide a monthly case rate to the LE based on the number of beneficiaries with at least one service during that month. HHPs must contract with a LE in order to be a designated HHP and to receive payment. The LE will reimburse the Health Home Partner for delivering health home services. Finally, MDHHS will employ a pay-for-performance (P4P) incentive that will reward providers based on outcomes. MDHHS will only claim federal match for P4P incentive payments after P4P qualifications have been met and providers have been paid.

### General Assurances

- The state provides assurance that eligible individuals will be given a free choice of Health Homes providers.
- The states provides assurance that it will not prevent individuals who are dually eligible for Medicare and Medicaid from receiving Health Homes services.
- The state provides assurance that hospitals participating under the state plan or a waiver of such plan will be instructed to establish procedures for referring eligible individuals with chronic conditions who seek or need treatment in a hospital emergency department to designated Health Homes providers.
- The state provides assurance that FMAP for Health Homes services shall be 90% for the first eight fiscal quarters from the effective date of the SPA. After the first eight quarters, expenditures will be claimed at the regular matching rate.
- The state provides assurance that it will have the systems in place so that only one 8-quarter period of enhanced FMAP for each health homes enrollee will be claimed.
- The state provides assurance that there will be no duplication of services and payment for similar services provided under other Medicaid authorities.

## Categories of Individuals and Populations Provided Health Homes Services

The state will make Health Homes services available to the following categories of Medicaid participants

- Categorically Needy (Mandatory and Options for Coverage) Eligibility Groups
- Medically Needy Eligibility Groups

### Mandatory Medically Needy

- Medically Needy Pregnant Women
- Medically Needy Children under Age 18

### Optional Medically Needy (select the groups included in the population)

#### Families and Adults

- Medically Needy Children Age 18 through 20
- Medically Needy Parents and Other Caretaker Relatives

#### Aged, Blind and Disabled

- Medically Needy Aged, Blind or Disabled
- Medically Needy Blind or Disabled Individuals Eligible in 1973

### Population Criteria

The state elects to offer Health Homes services to individuals with:

- Two or more chronic conditions
- One chronic condition and the risk of developing another
- One serious and persistent mental health condition

#### Specify the criteria for a serious and persistent mental health condition:

Serious Mental Illness or Serious Emotional Disturbance Diagnosis

- a. F41 Other anxiety disorders
- b. F32 Major depressive disorder, single episode
- c. F43 Reaction to severe stress, and adjustment disorders
- d. F33 Major depressive disorder, recurrent
- e. F31 Bipolar disorder
- f. F06 Other mental disorders due to known physiological condition
- g. F25 Schizoaffective disorders
- h. F90 Attention-deficit hyperactivity disorders
- i. F20 Schizophrenia

### Enrollment of Participants

Participation in a Health Homes is voluntary. Indicate the method the state will use to enroll eligible Medicaid individuals into a Health Home:

- Opt-In to Health Homes provider
- Referral and assignment to Health Homes provider with opt-out
- Other (describe)

**Name:**

Hybrid Autoenrollment Process

**Description:**

Potential Behavioral Health Home (BHH) enrollees will be identified using a multifaceted approach. The Michigan Department of Health and Human Services (MDHHS) will provide a generated list that will pull potential enrollees from MDHHS administrative claims data into the Waiver Support Application (WSA) monthly. The Lead Entity (LE) will identify potential enrollees from the WSA and coordinate with a Health Home Partner (HHP) to fully enroll the Medicaid beneficiary into the BHH benefit.

Lead Entities will provide information about the BHH to all potential enrollees through community referrals, peer support specialist networks, other providers, courts, health departments, law enforcement, and other community-based settings. LEs will strategically provide these settings with informational brochures, posters, and other outreach materials to facilitate awareness and engagement of the BHH.

**A. Lead Entity Identification of Potential Enrollees**

The LE will be responsible for identifying potential enrollees that have a qualifying BHH diagnosis in the WSA to a perspective HHP and provide information regarding BHH services to the Medicaid beneficiary in coordination with the HHP.

**B. Provider-Recommended Identification of Potential Enrollees**

Health Home Partners are permitted to recommend potential enrollees for the BHH benefit via the WSA. BHH providers must provide documentation that indicates whether a potential BHH enrollee meets all eligibility for the health home benefit, including diagnostic verification, obtaining consent, and establishment of an individualized care plan. The LE must review and process all recommended enrollments in the WSA. MDHHS reserves the right to review and verify all enrollments.

**C. Enrollment and Dis-enrollment**

Full enrollment into the BHH is contingent on beneficiary completion of the Consent to Share Behavioral Health Information for Care Coordination Purposes (MDHHS-5515), verification of diagnosis eligibility, and the LE electronically enrolling the beneficiary in the WSA. The LE and HHP will work together to identify a recommended HHP setting where the potential health home enrollee will likely be most successful. After receiving the recommendation from the LE and HHP, the beneficiary will have the opportunity to choose their preferred HHP. The variety and number of HHPs may vary by region. Once the Medicaid beneficiary is assigned to a health home, the HHP will work with the beneficiary to complete the enrollment process. The LE must complete and process all required information for beneficiary enrollment through the WSA.

Failure to verify consent or diagnostic eligibility will prevent the Medicaid beneficiary from enrolling into the BHH benefit. Medicaid beneficiaries may opt-out (disenroll) from the BHH at any time with no impact on their eligibility for other Medicaid services.

Teams of Health Care Professionals

Health Teams

## Provider Infrastructure

### Describe the infrastructure of provider arrangements for Health Home Services

MDHHS will utilize designated providers for health homes. Health Home Partners (HHPs), through the Lead Entity (LE), will ensure beneficiary access to an interdisciplinary care team that addresses the beneficiary’s behavioral and physical health needs. The following represents the care team requirements per 100 enrollees:

- Health Home Director (0.50 FTE)
- Behavioral Health Specialist (0.25 FTE)
- Nurse Care Manager (1.00 FTE)
- Peer Support Specialist, Community Health Worker, Medical Assistant (3.00-4.00 FTE)
- Medical Consultant (.10 FTE)
- Psychiatric Consultant (.10 FTE)

All providers referenced above must meet the following criteria:

#### Health Home Director

- Provides leadership for implementation and coordination of health home activities

#### Behavioral Health Specialist

- An individual who has a minimum of a Bachelor’s Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor’s Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master’s Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school

#### Nurse Care Manager

- Must be a licensed registered nurse

#### Peer Support Specialist, Community Health Worker, Medical Assistant

- Appropriate certification/training

#### Medical Consultant

- Primary care physician, physician’s assistant, pediatrician, or nurse practitioner

#### Psychiatric Consultant

- Must be a licensed mental health professional (i.e. psychologist, psychiatrist, psychiatric nurse practitioner)

In addition to the above Required Provider Infrastructure Requirements, eligible BHH providers should coordinate care with the following professions:

- Dentist
- Dietician/Nutritionist
- Pharmacist
- Peer support specialist
- Diabetes educator
- School personnel
- Others as appropriate

## Supports for Health Homes Providers

### Describe the methods by which the state will support providers of Health Homes services in addressing the following components

1. Provide quality-driven, cost-effective, culturally appropriate, and person- and family- centered Health Homes services
2. Coordinate and provide access to high quality health care services informed by evidence-based clinical practice guidelines
3. Coordinate and provide access to preventive and health promotion services, including prevention of mental illness and substance use disorders
4. Coordinate and provide access to mental health and substance abuse services
5. Coordinate and provide access to comprehensive care management, care coordination, and transitional care across settings. Transitional care includes appropriate follow-up from inpatient to other settings, such as participation in discharge planning and facilitating transfer from a pediatric to an adult system of health care
6. Coordinate and provide access to chronic disease management, including self-management support to individuals and their families
7. Coordinate and provide access to individual and family supports, including referral to community, social support, and recovery services
8. Coordinate and provide access to long-term care supports and services
9. Develop a person-centered care plan for each individual that coordinates and integrates all of his or her clinical and non-clinical health-care related needs and services
10. Demonstrate a capacity to use health information technology to link services, facilitate communication among team members and between the health team and individual and family caregivers, and provide feedback to practices, as feasible and appropriate
11. Establish a continuous quality improvement program, and collect and report on data that permits an evaluation of increased coordination of care and chronic disease management on individual-level clinical outcomes, experience of care outcomes, and quality of care outcomes at the population level

#### Description

Participating sites must adhere to the State's provider qualifications and standards in order to maintain active status. These standards include the eleven key components for providers listed above. All Health Homes must participate in State-sponsored activities designed to support approved sites in transforming services delivery. This includes a mandatory Health Home orientation for the designated providers and clinical support staff before the program is officially implemented. The orientation will include all HHPs and include detailed training on program expectations to ensure provider readiness. Ongoing technical assistance will be made available through additional trainings and webinars after implementation. Individual assistance will be provided on an as needed basis by state or contractual staff. The state also anticipates forming Health Home workgroups and listserv forums for Health Home administrators and staff to communicate amongst each other and share best practices, solutions to potential service barriers or issues, monitoring and performance reporting concerns, and other needs. In addition, the state intends to develop and update a program specific website with provider resources and forms. The state will also serve as a resource, as needed, to connect providers to applicable state and local programs that would aid in the overall needs and goals of the Health Home beneficiary.

