## **Guide for LHDs**

# myHealthButton and myHealthPortal

- ▶ The State of Michigan is excited to offer the myHealthButton and the myHealthPortal applications for current members enrolled in Michigan Medicaid, Healthy Michigan Plan and/or Children's Special Health Care Services (CSHCS).
- ▶ myHealthButton is a mobile application that can be used from a smartphone.
- ▶ myHealthPortal is an online application that can be used from any device with internet access.
- ▶ These applications provide members instant access to information about their health care benefits and services.
- ▶ <https://myhb.state.mi.us> (scroll down to registration User Guides)

# myHealthButton and myHealthPortal

- **Features:**
  - View Healthcare Benefit information, such as Services Covered and Co-Pays
  - Copy of the mihealth Card
  - Provider Search
  - CSHCS Qualifying Diagnosis and Authorized Providers
  - CSHCS Payment Agreement Notification and Online Payments
  - Renewal IRPA submission
  - Other Insurance Information
  - Health Risk Assessments
  - Health Tools and Health Tracker Information

# myHealthButton and myHealthPortal

- LHD staff will not be able to view client information in myHB/myHP.
- If the correspondence families receive from CSHCS includes both Mom & Dad first names in the address line, they will need to register as Mom & Dad including the & sign. Registration must be exactly as shown on their correspondence (e.g. CEN).
- Once clients/families register for one, they have access to both the myHB/myHP. For registration issues, please refer the families to the appropriate myHB/myHP User Guide. (takes a while to load) <https://myhb.state.mi.us>. The User Guides are located at the bottom of the Landing Page.

# Online IRPA Submission Rules

- CSHCS Financial Review Letter or Financial and Medical Review Letter must have been generated by the CSHCS system and sent to the client/family. Families are unable to submit an IRPA online if CSHCS coverage has lapsed.
- If Medicaid was gained after the Financial Review Letter was sent to the client/family (in the CSHCS system under Enrollment tab > Review Details > Financial has MA populated) the client/family will not be able to see or submit an IRPA online in myHB/myHP.
- If family submitted their paper IRPA and the IRPA was pended in the CSHCS system, client/family will not be able to submit an IRPA online in myHB/myHP.

# Online IRPA Submission Rules

- Amount for Line 10 of the IRPA is auto-populated according to what the client/family enters on lines 8 and 9 of the online IRPA form.
- When a client turns 18, parents will no longer be able to access the 18 year olds information. Client will need to register and set up their own account.
- Once the family has submitted their IRPA online or CSHCS has received their paper IRPA under Enrollment > Review Details > Financial and Review Status information is populated, the option to submit an IRPA online is disabled.

# Families Having Difficulties Locating the IRPA Form in myHB/myHP May Contact Their LHD

- ▶ LHDs will be looking at the CSHCS system Enrollment tab > Review Details to see if:
  - Has a Financial Review or Financial/Medical Review letter been mailed? **Review Letter date must be populated.**
  - Has an IRPA already been received? **Financial Review Status must be blank.**
  - Has active Medicaid been posted? **Financial Code must be blank.**

# What to check in the CSHCS System

Other reasons why family cannot see the Online IRPA link:

- Has coverage lapsed? **Unable to submit IRPA online for lapsed coverage.**
- Has the client recently turned 18? **Parents are unable to see adult client information.**
- If all of the above have been met and the family still has issues seeing the online IRPA form, the family can contact the Beneficiary Helpline at 800-642-3195.
- It is not the responsibility of the LHD to assist families in navigating the myHB/myHP. This information is provided to you in case you receive a call from a family on why they are unable to submit an online IRPA.

