1.0 General Report Overview

The Financial Status Report (FSR) – All Non-Medicaid is a comprehensive report of all activity of the Community Mental Health Service Program (CMHSP). The FSR - All Non-Medicaid summarizes the revenues and expenditures of the CMHSP by program category. For each program category, the FSR – All Non-Medicaid will identify whether there is a net surplus or deficit prior to any redirection of funding. The FSR – All Non-Medicaid will also identify, for each program category, any funding redirected to meet match requirements or provide supplement to other program categories.

The FSR – All Non-Medicaid will be utilized by the Michigan Department of Community Health (MDCH) as a tool to monitor the fiscal operations of the CMHSP. In addition, this report will provide the basis for the annual contract reconciliation and cash settlement of the MDCH/CMHSP Mental Health Supports and Services Contract (GF Contract).

The CMHSP shall comply with Generally Accepted Accounting Principles, along with any other federal and state regulations as defined in the GF Contract. With the exception of the Special Fund Account – Section 226(a) of the Mental Health Code (MHC), all revenue and expenditures are required to be reported on an accrual basis of accounting. As such, the revenue and expenditure amounts reported must include all earned reimbursements and/or obligations regardless of whether they have been billed or collected. Additionally, any adjustments for uncollectible amounts or write-offs should be included. The FSR – All Non-Medicaid must reconcile to the CMHSP's general ledger.

The FSR – All Non-Medicaid is divided into sections for each program category. Each section of the FSR – All Non-Medicaid will evaluate the special considerations, services and funding arrangement as outline in the GF Contract for that particular program. Included in the instructions for completion of the FSR – All Non-Medicaid will be a brief narrative explanation of each section. The sections are:

- A Medicaid Services (CMHSP that is a PIHP Use Only)
- B General Fund

Other GF Contractual Obligations

- C Adult Benefit Wavier (ABW) – Mental Health
- D MIChild – Mental Health

Fee-for-Service

- E SED Waiver
- F Children's Waiver
- G Injectable Medications

Other Funding

- H MDCH Earned Contracts
- I PIHP to Affiliate Medicaid Services Contracts (CMHSP Use Only)

The CMHSP must certify the accuracy and completeness of the FSR – All Non-Medicaid and identify a contact person, phone number and email address that questions regarding the submission should be directed to. MDCH will establish a one page “face” sheet for inclusion in the final packet.

4.0 Report Specific Navigation or Terminology

Within this document the terms used in these instructions shall be construed and interpreted as defined below:

Medicaid Contract: The Medicaid Managed Specialty Supports and Services Concurrent 1915(b)/(c) Waiver Program Contract

GF Contract: MDCH/CMHSP Managed Mental Health Supports and Services Contract

PIHP: CMHSP that holds the Medicaid Managed Specialty Supports and Services Concurrent 1915(b)/(c) Waiver Program Contract with MDCH and acts as the Prepaid Inpatient Health Plan either for an affiliation of CMHSPs or as a stand alone PIHP

CMHSP: Community Mental Health Services Program that holds the GF Contract with MDCH

FFP: Federal Financial Participation; which is sometimes referred to as FMAP or Federal Medical Assistance Percentage. Both refer to the rate at which the Federal Government will match State dollars. For instance, a 75% FFP would indicate that for every \$100 spent, the Federal Government would fund \$75 and the State would need to provide \$25 in match.

ARRA: American Recovery and Reinvestment Act of 2009, enacted February 17, 2009. The ARRA provides for federally financed economic stimulus funding.

The Financial Status Report – All Non-Medicaid includes cell shading to assist the end user with completion of the form.

Report headers are shaded in light green.

Cells requiring data entry are shaded in yellow.

Cells that are formula driven and should not have data entered are shaded peach or light turquoise. The cells shaded in light turquoise represent sub-totals or totals.

Select cells have conditional formatting applied so that if an erroneous entry is made the cell will turn orange.

Worksheet protection has been enabled.

Precision as displayed functionality has been enabled. As such, Excel will utilize the displayed value instead of the stored value when it recalculates formulas.

The term “Submission Type” on the worksheet refers to the reporting period, i.e., 2nd quarter, 3rd quarter, projection, 4th quarter, Interim, Final.