### Other Health Homes Provider Standards

**The state's requirements and expectations for Health Homes providers are as follows**

The Michigan BHH Lead Entity (LE) must:

1. Be a regional entity as defined in Michigan's Mental Health Code (330.1204b).
2. Must contract with and pay a negotiated rate to HHPs,
3. Must maintain a network of providers that support the BHHs to service beneficiaries with a serious mental illness/serious emotional disturbance diagnosis,
4. Have authority to access Michigan Medicaid claims and encounter data for the BHH target population,
5. Have authority to access Michigan's Waiver Support Application and CareConnect360,
6. Provides leadership for implementation and coordination of health home activities,
7. Serves as a liaison between the health homes site and MDHHS staff/contractors,
8. Champions practice transformation based on health home principles,
9. Develops and maintains working relationships with primary and specialty care providers including Community Mental Health Service Providers and inpatient facilities,
10. Collects and reports on data that permits an evaluation of increased coordination of care and chronic disease management,
11. Monitors Health Home performance and leads quality improvement efforts,
12. Designs and develops prevention and wellness initiatives, and referral tracking,
13. Must have the capacity to evaluate, select, and support providers who meet the standards for BHHs, including:
  - a. Identification of providers who meet the BHH standards,
  - b. Provision of infrastructure to support BHHs in care coordination,
  - c. Collecting and sharing member-level information regarding health care utilization and medications,
  - d. Providing quality outcome protocols to assess BHH effectiveness, and
  - e. Developing training and technical assistance activities that will support BHH in effective delivery of health home services.

The Lead Entity (LE) and the Health Home Partner (HHP) jointly must:

1. HHPs must be enrolled in the Michigan Medicaid program and in compliance with all applicable program policies
2. HHPs must enroll and execute any necessary agreement(s)/contract(s) with the LE; HHPs must also sign the MDHHS-5745 with MDHHS
3. HHPs must adhere to all federal and state laws regarding Section 2703 Health Homes recognition/certification, including the capacity to perform all core services specified by CMS. Providers shall meet the following recognition/certification standards:
  - a. Achieve Patient Centered Medical Home (PCMH) from national recognizing body (NCQA, AAAHC, JC, CARF) before the BHH becomes operational. PCMH application can be pending at the time of implementation.
  - b. Achieve CMS Stage 2 Meaningful Use (can be in-progress at the time of implementation).
4. Provide 24-hour, seven days a week availability of information and emergency consultation services to beneficiaries
5. Ensure access to timely services for enrollees, including seeing enrollees within seven days and 30 days of discharge from an acute care or psychiatric inpatient stay
6. Ensure person-centered and integrated recovery action planning that coordinates and integrates all clinical and non-clinical health care related needs and services
7. Provide quality-driven, cost-effective health home services in a culturally competent manner that addresses health disparities and improves health literacy
8. Utilize the MDHHS-5515 Consent to Share Behavioral Health and Substance Use Disorder Information
9. Demonstrate the ability to perform each of the following functional requirements. This includes documentation of the processes and methods used to execute these functions.
  - a. Coordinate and provide the six core services cited in Section 2703 of the Affordable Care Act
  - b. Coordinate and provide access to high-quality health care services informed by evidence-based clinical practice guidelines
  - c. Coordinate and provide access to preventive and health promotion services, including prevention of mental illness.
  - d. Coordinate and provide access to physical and mental health services.
  - e. Coordinate and provide access to chronic disease management, including self- management support to individuals and their families
  - f. Demonstrate a capacity to use health information technology to link services, facilitate communication among team members and between the health team and individual and family caregivers, and provide feedback to practices as appropriate
  - g. Establish a continuous quality improvement program, and collect and report on data that permits an evaluation of increased coordination of care and chronic disease management on clinical outcomes, experience of care outcomes, and quality of care outcomes at the population level
10. Demonstrate the ability to report required data for both state and federal monitoring of the program

#### Reviewable Unit Instructions

Identify the service delivery system(s) that will be used for individuals receiving Health Homes services

- Fee for Service
- PCCM
- Risk Based Managed Care

**The Health Plans will be a Designated Provider or part of a Team of Health Care Professionals**

- Yes
- No

**Provide a summary of the contract language that you will impose on the Health Plans in order to deliver the Health Homes services**

The contract amendment describes these requirements for the LEs:

- o Providing a network of BHHs in partnership with community based HHPs identified by the State to assure that all six core health home services are provided to BHH beneficiaries and assigning members to a health home, including receiving and evaluating referrals from community providers.
- o Handling beneficiary requests to opt-out or opt back into the BHH and requests to change HHPs
- o Providing beneficiary assignment lists to HHPs and indicating which HHP setting the BHH member is in
- o Recruiting and training HHPs, assuring that they meet the HHP and joint Lead Entity and HHP requirements detailed in the State Plan and BHH Handbook
- o Providing bidirectional methods for data sharing between the Lead Entity and HHPs, including clinical care alerts and population management tools
- o Collecting quality information and reporting on BHH quality measures to the State
- o Paying HHPs for BHH services on behalf of the State
- o Dedicating no less than .50 FTE to BHH management per 100 consumers, to serve as a State contact and participate in regular meetings with the State and stakeholders
- o Meeting all LE and joint LE and HHP Requirements
- o Participating in the BHH Learning Collaborative to promote best practices and process improvement in operating the BHHs
- o Submitting encounters and documenting BHH service(s) to the State in order to receive the monthly BHH case rate for each enrolled beneficiary with a service in a given month; the case rate will only be made if a HH service was provided by either the LE or an HHP
- o Following all federal and State requirements for HHs described in the Michigan Medicaid State Plan and relevant federal statutes.

The State provides assurance that any contract requirements specified in this section will be included in any new or the next contract amendment submitted to CMS for review.

## Payment Methodology

The State's Health Homes payment methodology will contain the following features

- Fee for Service
    - Individual Rates Per Service
    - Per Member, Per Month Rates
    - Fee for Service Rates based on
      - Severity of each individual's chronic conditions
      - Capabilities of the team of health care professionals, designated provider, or health team
      - Other
  - Comprehensive Methodology Included in the Plan
    - Incentive Payment Reimbursement
    - Fee for Service Rates based on
      - Severity of each individual's chronic conditions
      - Capabilities of the team of health care professionals, designated provider, or health team
      - Other
- Describe below**  
See P4P section of the payment methodology.

**Describe any variations in payment based on provider qualifications, individual care needs, or the intensity of the services provided** See the payment methodology attached.

- PCCM (description included in Service Delivery section)
- Risk Based Managed Care (description included in Service Delivery section)
- Alternative models of payment, other than Fee for Service or PMPM payments (describe below)

#### Reviewable Unit Instructions

### Rate Development

**Provide a comprehensive description in the SPA of the manner in which rates were set**

1. In the SPA please provide the cost data and assumptions that were used to develop each of the rates
2. Please identify the reimbursable unit(s) of service
3. Please describe the minimum level of activities that the state agency requires for providers to receive payment per the defined unit
4. Please describe the state's standards and process required for service documentation, and
5. Please describe in the SPA the procedures for reviewing and rebasing the rates, including
  - the frequency with which the state will review the rates, and
  - the factors that will be reviewed by the state in order to understand if the rates are economic and efficient and sufficient to ensure quality services.

**Comprehensive Description** See payment methodology attached.

### Assurances

The State provides assurance that it will ensure non-duplication of payment for services similar to Health Homes services that are offered/covered under a different statutory authority, such as 1915(c) waivers or targeted case management.

