Medicaid – Internal Service Fund – Revised 9/30/11		1 of 4

## 1.0 General Report Overview

The establishment of an Internal Service Fund (ISF) is one method for securing funds as part of the overall strategy for covering risk exposure under the Medicaid Managed Specialty Supports and Services Concurrent 1915(b)/(c) Waiver Program Contract (Contract). The ISF should be kept at a minimum to assure that the overall level of Prepaid Inpatient Health Plan (PIHP) funds are directed toward consumer services. For further information refer to Part II – Section 7.7.4 PIHP Assurance of Financial Risk Protection and Attachment P.7.7.4.1 Internal Service Fund Technical Requirement of the Contract.

The ISF quarterly reports serve as point in time reflection of activities for monitoring purposes and must be submitted specific to the reporting period. The final report is the basis for the Contract Reconciliation and Cash Settlement and must reflect all activities for the entire fiscal year (FY) including any adjustments necessary to maintain the ISF within the maximum allowable funding level as defined in the ISF Technical Requirement.