The following numbering / sequencing have been utilized in the FSR All Non-Medicaid:

- 1 – 99 Indicates rows where FFPs have been entered
- 100 Title row for revenue

- 101-189 Detail rows for reporting revenue. May include sub-totals.
- 190 Total row for revenue
- 200 Title row for expenditures
- 201-289 Detail rows for reporting expenditures. May include sub-totals.
- 290 Total row for expenditures
- 295 Sub-total row identifying net surplus (deficit) prior to any redirection
- 300 Title row for redirection of funds (TO) and FROM
- 301-389 Detail rows for reporting redirection. May include sub-totals.
- 390 Total row for redirection of funds (TO) and FROM
- 400 Total row identifying the remaining balance. The balance is calculated by taking into consideration available revenue less expenditures and adjusting for any redirections (TO) or FROM. For each section, this row will indicate whether there can be a remaining balance (impacts fund balance, carry-forward, lapse), whether the remaining balance cannot be less than zero (ABW & MICHild where remaining balances will convert to local) or whether the remaining balance must equal zero (CMHSP must indicate how all surplus/deficits where addressed).

The FSR All Non-Medicaid – Column A: Column A is only used for select rows. Typically, for indicating values (FFP) or amounts that will be used in calculations. Each section that utilizes column A will contain language that identifies how the value or amount will be utilized.

The FSR All Non-Medicaid – Column B: Column B is used for reporting revenues, expenditures, redirection of funds, sub-totals and totals.

The FSR All Non-Medicaid – Row Layout: For the most part, all rows contain an alpha reference, a numeric reference, a description and then the amount associated to the listed elements. The alpha reference refers to the Section of the FSR (Medicaid, GF, ABW, etc). The number reference refers to the character of the line (revenue, expenditures, etc). The description could be a label (revenue, expenditure, etc) or a more detailed description of the item (CMH Operations, Categorical, etc). The redirection rows include at the end of the description a reference to the partner row.

For example – B 302 (TO) GF Cost of ABW – C 30I, the “B” refers to General Fund, the 302 indicates that this row represents a redirection to another row, the “(TO) GF Costs of ABW” describes that GF funds are being redirected to ABW, the “C 301” indicates that the partner row (FROM row) is in Section C – ABW, row 301.

REDIRECTS – (TO) FROM – Each CMHSP is expected to maintain a balanced budget. However, it is acknowledged that funding and expenditures, by category may not always be equal. The “Redirected Funds (To) From” sections will be the mechanism in which the CMHSP will identify how any funding surplus or deficit was resolved by category. The “redirects” will identify how surplus funds are used by other programs or how deficits were

covered by other funding sources. In either case, the funding source must be a legitimate source of funding for the program the funding is being redirected to cover.

The redirection of GF to Medicaid requires prior approval of the MDCH.

Every “TO” redirection will have an off-setting “FROM” transaction. The converse is also true, for every “FROM” redirection there will be a “TO” transaction. The “TO” and “From” amounts will be equal; thus all redirections will sum to zero. Following is an example:

B 303 (TO) GF Cost of MICHild – Required Match – D 302 (\$10)

This line is within the General Fund section and indicates that \$10 is being transferred “(TO)” the MICHild section to fund expenditures and satisfy the GF match requirements.

D 302 FROM General Fund – Required Match – B 303 \$10

This line is within the MICHild section and indicates that \$10 is being received “FROM” the GF section to fund MICHild expenditures and satisfy the GF match requirements. Redirection amounts are entered in the FROM redirects and automatically linked to the TO redirects as the opposite or converse amount.

In addition, any other expenditure for services authorized at 100% state match must be reported here.

Note: State and County Financial Responsibility is defined in Chapter 3 of the MHC. Additionally, Section 7.3 of the GF Contract lists services that do not require the CMHSP to provide the local match obligation; thus making those services eligible as 100% MDCH matchable services.

Row B-202 - MDCH MATCHABLE SERVICES BASED ON CMHSP LOCAL MATCH CAP

This cell represents the amount of 90/10% matchable services that are eligible for 100% state funding due to the CMHSP invoking 330.1308(2) of the MHC. Section 330.1308(2) of the MHC limits, in some cases, the amount of match funding required for a CMHSP that is an authority. When a CMHSP invokes Section 330.1308 of the MHC and limits the amount of match required, there is a shift of funding between local and 100% GF. The amount of expenditures eligible for 100% funding is represented here.