**Describe below how non-duplication of payment will be achieved** MDHHS has built into its MMIS, the ability to exclude benefit plans that may duplicate and offer payment for similar services provided under Medicaid. MDHHS will utilize this capability to prevent duplication and payment of services provided under other Medicaid authorities.

The state has developed payment methodologies and rates that are consistent with section 1902(a)(30)(A).

The State provides assurance that all governmental and private providers are reimbursed according to the same rate schedule, unless otherwise described above.

The State provides assurance that it shall reimburse providers directly, except when there are employment or contractual arrangements consistent with section 1902(a)(32).

### Reviewable Unit Instructions

## Service Definitions

Provide the state's definitions of the following Health Homes services and the specific activities performed under each service

### Comprehensive Care Management

#### Definition

Comprehensive care management begins with an assessment that will assist the provider and beneficiary in the development of the beneficiaries' individualized care plan. This care plan will be tailored to meet the beneficiaries' needs and goals. Individualized care plans will be measurable, well-defined, clinically relevant and monitored by members of the care delivery team. Issues identified during the assessment will be incorporated into the care plan which is documented in the EHR. Behavioral and physical health services will be integrated. Family members or other non-compensated support person(s) will be involved, when applicable. Health homes will track participants' treatment, outcomes, and self-management goals utilizing validated measurement tools, as appropriate, throughout their participation in the program. Periodic reassessment of patient will occur, including health status, service utilization, and to ascertain that appropriate community supports have been secured. Adjustments to the treatment plan may be necessary as applicable, including moving from one setting of care to another (e.g., FQHC to CMH, and vice-versa).

#### Describe how Health Information Technology will be used to link this service in a comprehensive approach across the care continuum

Health homes are required to have a functioning Electronic Health Record (EHR) to participate. LEs and HHPs will utilize their EHR to facilitate progress made on the overall care plan and adjust the plan accordingly in unison with the needs of the beneficiary. Health Homes will provide reporting via the EHR. Issues identified during the assessment will be incorporated into the care plan which is documented in the EHR.

HHPs must join the LEs centralized, claims-based health information exchange (HIE). This will assist care coordinators with maintaining a comprehensive care plan for each beneficiary enrolled in the health home.

#### Scope of service

The service can be provided by the following provider types

- Behavioral Health Professionals or Specialists

#### Description

**Behavioral Health Provider**  
 (An individual who has a minimum of a Bachelor's Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor's Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master's Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school)

- Screens individuals for mental health and substance use disorders,
- Refers beneficiaries to a licensed mental health provider and/or SUD therapist as necessary,
- Conducts brief intervention for individuals with behavioral health problems,
- Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,
- Supports primary care providers in identifying and behaviorally intervening with patients,
- Focuses on managing a population of patients versus specialty care,
- Works with patients to identify chronic behavior, discusses impact, and develops improvement strategies and specific goal-directed interventions,

Nurse Practitioner

- Develops and maintains relationships with community based mental health and substance abuse providers,
- Identifies community resources (i.e., support groups, workshops, etc.) for the patient to utilize to maximize wellness, and
- Provides patient education

**Description**

Nurse Practitioner: Physician, Nurse Practitioner, Physician's Assistant  
Provides medical consultation to assist the care team in the development of the beneficiary's care plan, participates in team huddles when appropriate, and monitors the ongoing physical aspects of care as needed.

Nurse Care Coordinators

**Description**

Nurse Care Manager  
(Licensed Registered Nurse)

- Participates in the selection of strategies to implement evidence-based wellness and prevention initiatives,
- Participates in initial care plan development including specific goals for all enrollees,
- Communicates with medical providers and subspecialty providers including mental health and SUD providers, long term care and hospitals regarding records including admission/discharge,
- Provides education in health conditions, treatment recommendations, medications and strategies to implement care plan goals, including both clinical and non-clinical needs,
- Monitors assessments and screenings to ensure findings are integrated in the care plan,
- Facilitates the use of the Electronic Health Record (EHR) and other Health Information Technology (HIT) to link services, facilitate communication among team members and provide feedback,
- Monitors and reports performance measures and outcomes, and
- Meets regularly with the care team to plan care and discuss cases and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic.

Nurses

Medical Specialists

Physicians

**Description**

Physicians, Nurse Practitioner, Physician's Assistant  
Provides medical consultation to assist the care team in the development of the beneficiary's care plan, participates in team huddles when appropriate, and monitors the ongoing physical aspects of care as needed.

Physician's Assistants

**Description**

Physicians, Nurse Practitioner, Physician's Assistant  
Provides medical consultation to assist the care team in the development of the beneficiary's care plan, participates in team huddles when appropriate, and monitors the ongoing physical aspects of care as needed.

**Care Coordination**

**Definition**

Care coordination is the organization of activities between participants responsible for different aspects of a patient's care designed to facilitate delivery of appropriate services across all elements of the broader health care system. It includes management of integrated primary and specialty medical services, behavioral health services, and social, educational, vocational, and community services and supports to attain the goals of holistic, high quality, cost-effective care and improved patient outcomes. Components of care coordination include knowledge of and respect for the patient's needs and preferences, information sharing/communication between providers, patient, and family members, resource management and advocacy.

Key support roles include the Peer Support Specialist, Community Health Worker (CHWs), and Medical Assistants (MAs). Peer Support Specialist services are provided by an individual with a lived experience and journey in receiving public mental health services and supports. The Peer Support Specialist helps to remove barriers and obstacles and links the beneficiary to resources in the recovery community.

Services provided by a Peer Support Specialist support beneficiary with health navigation, accessing resources, and supporting a person-centered recovery journey to achieve community inclusion and participation, independence, recovery, and resiliency.

Peer Support Specialists embody a powerful message of hope, helping beneficiaries achieve a full and meaningful life in the community. The Peer Support Specialist can assist with tasks such as setting recovery goals, developing action plans, and solving problems directly related to recovery.

The Peer Support Specialist shall receive regular supervision by a case manager, treatment practitioner, prevention staff or an experienced Certified Peer Support Specialist who has over two continuous years in recovery and over two years in the direct provision of recovery coach services and supports.

Community Health Workers are professionals identified by the American Public Health Association. CHWs are frontline public health workers who have an understanding of the community they serve. The CHW to serves as a liaison/link/intermediary between health/social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery. A CHW also builds individual and community capacity by increasing health knowledge and self-sufficiency through a range of activities such as outreach, community education, informal counseling, social support and advocacy.

Medical Assistants are multi-skilled health professionals specifically educated to work in ambulatory care settings performing both administrative and clinical duties. MAs help support care coordination for beneficiaries by scheduling appointments, arranging hospital admissions and laboratory services, instructing patient about medication and special diets, preparing and administering medications, and authorizing prescription refills.

Peer Support Specialists, CHWs, MAs, and other Care Coordinators will, at a minimum, provide:

- \*Emphasis will be placed on in-person contacts; however telephonic outreach may be used for lower-risk Health Home members who require less frequent face to face contact
- \*Appointment making assistance, including coordinating transportation
- \*Development and implementation of care plan
- \*Medication adherence and monitoring
- \*Referral tracking
- \*Use of facility liaisons, as available (i.e., nurse care managers)
- \*Patient care team huddles
- \*Use of case conferences, as applicable
- \*Tracking test results
- \*Requiring discharge summaries

**Describe how Health Information Technology will be used to link this service in a comprehensive approach across the care continuum**

Lead Entities and Health Home Partners will utilize their EHR to record care coordination activities and adjust these activities, as appropriate.

**Scope of service**

**The service can be provided by the following provider types**

- Behavioral Health Professionals or Specialists

**Description**

Behavioral Health Provider  
 (An individual who has a minimum of a Bachelor's Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor's Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master's Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school)

- Screens individuals for mental health and substance use disorders,
- Refers beneficiaries to a licensed mental health provider and/or SUD therapist as necessary,
- Conducts brief intervention for individuals with behavioral health problems,
- Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,
- Supports primary care providers in identifying and behaviorally

- intervening with patients,
- Focuses on managing a population of patients versus specialty care,
- Works with patients to identify chronic behavior, discusses impact, and develops improvement strategies and specific goal-directed interventions,
- Develops and maintains relationships with community based mental health and substance abuse providers,
- Identifies community resources (i.e., support groups, workshops, etc.) for the patient to utilize to maximize wellness, and
- Provides patient education

- Nurse Practitioner
- Nurse Care Coordinators

**Description**

**Health Promotion**

**Definition**

Health Promotion begins with the initial health homes visit or while establishing a formal care plan. The health home will assess the readiness to change and provide the beneficiary with the appropriate level of encouragement and support for the adoption of these healthy behaviors and/or lifestyle changes. Healthy behaviors and/or lifestyle interventions include but are not limited to:

- \*Development of self-management plans
- \*Evidenced-based wellness and promotion
- \*Patient education
- \*Patient and family activation
- \*Addressing clinical and social needs
- \*Patient-centered training (e.g., diabetes education, nutrition education)
- \*Connection to resources for smoking prevention and cessation, substance use disorder treatment and prevention, nutritional counseling, obesity

reduction and prevention, increasing physical activity, disease specific or chronic care management self-help resources, and other services, such as housing based on beneficiaries' needs and preferences.

