FYi we cannot access the file – it just came as a .htm. Is there anyone else that can send it to us? We were hoping to GIS analyze this weekend. Thanks.

Good afternoon, Mona -

Today is Bob's scheduled day off. He came in to prepare and send the file, but has left for the rest of the day. I will see if I can reach him to find out what step to take to get you access to the data.

Can you give me any more detail that I can share with him, if I can reach him? It sounds like you did receive the email with the file attached, and the password (I assume via fax). If those two pieces are in place, is the issue that it won't 'unzip'?

Nancy Peeler, Manager
Early Childhood Health Section