This cell is formula driven. The formula is *less GF Local Match Capped per MHC 330.1308 (M 203).*

State and County Financial Responsibility is defined in Chapter 3 of the MHC. As defined in the MHC Chapter 3, Section 330.1308, except as otherwise provided in Chapter 3 or subsections (2) and (3), and subject to the constraint of funds actually appropriated by the legislature for such purpose, the state shall pay 90% of the annual cost of a CMHSP. Additionally, Section 7.3 of the GF Contract lists services that do not require the CMHSP to provide the local match obligation; thus making those services eligible as 100% MDCH matchable services.

Enter the amount of expenditures eligible for 90% reimbursement.

ROW B-203 – 90% MDCH MATCHABLE SERVICES – COLUMN B

This cell represents the net 90/10 service expenditures eligible for state funding. The MDCH obligation for the 90% matchable costs are net of any related earned 1st & 3rd party revenue. Therefore, prior to calculating the MDCH obligation, the amount of 1st & 3rd party revenue must be taken into consideration. After calculating the MDCH and local commitment, the amount of 1st and 3rd party collections is added back to derive the total expenditures reported in the GF section of the FSR.

This cell is formula driven. The formula is *the sum of 90% Matchable Services (B 203, Column A) less 1st & 3rd Party Collections 90% Services (B 122) times 90% (.9), plus 1st & 3rd Party Collections (B 122).*

ROW B-204 - STATE SERVICES – PAYMENTS TO MDCH FOR STATE SERVICES

Enter the amount of expenditures for the purchase of state-provided hospital and center services. This amount is the product of actual utilization (days) of state provided services and the relevant fixed net state rate.

Note:

- 1) Expenditures for community-based services funded with State Services authorization (trade-offs) should not be reported in this row but in other rows as appropriate to the expenditure
- 2) Administrative costs are not to be included, and
- 3) ISF abatement and/or ISF financing are treated as funding sources and should not reduce the amount of expense reported in this cell.

ROW B-205 PAYMENT INTO GF ISF

Enter the amount of expenditures related to a contribution (deposit) to the GF ISF. All deposits into the ISF must meet the criteria established in the ISF Technical Requirement of the GF Contract.

ROW B-290 - TOTAL EXPENDITURE

This cell represents the total GF Contract expenditures prior to any redirects. This cell is formula driven. The formula is *the sum of 100% MDCH Matchable Services (B 201), 100% MDCH Matchable Services Based on CMHSP Local Match Cap (B 202), 90% MDCH Matchable Services – Column B (B 203), State Services – Payments to MDCH for State Services (B 204) and Payment into GF ISF (B 205).*

This cell represents the enhanced federal reimbursement earned by the CMHSP for providing SED waiver services. The CMHSP is reimbursed for the federal portion of the fee screen or cost for SED waiver services; whichever is less. The GF Contract mandates that the CMHSP provide the associated match.

The American Recovery and Reinvestment Act (ARRA) provides for federally financed economic stimulus funding. Since the Federal Financial Participation (FFP) fluctuates by quarter and isn’t finalized until after the quarter ends, MDCH will continue to provide the federal portion of the SED fee screens or costs; whichever is less, at the FFP for the FY. After the quarter ends, a payment for the enhanced earnings will be processed by MDCH. This payment increases the federal reimbursement and decreases the amount of match required by the CMHSP. If the CMHSP previously used GF as match, this amount is redirected back to GF.

Enter the amount redirected from SED Waiver ARRA Stimulus.

5.3 SECTION C ADULT BENEFIT WAIVER (ABW) – MENTAL HEALTH

The ABW provides mental health benefits for Michigan’s childless adult residents (age 18 through 64) with an annual income at or below 35 percent of the Federal Poverty Level. ABW mental health services are limited both in scope and amount to those that are medically necessary and conform to professionally accepted standards of care consistent with the MHC. Please refer to the Medicaid Provider Manual for further details on mental health services and benefit restrictions. The CMHSP receives ABW funding via a capitation payment based on per enrolled adult per month methodology.

This section of the report will be used to report all revenues and expenditures associated to the ABW program.

A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When a surplus in funding exists, as per Section 7.2.9 of the GF Contract, the unspent ABW funds become local funds in the following FY. When an overall deficit exists, the CMHSP must report what funding will be used to cover the costs above the capitation received.

Row C-190 – REVENUE

The CMHSP receives ABW funding via a capitation payment based on per enrolled adult per month methodology. Enter the amount of capitation received for the ABW.