**Describe how Health Information Technology will be used to link this service in a comprehensive approach across the care continuum**

LEs and HHPs will utilize their EHR to record health promotion activities and adjust these activities, as appropriate. The EHR can provide educational material for the beneficiary to assist with overall health promotion.

**Scope of service**

**The service can be provided by the following provider types**

Behavioral Health Professionals or Specialists

**Description**

**Behavioral Health Provider**

(An individual who has a minimum of a Bachelor's Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor's Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master's Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school)

**Comprehensive Transitional Care from Inpatient to Other Settings (including appropriate follow-up)**

**Definition**

Comprehensive transitional care services connect the beneficiary to needed health services available within the community. Health services include care provided outside of the health home. Health homes will be expected to coordinate and track their participants:

- \*Notification of admissions/discharge
- \*Receipt of care record, continuity of care document, or discharge summary
- \*Post-discharge outreach to assure appropriate follow-up services
- \*Medication reconciliation
- \*Pharmacy coordination
- \*Proactive care (versus reactive care)
- \*Specialized transitions when necessary (e.g., age, corrections)
- \*Home visits

**Describe how Health Information Technology will be used to link this service in a comprehensive approach across the care continuum**

Utilizing the LEs HIE will allow for seamless transitions of care within the region. Moreover, CareConnect360, an MDHHS supported application, is anticipated to support Health Home services by providing access to admission, discharge, and transfer information. CareConnect360 will also provide a resource to health homes providers to track labs, and pharmacy data. In addition, the application will include data on health status and utilization patterns based on claims data. Together, this will allow for seamless transitions of care so that the beneficiary is received and accommodated appropriately at every health service and community setting. Michigan's LEs have access to CareConnect360 and will leverage the application as appropriate.

**Scope of service**

**The service can be provided by the following provider types**

- Behavioral Health Professionals or Specialists

**Description**

**Behavioral Health Provider**  
 (An individual who has a minimum of a Bachelor's Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor's Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master's Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school)

- Screens individuals for mental health and substance use disorders,
- Refers beneficiaries to a licensed mental health provider and/or SUD therapist as necessary,
- Conducts brief intervention for individuals with behavioral health problems,
- Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,
- Supports primary care providers in identifying and behaviorally intervening with patients,
- Focuses on managing a population of patients versus specialty care,
- Works with patients to identify chronic behavior, discusses impact, and develops improvement strategies and specific goal-directed interventions,

- Nurse Practitioner
- Nurse Care Coordinators

- Develops and maintains relationships with community based mental health and substance abuse providers,
- Identifies community resources (i.e., support groups, workshops, etc.) for the patient to utilize to maximize wellness, and
- Provides patient education

**Description**

Nurse Care Manager

(Licensed Registered Nurse)

- Participates in the selection of strategies to implement evidence-based wellness and prevention initiatives,
- Participates in initial care plan development including specific goals for all enrollees,
- Communicates with medical providers and subspecialty providers including mental health and SUD providers, long term care and hospitals regarding records including admission/discharge,
- Provides education in health conditions, treatment recommendations, medications and strategies to implement care plan goals, including both clinical and non-clinical needs,
- Monitors assessments and screenings to ensure findings are integrated in the care plan,
- Facilitates the use of the Electronic Health Record (EHR) and other Health Information Technology (HIT) to link services, facilitate communication among team members and provide feedback,
- Monitors and reports performance measures and outcomes, and
- Meets regularly with the care team to plan care and discuss cases and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic.

- Nurses
- Medical Specialists
- Physicians
- Physician's Assistants
- Pharmacists
- Social Workers
- Doctors of Chiropractic
- Licensed Complementary and alternative Medicine Practitioners
- Dieticians
- Nutritionists
- Other (specify)

**Individual and Family Support (which includes authorized representatives)**

**Definition**

Individual and family support services reduce barriers to the beneficiaries' care coordination, increase skills and engagement and improve overall health outcomes. Specific activities may include, but are not limited to:

- \*Use of community supports (e.g., community health workers, peer supports, support groups, self-care programs, as appropriate)
- \*Facilitation of improved adherence to treatment
- \*Advocacy for individual and family needs
- \*Efforts to assess and increase health literacy
- \*Use of advance directives
- \*Assistance with maximizing level of functioning in the community

**Describe how Health Information Technology will be used to link this service in a comprehensive approach across the care continuum**

The HIE, EHR, and CareConnect360 will assist providers in supporting beneficiaries and their families with helpful information to empower and educate themselves and subsequently maximize self-management of health.

**Scope of service**

The service can be provided by the following provider types

Behavioral Health Professionals or Specialists

**Description**

Behavioral Health Provider

(An individual who has a minimum of a Bachelor's Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor's Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master's Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school)

- Screens individuals for mental health and substance use disorders,
- Refers beneficiaries to a licensed mental health provider and/or SUD therapist as necessary,
- Conducts brief intervention for individuals with behavioral health problems,
- Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,

**Referral to Community and Social Support Services**

**Definition**

Referrals to community and social support services provide recipients with referrals to a wide array of support services that help recipients overcome access or service barriers, increase self-management skills and improve overall health. Specific activities may include, but are not limited to:

\*Collaboration/coordination with community-based organizations and other key community stakeholders

\*Emphasis on resources closest to the patient’s home with least barriers

\*Identification of community-based resources

\*Availability of resource materials pertinent to patient needs

\*Assist in attainment of other resources, including benefit acquisition

\*Referral to housing resources as needed

\*Referral tracking and follow-up

**Describe how Health Information Technology will be used to link this service in a comprehensive approach across the care continuum**

While the community and social services supports network may not have direct access to the enrollee’s health record, MDHHS anticipates that the HIE, EHR, and CareConnect360 will afford providers the ability to track, follow-up and evaluate referrals to these services. In addition, HIT will provide beneficiaries and their families with helpful resource materials to empower and educate themselves and subsequently maximize self-management of health.

**Scope of service**

**The service can be provided by the following provider types**

- Behavioral Health Professionals or Specialists

**Description**

Behavioral Health Provider  
 (An individual who has a minimum of a Bachelor’s Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor’s Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master’s Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school)

- Screens individuals for mental health and substance use disorders,
- Refers beneficiaries to a licensed mental health provider and/or SUD therapist as necessary,
- Conducts brief intervention for individuals with behavioral health problems,
- Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,

## Monitoring

**Describe the state's methodology for calculating cost saving (and report cost savings annually in Quality Measure Report). Include savings that result from improved coordination of care and chronic disease management achieved through the Health Homes Program, including data sources and measurement specifications, as well as any savings associated with dual eligibles, and if Medicare data was available to the state to utilize in arriving at its cost-savings estimates**

MDHHS will contract with an independent evaluator to execute a cost-efficiency analysis for the BHH program. Broadly, the cost-focused analyses will consider the consequences of improved care coordination and clinical management for beneficiaries enrolled in the program and will also measure total expenditures for individuals enrolled in the program comparing the implementation period with the period immediately prior to program implementation. In addition to the pre-post comparison, the independent evaluator will also compare total expenditures for beneficiaries enrolled in the intervention (program) with expenditures for a concurrent control population identified on the basis of their specific eligible conditions and receipt of care in federally qualified health centers. These dual approaches will provide a robust evaluation of the program. All analyses will be presented in aggregate terms and also as PMPM. Michigan will use the MDHHS Data Warehouse which will include administrative claims data pre- and post-Health Homes implementation; administrative claims data for the intervention and control populations, which will be formally defined in the cost-efficiency evaluation methodology. Adjustments will be made for cost outliers in the analysis.

