6. Prevention Priority(ies)

The Michigan Department of Health and Human Services Office of Recovery Oriented Systems of Care (OROSC) selected prevention priorities and targeted communities based on data from the Michigan Profile for Healthy Youth (MiPHY) survey. OROSC determined communities of high need by utilizing various indicators including:

- overall health disparities,
- past 30 day and binge use of alcohol among those age 12-20,
- nonmedical use of pain relievers,
- unintentional poisoning and overdose deaths among youth and young adults,
- substance abuse treatment admission data,
- suicide rates, and
- Medicaid eligibility.

7. Provide a brief description of your PFS 2015 project. Please include the purpose, approach and key risk and protective factors that will be addressed within the chosen priorities.

This project will focus on community coalitions collaborating with primary care entities such as Federally Qualified Health Centers (FQHCs) and other primary care agencies, such as hospitals, local public health departments (LPHDs) clinics and school-based health centers to: 1) Employ Screening, Brief Intervention and Referral to Treatment (SBIRT) to youth and young adults at risk for substance use disorders; 2) Refer youth and young adults to evidence-based practices proven to be effective in reducing substance use disorders, primarily, underage drinking and prescription drug and illicit opioid misuse and abuse; and 3) Administer evidence-based practices.