Row C-290 - EXPENDITURE

5.4 SECTION D MICHILD – MENTAL HEALTH

Children under age 19 who are U.S. citizens or documented aliens not eligible for Medicaid, who do not have health coverage, and whose families meet certain income requirements and restrictions are eligible for MICHild. Please refer to the Medicaid Provider Manual for further details on mental health services and benefit restrictions. The CMHSP receives MICHild funding via a capitation payment based on per enrolled child per month methodology. The capitation payment processed to the CMHSP is for the federal share only. It is the responsibility of the CMHSP to supply the required match.

This section of the report will be used to report all revenues and expenditures associated to the MICHild program. A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When a surplus in funding exists, as per Section 7.2.8 of the GF Contract, the unspent MICHild funds become local funds in the following FY. When an overall deficit exists, the CMHSP must report what funding will be used to cover the costs above the capitation received.

ROW D-1 - ENTER CURRENT MICHILD FFP - COLUMN A

ROW D-300 - REDIRECTED FUNDS (TO) FROM,

This row is the label Redirected Funds (To) From. Although this row indicates both "TO" and "FROM" for consistency within the FSR, the MICHild section does not allow for any redirection to any other program. The rows immediately following the label "Redirected Funds (TO) From" will identify the amount redirected to meet the match requirements and identify how the CMHSP addressed any deficit in MICHild funding.

ROW D-301 - FEDERAL SHARE APPLIED

As previously mentioned, the capitation payment to the CMHSP represents the federal only portion of the MICHild capitation rate. It is the responsibility of the CMHSP to supply the local match for the MICHild program. The amount in this cell will represent the amount of federal dollars utilized to fund MICHild expenditures. This cell is formula driven. The formula is an IF/THEN/ELSE statement. To assist with comprehension listed first will be the "common language" describing what the IF/THEN/ELSE statement will accomplish followed by the actual statement.

Basically, it is first being determined whether there is surplus funding when comparing the total available revenue (federal capitation and required GF match) to the expenditures. When the available revenue (federal capitation and required GF match) is greater than the expenditures there is a surplus in funding. When there is a surplus in funding, the federal share applied is equal to the federal capitation less the surplus. If there is not a surplus in funding, then the entire amount of federal capitation has been utilized and the federal share is equal to the amount of federal capitation.

The statement is as follows: *IF the Balance MICHild (D 400) is greater than zero, THEN Revenue (D 190) less Balance MICHild (D 400), ELSE Revenue (D 190)*.

ROW D-302 - FROM GENERAL FUND – REQUIRED MATCH - B303

This cell represents the amount of GF funds that are being redirected to satisfy the MICHild match requirements. The determination of required match will be calculated based on the total MICHild expenditures. The cell is formula driven. The formula is an IF/THEN/ELSE statement. Basically, it is first being determined whether the amount of expenditures reported times the FFP is less than or equal to the amount of federal capitation. If the expenditures are less than the federal capitation, then the required GF match is equal to the expenditure amount times the GF FFP (100% less the federal FFP). If the expenditures are greater than the federal capitation, then the federal capitation has to be “grossed up” (capitation divided by federal FFP) to determine the minimum amount that would have to be spent to earn the entire amount of federal capitation received. The amount of federal capitation received is subtracted from the “grossed up” amount to determine the required GF match.

The statement is as follows: *Round - IF Expenditure (D290) times Current MICHild FFP (D1) is less than or equal to Revenue (D190), THEN Expenditure (D290) times the result of 1 minus the Current MICHild FFP (D1), ELSE Revenue (D190) divided by the Current MICHild FFP (D1) less Revenue (D190)*

MDCH reimburses SED Waiver enrolled CMHSPs on a fee-for-service basis for all services provided in accordance with the Medicaid Provider Manual, to those children that have been enrolled in the SED Waiver.

The CMHSP is obligated to ensure sufficient local match is provided. MDCH will provide funding not to exceed the federal portion of the fee screen or actual cost, whichever is less. The federal funding provided by MDCH will be based on the FFP active on the date of payment.

This section of the report will be used to report all revenues and expenditures associated to the SED Waiver program. A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When an overall deficit exists, the CMHSP must report what funding will be used to cover the costs above the fee-for-service reimbursement received.

