

WIC Breastfeeding Warmline

Call or text (833) MIWICBF / (833) 649-4223

Available 7 days/week
8 a.m. – 8 p.m.

During this uncertain time, it is extremely important that families continue to receive breastfeeding support. A breastfeeding warmline is available to assist all pregnant and breastfeeding families. You can use this warmline even if you are not a WIC client! If you are a WIC client and cannot reach your peer counselor, call the warmline for immediate assistance.

Calls are answered by Erica Davis, our Community Breastfeeding Liaison. Erica has been trained as a lactation educator and certified lactation counselor (CLC). She has worked as both a breastfeeding peer counselor and a certified community health worker.