**Describe how the state will use health information technology in providing Health Homes services and to improve service delivery and coordination across the care continuum (including the use of wireless patient technology to improve coordination and management of care and patient adherence to recommendations made by their provider)**

Added to the maintenance of their own electronic health records (EHRs), approved Health Homes will utilize available forms of HIT to facilitate HIE necessary for carrying out selected Health Home services. The LE will also utilize CareConnect360, which is a care coordination tool that allows providers to access comprehensive retrospective Medicaid claim and encounter data. It supports queries that allow Health Homes to view the following beneficiary information:

- \*Current and prior health conditions
- \*Rendering services provider, date of service, and length of stay (if applicable)
- \*Pharmacy claims data
- \*Hospitalization and ED utilization, including diagnoses

### Quality Measurement and Evaluation

- The state provides assurance that all Health Homes providers report to the state on all applicable quality measures as a condition of receiving payment from the state
- The state provides assurance that it will identify measureable goals for its Health Homes model and intervention and also identify quality measures related to each goal to measure its success in achieving the goals
- The state provides assurance that it will report to CMS information submitted by Health Homes providers to inform evaluations, as well as Reports to Congress as described in Section 2703(b) of the Affordable Care Act and as described by CMS
- The state provides assurance that it will track avoidable hospital readmissions and report annually in the Quality Measures report

PRA Disclosure Statement: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1188. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. ## BHH Detailed Provider Infrastructure

### Detailed Requirements and Expectations

At a minimum, the following care team is required:

- **Health Home Director** (e.g., lead entity professional):
  - Provides overarching leadership for health home services,
  - Provides coordination of health home activities,
  - Collects and reports on data that permits an evaluation of increased coordination of care and chronic disease management,
  - Monitors health home performance and leads quality improvement efforts,
  - Designs and develops prevention and wellness initiatives, and referral tracking,
  - Executes enrollment using the MDHHS electronic enrollment system,
  - Provides training and technical assistance, and
  - Provides data management and reporting.
  
- **Behavioral Health Specialist** (e.g., shall be an individual who has a minimum of a Bachelor's Degree from an accredited four year institution of higher learning, with specialization in psychology, mental health and human services, behavioral health, behavioral sciences, social work, human development, special education, counseling, rehabilitation, sociology, nursing, or closely related field; OR who has a Bachelor's Degree from an accredited four year educational institution in an unrelated field and at least one year of full-time equivalent relevant human services experience; OR an individual who has Master's Degree in social work, education, psychology, counseling, nursing, or closely related field from an accredited graduate school):
  - Screens individuals for mental health and substance use disorders,
  - Refers beneficiaries to a licensed mental health provider and/or SUD therapist as necessary,
  - Conducts brief intervention for individuals with behavioral health problems,
  - Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,
  - Supports primary care providers in identifying and behaviorally intervening with patients,
  - Focuses on managing a population of patients versus specialty care,
  - Works with patients to identify chronic behavior, discusses impact, and develops improvement strategies and specific goal-directed interventions,
  - Develops and maintains relationships with community based mental health and substance abuse providers,
  - Identifies community resources (i.e., support groups, workshops, etc.) for the patient to utilize to maximize wellness, and
  - Provides patient education.
  
- **Nurse Care Manager** (e.g., licensed registered nurse):
  - Participates in the selection of strategies to implement evidence-based wellness and prevention initiatives,
  - Participates in initial care plan development including specific goals for all enrollees,
  - Communicates with medical providers and subspecialty providers including mental health and SUD providers, long term care and hospitals regarding records including admission/discharge,

- Provides education in health conditions, treatment recommendations, medications and strategies to implement care plan goals, including both clinical and non-clinical needs,
  - Monitors assessments and screenings to ensure findings are integrated in the care plan,
  - Facilitates the use of the Electronic Health Record (EHR) and other Health Information Technology (HIT) to link services, facilitate communication among team members and provide feedback,
  - Monitors and reports performance measures and outcomes, and
  - Meets regularly with the care team to plan care and discuss cases and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic.
- **Peer Support Specialist, Community Health Worker, or Medical Assistant** (with appropriate certification/training):
    - Coordinates and provides access to individual and family supports, including referral to community social supports,
    - Meets regularly with the care team to plan care and discuss cases, and exchanges appropriate information with team members in an informal manner as part of the daily routine of the clinic,
    - Identifies community resources (i.e. social services, workshops, etc.) for patient to utilize to maximize wellness,
    - Conducts referral tracking,
    - Coordinates and provides access to chronic disease management including self-management support,
    - Implements wellness and prevention initiatives,
    - Facilitates health education groups, and
    - Provides education on health conditions and strategies to implement care plan goals including both clinical and non-clinical needs.
  - **Medical Consultant** (i.e., primary care physician, physician’s assistant, pediatrician, or nurse practitioner):
    - Provides medical consultation to assist the care team in the development of the beneficiary’s care plan, participates in team huddles when appropriate, and monitors the ongoing physical aspects of care as needed.
  - **Psychiatric Consultant:**
    - The care team must have access to a licensed mental health service professional (i.e., psychologist, psychiatrist, psychiatric nurse practitioner) providing psychotherapy consult and treatment plan development services. This provider will be responsible for communicating treatment methods and expert advice to the Behavioral Health Provider (incorporated into care team). It will be the responsibility of the Behavioral Health Provider (and/or other members of care team as assigned), to develop a licensed mental health provider’s treatment into a patient’s care plan.

### Detailed Provider Objectives

Under Michigan’s approach to BHH implementation, the primary objective is to foster optimal recovery and/or a decrease in disease burden for all beneficiaries. This requires all providers to deliver efficient care, increase access, create a continuum of care, reduce costs, avoid preventable emergency room

visits, and improve patient outcomes. To achieve these objectives health home providers will be required to meet the following standards.

### **1. Enrollment/Recognition/Certification**

- a. BHH providers must be enrolled in the Michigan Medicaid program and in compliance with all applicable program policies
- b. Be a Community Mental Health Services Program, Section 330 Health Center program grantee of any type, Federally Qualified Health Center Look-Alike, Tribal 638 facility, Clinical Practice or Clinical Group Practices, Community/Behavioral Health Agency, or Urban Indian organization
- c. HHPs must enroll and execute any necessary agreement(s)/contract(s) with the LE; HHPs must also sign the MDHHS-5745 with MDHHS
- d. MDHHS will contractually charge the LE with executing the enrollment, payment, and administration of the BHH with providers; MDHHS will retain overall oversight and direct administration of the LE. The LE will also serve as part of the Health Home team by providing care management and care coordination services
- e. HHPs must adhere to all federal and state laws regarding Section 2703 Health Homes recognition/certification, including the capacity to perform all core services specified by CMS. Providers shall meet the following recognition/certification standards:
  - i. Achieve Patient Centered Medical Home (PCMH) from national recognizing body (NCQA, AAAHC, JC, CARF) before the BHH becomes operational. PCMH application can be pending at the time of implementation.
  - ii. Achieve CMS Stage 2 Meaningful Use (can be in-progress at the time of implementation).

### **2. A personal care team will be assigned to each patient**

- a. Ensure each patient has an ongoing relationship with a personal member of their care team who is trained to provide first contact and support continuous and comprehensive care, where both the patient and the care team recognize each other as partners in care. Behavioral health is embedded into primary care and vice-versa, with real-time consult available to primary care providers or behavioral health providers

### **3. Whole Person Orientation**

- a. Provide or take responsibility for appropriately arranging care with other qualified professionals. This includes care for all stages of life, acute care, chronic care, preventive services, long term care, and end of life care
- b. Meaningful use of technology for patient communication
- c. Develop a person-centered care plan for everyone that coordinates and integrates all clinical and non-clinical health care related needs and services

### **4. Coordinated/Integrated Care**

- a. Dedicate a care coordinator responsible for assisting members with medication adherence, appointments, referral scheduling, tracking follow-up results from referrals, understanding health insurance coverage, reminders, transition of care, wellness education, health support and/or lifestyle modification, and behavior changes and communication with external specialists
- b. Communicate with patient, and authorized family and caregivers in a culturally and linguistically appropriate manner
- c. Monitor, arrange, and evaluate appropriate evidence-based and/or evidence-informed preventive services and health promotion

- d. Directly provide or have an Memorandum of Agreement/Understanding (MOA/U) in place to coordinate or provide:
  - iii. Primary care services
  - iv. Mental health/behavioral health and substance use disorder services
  - v. Chronic disease management
  - vi. Behavior modification interventions aimed at supporting health management (Including but not limited to, obesity counseling, tobacco treatment/cessation, and health coaching)
  - vii. Coordinated access to long term care supports and services
  - viii. Oral health services
- e. Conduct outreach to local health systems and establish bi-directional referral processes
- f. Comprehensive transitional care from inpatient to other settings, including appropriate follow-up
- g. Review and reconciliation of medications
- h. Assessment of social, educational, housing, transportation, and vocational needs that may contribute to disease and/or present as barriers to self-management (Social workers, Peer Support Specialists, CHWs)
- i. Maintain a reliable system and written standards/protocols for tracking patient referrals