Row E-1 - ENTER CURRENT YEAR SED WAIVER FFP

The CMHSP receives the SED Waiver funding on a fee-for-service basis. The reimbursement from MDCH is the federal share only and is calculated based on the FFP active on the date of payment. It is the responsibility of the CMHSP to supply the required match. To assist in calculating the amount of required match, it is necessary to identify the various FFPs for the FY.

Enter in Column A the FFP active for the current FY.

Row E-2 ENTER SUBSEQUENT YEAR SED WAIVER FFP

The CMHSP receives the SED Waiver funding on a fee-for-service basis. The reimbursement from MDCH is the federal share only and is calculated based on the FFP active on the date of payment. It is the responsibility of the CMHSP to supply the required match. To assist in calculating the amount of required match, it is necessary to identify the various FFPs for the FY.

Enter in Column A the FFP active for the subsequent FY.

Row E-3 ENTER ENHANCED SED WAIVER FFP

The CMHSP receives the SED Waiver funding on a fee-for-service basis. The reimbursement from MDCH is the federal share only and is calculated based on the FFP active on the date of payment. It is the responsibility of the CMHSP to supply the required match. To assist in calculating the amount of required match, it is necessary to identify the various FFPs for the FY.

Enter in Column A the enhanced FFP active in the current FY.

NOTE: When the FSR was originally designed it was anticipated that there would only be one enhanced FFP for the FY. When the ARRA was enacted, it included provisions that allowed the federally financed economic stimulus funding to be based on varying FFPs. The cell for the enhanced FFP was left on the FSR for potential future use in FYs where there is only one FFP. For FYs that have multiple enhanced FFPs, the FSR lines pertaining to and identified with ARRA will be utilized.

5.6 Section F Children’s Waiver

The Children’s Home and Community Based Waiver Program (CWP) provides services that are enhancements or additions to regular Medicaid coverage to children up to age 18 who are enrolled in the CWP. The CWP enables Medicaid to fund necessary home and community based services for children with developmental disabilities who reside with their birth or legally adoptive parent(s) or with a relative who has been named legal guardian under the laws of the State of Michigan, regardless of their parent’s income.

The CWP is a fee-for-service program administered by the CMHSP. The CMHSP is held financially responsible for any costs incurred on behalf of the CWP beneficiary that were authorized by the CMHSP and exceed the Medicaid fee screens or amount, duration and scope parameters.

This section of the report will be used to report all revenues and expenditures associated to the CWP. A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When an overall deficit exists, the CHMSP must report what funding will be used to cover the costs above the fee-for-service reimbursements received.

ROW F-190 - REVENUE

In addition, the CMHSP will report any funding redirected from other funding sources that can be treated as local.

Local funds exclude grants or gifts received by the County, the CMHSP, or agencies contracting with the CMHSP, from an individual or agency contracting to provide services to the CMHSP. An exception may be made, where the CMHSP can demonstrate that such funds constitute a transfer of grants or gifts made for the purposes of financing mental health services, and are not made possible by CMHSP payments to the contract agency that are claimed as matchable expenses for the purpose of state financing.

actual costs, whichever is less. The federal funding provided by MDCH will be based on the FFP active on the date of payment.

ROW M-190 - TOTAL REVENUE

The cell represents the total amount of local revenue. This cell is formula driven. The formula is the *sum of County Appropriation for Mental Health (M 101), County Appropriation for Substance Abuse (M 102), Section 226(a) Funds (M 103), Affiliate Local Contribution to State Medicaid Match Provided from CMHSP (M 104), Title XX (M 105), Local Grants (M 106), Interest (M 107), Public Act 2 – SA (M 108), SED Partner (M 109) and All Other Local Funding (M 110).*

ROW M-200 - EXPENDITURE

This row is the label EXPENDITURE. The rows immediately following will represent the expenditures associated to the Local Fund obligations.

ROW M-201 - GF 10% LOCAL MATCH

As defined in the MHC Chapter 3, Section 330.1302 except as otherwise provided in Chapter 3 or subsection (2), a county is financially liable for 10% of the net cost of any service that is provided by the department, directly or by contract, to a resident of that county. This cell represents the 10% share of the 90/10% services (Section B – General Fund, Row B 203). This cell is formula driven. The formula is 90% MDCH Matchable Services – Column A (B 203) less 90% Matchable Services – Column B (B 203).