#### **5. Emphasis on Quality and Safety**

- a. Health homes providers must adhere to all applicable privacy, consent, and data security statutes
- b. Demonstrate use of clinical decision support within the practice workflow specific to the conditions identified in the health homes project
- c. Demonstrate use of a population management tool such as a patient registry and the ability to evaluate results and implement interventions that improve outcomes
- d. Each Health Home shall implement formal screening tools such as SBIRT, PHQ9, GAD, STD/STI, diabetes, and asthma risk tests to assess treatment needs
- e. Establish a continuous quality improvement program, and collect and report on data that permits an evaluation of increased coordination of care and chronic disease management on individual-level clinical outcomes, experience of care outcomes, and quality of care outcomes at the population level

#### **6. Enhanced Access**

- a. Provide for 24/7 access to the care team that includes, but is not limited to, a phone triage system with appropriate scheduling during and after regular business hours to avoid unnecessary emergency room visits and hospitalizations
- b. Monitor access outcomes such as the average 3rd next available appointment and same day scheduling availability
- c. Use of email, text messaging, patient portals and other technology as available to the practice to communicate with patients is encouraged
- d. Implement policies and procedures to operation with open access scheduling and available same day appointments

#### **7. Health Information Technology**

- a. Must have an Electronic Health Record (EHR) in place with capability of behavioral health information integration

- b. Must utilize/synchronize to the LE's Health Information Exchange to assure care coordination is seamless within the BHH model
- c. Provider must have achieved or are in the process of achieving Meaningful Use Stage 2 as defined by the Centers for Medicare & Medicaid Services
- d. Demonstrate a capacity to use health information technology to link services, facilitate communication among team members as well as between the health team and individual and family caregivers, and provide feedback to practices; as feasible and appropriate
- e. Health Home providers must have the capacity to electronically report to the state or its contracted affiliates information about the provision of core services and outcome measures

#### **8. BHH Team**

- a. Support BHH team participation in all related activities and trainings including travel costs associated with Health Home activities
- b. Work collaboratively with MDHHS and contractors to adapt and adopt program processes for Health Home care team use in the participating sites(s)
- c. Actively engage in Health Home process and outcome achievement activities including ongoing coaching, data feedback and customized improvement plans to meet initiative goals
- d. Commit a management staff member (such as the Health Home Director) and a clinician champion serving on the care team(s) at the participating site(s) to contribute actively to and support the project
- e. Commit a staff member to serve as the liaison to the beneficiary's assigned managed care health plan.

**MDHHS Behavioral Health Home (BHH) Payment Methodology**

**Overview**

MDHHS will provide a monthly case rate to the LE based on the number of BHH beneficiaries with at least one BHH service within the month. The LE will reimburse Health Home Partners (HHP) for delivering health home services.

Additionally, MDHHS will employ a pay-for-performance (P4P) incentive that will reward providers based on outcomes. MDHHS will only claim federal match for P4P incentive payments after P4P qualifications have been met and providers have been paid.

**Rate Workup**

Staffing Model

BHH payment rates are based on a staffing model per 100 beneficiaries with salary, fringe benefit, and indirect cost information derived from current compensation surveys produced by the Community Mental Health Association of Michigan (i.e., Prepaid Inpatient Health Plans, Community Mental Health Services Programs) and the Michigan Primary Care Association (i.e., Federally Qualified Health Centers). Rates reflect the following staffing model for the BHH per 100 enrollees:

- Health Home Director (0.50 FTE)
- Behavioral Health Specialist (0.25 FTE)
- Nurse Care Manager (1.00 FTE)
- Peer Support Specialist, Community Health Worker, Medical Assistant (3.00 - 4.00 FTE)
- Medical Consultant (0.10 FTE)
- Psychiatric Consultant (0.10 FTE)

Rate Amounts

The BHH payment rates reflect a monthly case rate per BHH beneficiary with at least one proper and successful BHH service within a given month. The payment for BHH services is subject to recoupment if an enrolled beneficiary does not receive a BHH service during the calendar month. Rates will be effective on or after October 1, 2020. Rate information will be maintained on the MDHHS website at [www.michigan.gov/BHH](http://www.michigan.gov/BHH). Rates will be evaluated annually and updated as appropriate.

The case rates reflect the preceding staffing model per 100 enrollees and were developed by utilizing provider compensation surveys from the Community Mental Health Association of Michigan (2019) and the Michigan Primary Care Association (2019). The State also utilized 2018 fringe rate data from the US Department of Labor’s Bureau of Labor and Statistics. MDHHS will continue to use this methodology to evaluate case rates annually.

Behavioral Health Home Case Rates to Lead Entity

The following table depicts the case rate structure:

| Monthly Case Rate | Monthly Case Rate with P4P |
|-------------------|----------------------------|
| \$389.97          | \$ 410.49                  |

Details regarding this structure are as follows:

HHPs must provide at least one BHH service within the service month. HHPs must submit the BHH service encounter code in addition to any pertinent ICD-10 Z-codes (to indicate the any applicable social determinants of health) to the Lead Entity.

Payment for BHH services is dependent on the submission of appropriate service encounter codes. Valid BHH encounters must be submitted by HHPs to the LE within 90 days of providing an BHH service to assure timely service verification. The payment for BHH services is subject to recoupment from the PIHP if the beneficiary does not receive an BHH service during the calendar month.

Rates will be effective on or after October 1, 2020. Rate information will be maintained on the MDHHS website at [www.michigan.gov/BHH](http://www.michigan.gov/BHH). Rates will be evaluated annually and updated as appropriate.

**Pay-for-Performance (P4P) vis a vis 5% Withhold**

MDHHS will afford P4P via a 5% performance withhold. The LE must distribute P4P monies to HHPs that meet the quality improvement benchmarks in accordance with the approved SPA, policy, and the BHH Handbook. The State will only claim federal match once it determines quality improvement benchmarks have been met and providers have been paid. If quality improvement benchmarks are not met by any of the HHPs within a given performance year, the State share of the withhold will be reserved by MDHHS and reinvested for BHH monthly case rate payments. Subsequent performance years will operate in accordance with this structure.

Metrics, Assessment, and Distribution

The methodology for metrics, specifications, and benchmarks will be effective October 1, 2020 and will be maintained on the MDHHS website: [www.michigan.gov/BHH](http://www.michigan.gov/BHH).

## Behavioral Health Home (BHH) Patient Flow

### **Potential Behavioral Health Home Enrollee Identification and Enrollment**

Potential Behavioral Health Home (BHH) enrollees will be identified using a multifaceted approach. The Michigan Department of Health and Human Services (MDHHS) will provide a generated list that will pull potential enrollees from MDHHS administrative claims data into the Waiver Support Application (WSA) monthly. The Lead Entity (LE) will identify potential enrollees from the WSA and coordinate with a Health Home Partner (HHP) to fully enroll the Medicaid beneficiary into the BHH benefit.

Lead Entities will provide information about the BHH to all potential enrollees through community referrals, peer support specialist networks, other providers, courts, health departments, law enforcement, and other community-based settings. LEs will strategically provide these settings with informational brochures, posters, and other outreach materials to facilitate awareness and engagement of the BHH.

### Lead Entity Identification of Potential Enrollees

The LE will be responsible for identifying potential enrollees that have a qualifying BHH diagnosis in the WSA to a perspective HHP and provide information regarding BHH services to the Medicaid beneficiary in coordination with the HHP.

### Provider-Recommended Identification of Potential Enrollees

Health Home Partners are permitted to recommend potential enrollees for the BHH benefit via the WSA. BHH providers must provide documentation that indicates whether a potential BHH enrollee meets all eligibility for the health home benefit, including diagnostic verification, obtaining consent, and establishment of an individualized care plan. The LE must review and process all recommended enrollments in the WSA.

### Beneficiary Consent

Potential enrollees must provide HHPs a signed consent to share behavioral health information for care coordination purposes form (MDHHS-5515) to receive the BHH benefit. The MDHHS-5515 must be collected and stored in the beneficiary's health record with attestation in the WSA. The MDHHS-5515 can be found on the MDHHS website at [www.michigan.gov/mdhhs](http://www.michigan.gov/mdhhs) >> Keeping Michigan Healthy >> Behavioral Health and Developmental Disability >> Behavioral Health Information Sharing & Privacy. The form will also be available at the designated HHPs office and on the LE's website. HHPs are responsible for verifying receipt of the signed consent form and providing proper documentation to MDHHS via the LE. All documents must be maintained in compliance with MDHHS record-keeping requirements.

### Beneficiary Disenrollment

Full enrollment into the BHH benefit plan is contingent on beneficiary completion of the Consent to Share Behavioral Health Information for Care Coordination Purposes (MDHHS-5515), verification of diagnostic eligibility, and the LE electronically enrolling the beneficiary in the WSA. Once the Medicaid beneficiary is assigned to a health home, the HHP will work with the beneficiary to complete the enrollment process.

Failure to verify consent or diagnostic eligibility will prevent the Medicaid beneficiary from enrolling into the BHH benefit. Medicaid beneficiaries may opt-out (disenroll) from the BHH at any time with no impact on their eligibility for other Medicaid services.

Beneficiary Changing Health Home Partner Sites

While the enrollee's stage in recovery and individualized plan of care will be utilized to determine the appropriate setting of care, beneficiaries will have the ability to change HHPs to the extent feasible within the LE's designated BHH network. To maximize continuity of care and the patient-provider relationship, MDHHS expects beneficiaries to establish a lasting relationship with their chosen HHP. However, beneficiaries may change HHP, and should notify their current HHP immediately if they intend to do so. The LE and HHP will work together to identify a recommended HHP setting where the potential health home enrollee will likely be most successful. After receiving the recommendation from the LE and HHP, the beneficiary will have the opportunity to choose their preferred HHP. The variety and number of HHPs may vary by region. The current and future HHP must discuss the timing of the transfer and communicate transition options to the beneficiary. The change should occur on the first day of the next month with respect to the new HHP appointment availability. Only one HHP may be paid per beneficiary per month for health home services.

STATE OF MICHIGAN

DEPARTMENT OF HEALTH AND HUMAN SERVICES  
LANSING

GRETCHEN WHITMER  
GOVERNOR

ROBERT GORDON  
DIRECTOR

February 14, 2020

NAME  
TITLE  
ADDRESS  
CITY STATE ZIP

Dear Tribal Chair and Health Director:

**RE:** Behavioral Health Home (BHH) Optimization and Expansion

This letter, in compliance with Section 1902(a)(73) and Section 2107(e)(1)(C) of the Social Security Act, serves as notice to all Tribal Chairs and Health Directors of the intent by the Michigan Department of Health and Human Services (MDHHS) to submit a State Plan Amendment (SPA) request to the Centers for Medicare & Medicaid Services (CMS) to amend and expand Michigan's current BHH SPA for beneficiaries with Serious Mental Illness/Serious Emotional Disturbance (SMI/SED).

The BHH will provide comprehensive care management and coordination services to Medicaid beneficiaries with select SMI/SED diagnoses in Michigan's Prepaid Inpatient Health Plan (PIHP) Regions 1, 2, and 8. The SPA will amend the qualifying diagnoses, operational components, and expand the BHH to more geographic areas. The new qualifying diagnoses represent the highest cost/utilization ICD-10 codes for SMI/SED. In terms of operational components, the new structure will charge a Lead Entity (e.g., a PIHP) with the administrative oversight and payment for health home activities. The Lead Entity will partner with Health Home Partners that meet criteria specified in the SPA, and the payment will flow through the Lead Entity to the Health Home Partners. The staffing model and rates will be optimized to reflect an integrated care team to serve the highest-need SMI/SED beneficiaries. Finally, the BHH will be expanded to all counties within PIHP Regions 1, 2, and 8 to serve an estimated 5,000-6,000 beneficiaries once fully implemented. A region's PIHP will coordinate enrollment and care with selected providers. Tribal Health Centers and Urban Health Centers that meet BHH provider qualifications and standards are encouraged to participate and must adhere to the agreement outlined above. The anticipated effective date of this SPA is October 1, 2020.

The BHH will function as the central point of contact for directing patient-centered care across the broader health care system. Designated providers will be required to maintain a robust care coordination program to reduce avoidable health care costs and improve the overall quality of life for the beneficiary. This may include referrals to

appropriate community and support services as needed. Native American beneficiaries with a qualifying health condition will be eligible to enroll in the program. Participation is voluntary, and enrolled beneficiaries may opt-out at any time.

There is no public hearing scheduled for this SPA. Input regarding this SPA is highly encouraged, and comments regarding this notice of intent may be submitted to Lorna Elliott-Egan, MDHHS liaison to the Michigan tribes. Lorna can be reached at 517-284-4034, or via email at [Elliott-EganL@michigan.gov](mailto:Elliott-EganL@michigan.gov). **Please provide all input by March 30, 2020.**

In addition, MDHHS is offering to set up group or individual consultation meetings to discuss the SPA, according to the tribes' preference. Consultation meetings allow tribes the opportunity to address any concerns and voice any suggestions, revisions, or objections to be relayed to the author of the proposal. If you would like additional information or wish to schedule a consultation meeting, please contact Lorna Elliott-Egan at the telephone number or email address provided above.

MDHHS appreciates the continued opportunity to work collaboratively with you to care for the residents of our state.

Sincerely,

Kate Massey, Director  
Medical Services Administration

**NOTICE OF A PUBLIC INFORMATION MEETING FOR PROPOSED AIRPORT IMPROVEMENTS AT THE KALAMAZOO/BATTLE CREEK INTERNATIONAL AIRPORT KALAMAZOO, MICHIGAN**

The Federal Aviation Administration has authorized the Kalamazoo/Battle Creek International Airport to explore the potential environmental impacts of a 1,500-foot extension of Runway 17/35 and realignment of Taxiway C. The proposed project would extend the existing 5,502-foot runway to an overall runway length of 7,552 feet (1,500 feet to the north and 1,500 feet to the south) and reconfigure Taxiway C at the approach end of Runway 17. A summary of the proposed improvements includes:  
• Extend Runway 17 by 150 feet (north end) and extend Runway 35 by 1,000 feet (south end)  
• Realign Taxiway C at the approach end of Runway 17  
• Extend parallel Taxiway E to match the Runway 17/35 extension  
• Relocate an existing railroad spur on the south end of the Airport, including land acquisition  
• Obstruction clearing in both Runway 17 and Runway 35 approaches  
• Preliminary aviation easements/land acquisition in both Runway 17 and Runway 35 approaches  
• Relocate existing navigational aids  
• Development of new approach procedures for Runway 17/35 to AC 150/5300-108 Standards  
• Completion of a hazardous material investigation on acquired property  
• Independent noise analysis to lift/modify the existing noise curfew  
All interested persons are advised of a public information meeting being held by the Kalamazoo/Battle Creek International Airport on Wednesday, February 26, 2020 from 5:30 PM to 7:30 PM at the Air Zoo Aerospace & Science Museum located at 6151 Portage Rd, Portage, MI 49002  
The purpose of the public meeting is to consider the social, economic, and environmental effects, including noise, of the proposed improvements and whether the improvements are in the public interest and consistent with the goals and objectives of the Airport. The meeting will be an open house format with no formal presentation given. The meeting is a "drop in" event, so attendees may arrive any time between 5:30 PM and 7:30 PM. The event is open to the public and all interested parties are encouraged to attend. The meeting will be an informal, walk-through where individuals will have the opportunity to ask questions, give feedback, and discuss the project. Airport staff and consultant team members will be available to explain the required environmental process, anticipated project schedule, environmental findings to date, alternatives being considered, and the upcoming noise study required to lift/modify the existing noise curfew. Informative displays and maps will be available for review.  
In compliance with the Americans with Disabilities Act, individuals needing special accommodations (including auxiliary communicative aids and services) during the meeting should notify Craig Williams, Kalamazoo/Battle Creek International Airport, by e-mail at [cwilliams@kai.com](mailto:cwilliams@kai.com) or (269) 338-3668 at least three days prior to the meeting.  
The public is encouraged to submit written comments or concerns by mail or email. Comments must be received by Friday, March 27, 2020 to be included in the project record. Send comments to: Craig Williams, AAE, Airport Director, 5235 Portage Rd, Portage, MI 49002, [cwilliams@kai.com](mailto:cwilliams@kai.com)