ROW M-202 - LOCAL MATCH CAP AMOUNT

Within certain conditions, Section 330.1308(2) of the MHC limits the amount of local match required of a community mental health authority to the amount of local match provided in the year in which the program became a community mental health authority. If the conditions as defined in the MHC have been met, enter the amount that the CMHSP local match has been capped at.

NOTE: The Local Match Cap amount should not be entered unless the CMHSP is invoking Section 330.1308. An amount entered in the cell indicates that the CMHSP has invoked Section 330.1308.

The MDCH is not obligated to provide additional state funds because of the limitation on local funding levels.

Row M-203 - GF LOCAL MATCH CAPPED PER MHC 330.1308

When a CMHSP invokes Section 330.1308 of the MHC and limits the local match required, there is a shift in funding from local to 100% GF. Therefore it is necessary to reduce the equivalent amount of local match previously identified on GF 10% Local Match (M 203). The amount in this cell will be displayed as a negative; thus reducing the required 10% local match. This cell is formula driven. The formula is an IF/THEN/ELSE statement within another IF/THEN/ELSE statement embedded. To assist with comprehension listed first will be the “common language” describing what the IF/THEN/ELSE statement will accomplish followed by the actual statement.

Basically, the formula is first looking to see if the CMHSP has invoked Section 330.1308 of the MHC. If the CMHSP has not invoked Section 330.1308, then a zero is entered for the GF Local Match Capped per MHC 330.1308 (M 203). If the CMHSP has invoked Section 330.1308, then the formula is comparing the sum of the 10% local match (M 202) and the Local Contribution to State Medicaid Match (M 205) to the Local match cap amount (M 202). If the sum of the 10% local match and the Local Contribution to State Medicaid Match is greater than the local match cap amount, then the formula calculates the amount by which the local match is reduced. The result of this calculation will be displayed as a negative amount, thus reducing the amount of local funding being utilized.

The IF/THEN/ELSE statement is as follows: IF the Local match cap amount (M 202) is equal to zero, THEN zero, ELSE IF the GF 10% Local Match (M 201) plus the Local Contribution to State Medicaid Match (M 205) is greater than the Local match cap amount (M 202), THEN less GF 10% Local Match (M 201) less Local Contribution to State Medicaid Match (M 205) plus Local match cap amount (M 202).

Row M-204 - LOCAL COST FOR STATE PROVIDED SERVICES

Enter the amount of expenditures associated to the local cost for state provided services in psychiatric hospitals or centers. This is the billing to the county for the 10% county net cost of care for state provided services. This must be reported on an accrued basis.

Row M-205 - LOCAL CONTRIBUTION TO STATE MEDICAID MATCH

Enter the amount of expenditures associated to the CMHSP for their contribution to the State Medicaid match as mandated in Section 428 of the MDCH Appropriation bill and Section 7.4.5 of the GF Contract.

NOTE: This row is only for the reporting CMHSP and their contribution. Any contribution made by the PIHP for the affiliate CMHSPs should be reported on Row M-206 – Local Contribution to State Medicaid Match on Behalf of Affiliate.

Row M-206 - LOCAL CONTRIBUTION TO STATE MEDICAID MATCH ON BEHALF OF AFFILIATE

Enter the amount of expenditures associated to the contribution to the State Medicaid match as mandated in Section 428 of the MDCH Appropriation bill and Section 7.4.5 of the GF Contract made by the PIHP on behalf of an affiliate CMHSP.

Row M-314 - FROM SED WAIVER – ARRA/STIMULUS – E 308

This cell represents the amount of funding being returned to Local from the enhanced federal reimbursement earned by the CMHSP for providing SED waiver services. The CMHSP is reimbursed for the federal portion of the fee screen or cost for SED waiver services, whichever is less. The GF Contract mandates that the CMHSP provide the associated match.

The American Recovery and Reinvestment Act (ARRA) provides for federally financed economic stimulus funding. Since the Federal Financial Participation (FFP) fluctuates by quarter and isn't finalized until after the quarter ends, MDCH will continue to provide the federal portion of the SED fee screens or costs, whichever is less, at the FFP for the FY. After the quarter ends, a payment for the enhanced earnings will be processed by MDCH. This payment increases the federal reimbursement and decreases the amount of match required by the CMHSP. If the CMHSP previously used Local as match, this amount is redirected back to Local.

Enter the amount of funds being redirected from SED Waiver ARRA Stimulus.