**PUBLIC NOTICES**

**Notice to Bidders**  
Athens Area Schools (AAS) Health and Human Services Administration Opioid Health Home (OHH) State Plan Amendment Request  
The Michigan Department of Health and Human Services (MDHHS) plans to submit a bid to amend and expand Michigan's Opioid Health Home (OHH) for beneficiaries with an opioid use disorder. The anticipated effective date for the OHH SPA is October 1, 2020.  
Through this SPA, MDHHS will amend operational components, including structure/rates, and expand the OHH to more geographic areas. Currently, the benefit is limited to 21 counties in Michigan. The SPA will amend the Health Plan (PHIP) Region 2. This SPA will amend and expand the OHH to PHIP Regions 1, 2, 9, and Calhoun and Kalamazoo Counties within PHIP Region 4. The specific counties include: Alcona, Alger, Alpena, Antrim, Baraga, Benzie, Calhoun, Charlevoix, Cheboygan, Chippewa, Crawford, Delta, Dickinson, Emmet, Gogebic, Grand Traverse, Houghton, Iosco, Iron, Kalamazoo, Kalkaska, Keweenaw, Leelanau, Luce, Mackinac, Macomb, Manistee, Marquette, Menominee, Montmorency, Ontonagon, Oscoda, Otsego, Presque Isle, Roscommon, Schoolcraft, and Wexford.  
The SPA will amend the estimated 1,500-2,000 beneficiaries once fully implemented. In compliance with 42 CFR § 440.345, individuals under 21 years of age receiving Medicaid benefits will continue to have access to services within the full early and periodic screening, diagnosis and treatment (EPSDT) benefit as defined in Section 1905(r) of the Social Security Act.  
The estimated gross cost to the State of Michigan for the State Plan Amendment is \$6.5 million per year (\$878 million general fund). There is no public meeting scheduled regarding this notice. Any interested party wishing to request a written copy of the SPA or wishing to submit comments may do so by submitting a request in writing to: MDHHS/Medical Services Administration, Program Policy Division, po 80479, Lansing MI 48909-7979 or e-mail [MSADraftPolicy@michigan.gov](mailto:MSADraftPolicy@michigan.gov) by March 1, 2020. A copy of the proposed State Plan Amendment will also be available for review at [http://michigan.gov/mdhhs/0,5885,7-339-73970\\_5080-108153--00.html](http://michigan.gov/mdhhs/0,5885,7-339-73970_5080-108153--00.html).  
For information and bidding documents contact: AAS Construction Manager, Frederick Construction, Inc., Chad Kandow at (269) 349-8428 ext. 7101.  
Bid documents will be available January 31, 2020 online through Bidder's Exchange - Kalamazoo, Grand Rapids and Lansing and Construction Association of Michigan.

**PUBLIC NOTICES**

**Public Notice**  
Michigan Department of Health and Human Services Medical Services Administration Opioid Health Home (OHH) State Plan Amendment Request  
The Michigan Department of Health and Human Services (MDHHS) plans to submit a bid to amend and expand Michigan's Opioid Health Home (OHH) for beneficiaries with an opioid use disorder. The anticipated effective date for the OHH SPA is October 1, 2020.  
Through this SPA, MDHHS will amend operational components, including structure/rates, and expand the OHH to more geographic areas. Currently, the benefit is limited to 21 counties in Michigan. The SPA will amend the Health Plan (PHIP) Region 2. This SPA will amend and expand the OHH to PHIP Regions 1, 2, 9, and Calhoun and Kalamazoo Counties within PHIP Region 4. The specific counties include: Alcona, Alger, Alpena, Antrim, Baraga, Benzie, Calhoun, Charlevoix, Cheboygan, Chippewa, Crawford, Delta, Dickinson, Emmet, Gogebic, Grand Traverse, Houghton, Iosco, Iron, Kalamazoo, Kalkaska, Keweenaw, Leelanau, Luce, Mackinac, Macomb, Manistee, Marquette, Menominee, Montmorency, Ontonagon, Oscoda, Otsego, Presque Isle, Roscommon, Schoolcraft, and Wexford.  
The SPA will amend the estimated 1,500-2,000 beneficiaries once fully implemented. In compliance with 42 CFR § 440.345, individuals under 21 years of age receiving Medicaid benefits will continue to have access to services within the full early and periodic screening, diagnosis and treatment (EPSDT) benefit as defined in Section 1905(r) of the Social Security Act.  
The estimated gross cost to the State of Michigan for the State Plan Amendment is \$6.5 million per year (\$878 million general fund). There is no public meeting scheduled regarding this notice. Any interested party wishing to request a written copy of the SPA or wishing to submit comments may do so by submitting a request in writing to: MDHHS/Medical Services Administration, Program Policy Division, po 80479, Lansing MI 48909-7979 or e-mail [MSADraftPolicy@michigan.gov](mailto:MSADraftPolicy@michigan.gov) by March 1, 2020. A copy of the proposed State Plan Amendment will also be available for review at [http://michigan.gov/mdhhs/0,5885,7-339-73970\\_5080-108153--00.html](http://michigan.gov/mdhhs/0,5885,7-339-73970_5080-108153--00.html).  
For information and bidding documents contact: AAS Construction Manager, Frederick Construction, Inc., Chad Kandow at (269) 349-8428 ext. 7101.  
Bid documents will be available January 31, 2020 online through Bidder's Exchange - Kalamazoo, Grand Rapids and Lansing and Construction Association of Michigan.

**PUBLIC NOTICES**

**Public Notice**  
Michigan Department of Health and Human Services Medical Services Administration Behavioral Health Home (BHH) State Plan Amendment Request  
The Michigan Department of Health and Human Services (MDHHS) plans to submit a bid to amend and expand Michigan's Behavioral Health Home (BHH) State Plan Amendment request to the Centers for Medicare & Medicaid Services (CMS). The request includes a bid to amend and expand Michigan's Behavioral Health Home for beneficiaries with Serious Mental Illness/Serious Emotional Disturbance (SMI/SED). The anticipated effective date for the BHH SPA is October 1, 2020.  
Through this SPA request, MDHHS will amend the qualifying diagnoses, and expand the BHH to more geographic areas. The new qualifying diagnoses represent the highest cost/utilization ICD-10 codes for SMI/SED. In terms of operational components, the new structure will charge a Lead Entity (e.g., a PHIP) with the administrative oversight and payment for health home activities. The Lead Entity will partner with Health Home Partners that meet criteria specified in the SPA. Moreover, the payment will flow through the Lead Entity to the Health Home Partners. The staffing model and rates will be optimized to reflect an integrated care team to serve the highest-need SMI/SED beneficiaries. Currently, the benefit is limited to two regions of PHIP Region 2 - Grand Traverse and Manistee. The BHH will be expanded to all counties within PHIP Regions 1, 2, and 9 to include approximately 5,000-6,000 beneficiaries once fully implemented, of which 4,900-5,900 will be new beneficiaries. The specific counties include: Alcona, Alger, Alpena, Antrim, Baraga, Benzie, Charlevoix, Cheboygan, Chippewa, Crawford, Delta, Dickinson, Emmet, Gogebic, Grand Traverse, Houghton, Iosco, Iron, Kalamazoo, Kalkaska, Keweenaw, Leelanau, Luce, Mackinac, Manistee, Marquette, Menominee, Montmorency, Oscoda, Ontonagon, Oscoda, Otsego, Presque Isle, Roscommon, Schoolcraft, and Wexford.  
In compliance with 42 CFR § 440.345, individuals under 21 years of age receiving Medicaid benefits will continue to have access to services within the full early and periodic screening, diagnosis and treatment (EPSDT) benefit as defined in Section 1905(r) of the Social Security Act.  
The estimated gross cost to the State of Michigan for the State Plan Amendment is \$18 million per year (\$1.8 million general fund).  
There is no public meeting scheduled regarding this notice. Any interested party wishing to request a written copy of the SPA or wishing to submit comments may do so by submitting a request in writing to: MDHHS/Medical Services Administration, Program Policy Division, PO Box 30479, Lansing MI 48909-7979 or e-mail [MSADraftPolicy@michigan.gov](mailto:MSADraftPolicy@michigan.gov) by March 1, 2020. A copy of the proposed State Plan Amendment will also be available for review at [http://michigan.gov/mdhhs/0,5885,7-339-73970\\_5080-108153--00.html](http://michigan.gov/mdhhs/0,5885,7-339-73970_5080-108153--00.html).