# Client/family will click on Healthcare Coverage – Benefits

The screenshot displays the myHealthPortal interface. The top header includes the portal logo, the text "myHealthPortal Michigan Department of Health and Human Services", and a navigation bar with icons for user profile, search, settings, notifications, and a "Configure" button. Below the header is a search bar and a "Dashboard" title. A notification banner at the top of the main content area states: "Our records show that you have not completed your Health Risk Assessment. Please complete your Health Risk Assessment as soon as possible. [Start Health Risk Assessment](#)". The left sidebar contains a list of menu items: Dashboard, Demographics, My Health Wallet, Find a Doctor, Healthcare Coverage (expanded), Benefits, Cost Share, Communications, Authorizations, Claims, Letters, Health Risk Assessment, Resources, Take a Tour, and FAQ. A red arrow points to the "Benefits" option under the "Healthcare Coverage" section. The main content area features three panels: "Calendar Events" (showing "No records found."), "News" (showing "No records found."), and "Favorite Doctors" (showing "No records found.>").

# Under the Benefits Plan Name, client/family will click on view details link for Children's Special Health Care Services

The screenshot shows the myHealthPortal interface for the Michigan Department of Health and Human Services. The left sidebar contains a navigation menu with items: Dashboard, Demographics, My Health Wallet, Find a Doctor, Healthcare Coverage, Benefits (selected), Cost Share, Communications, Authorizations, Claims, Letters, Health Risk Assessment, Resources, Take a Tour, FAQ, and Contact Us. The main content area displays a search bar with the text '\* Search by Date Range (MM/DD/YYYY)' and fields for Start (02/01/), End (04/30/), and Range. A search button is present. Below the search bar, the 'Benefits' section is shown with a table. The table has columns: Benefits Plan Name, Start Date, End Date, and Details. The first row shows 'Children's Special Health Care Services' with a start date of 04/01/ and an end date of 03/31/. A link 'Click to view details' is in the Details column. A red arrow points to this link. Below the table, it says 'Showing 1 - 1 out of 1'. A yellow banner at the bottom states 'Eligibility is determined on a month to month basis.' The footer contains the text 'Copyright 2014 myHealthPortal'.

CSHCS helps pay for medical care and treatment related to CSHCS-eligible medical conditions listed below. CSHCS does not cover primary care or visits to the primary care physician (PCP).  
If has another insurance, it must be used in a way that will get the most from the insurance benefit such as using in-network providers, getting prior approval, etc. CSHCS cannot pay if the other insurance is not fully used first.  
For Medicaid or MICHild health plan members, all medical services must be coordinated through the health plan.

# LHD View Of The IRPA

- ▶ LHDs can view the submitted IRPA from the Enrollment tab > Review Details > Financial section. Click on the IRPA Document link to view the submitted IRPA.
- ▶ If an IRPA comes in VIA myHB/myHP and is correct, the payment agreement is automatically created by the system. Coupon letter is auto created once renewal coverage dates are issued.
- ▶ The LHD can see the IRPA document on the client record and download the IRPA if desired.

# CSHCS Conditions with Associated Providers

# CSHCS Conditions With Associated Providers

- ▶ This is a document for internal use only.
- ▶ The table is meant to be used as guidance in determining possible specialists that may be related to a specific diagnosis and then added to the provider list for a specific Child.
- ▶ This list is not all inclusive of all providers that may be needed.
- ▶ Many diagnoses have a variable course and will not need all of the providers listed.
- ▶ Physical therapy, surgery, anesthesiology, hospitalizations, labs, and x-ray related to the diagnoses will be covered.
- ▶ Most preferred specialists are pediatric subspecialists; as the child gets older (i.e. late teens), more adult providers would be utilized

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
Anomalies of Skull and Face/Cleft Palate	Craniofacial/Cleft Palate Clinic Neurosurgeon Plastic Surgeon Often: Ophthalmology, ENT, Oral Surgeon, Dentist, Orthodontist, Audiology
Asthma	Peds Pulmonology Allergy Occasionally: ENT Chronic Sinusitis
Brachial Plexus Injury	Brachial Plexus Clinic Peds Orthopedics Neurosurgeon Neurologist
Burns	Plastic Surgery Occasionally: Pulmonology (depending on the site)
Cancer/Leukemia	Peds Hematology/Oncology Peds Surgery Radiation Oncology Neurosurgery for brain tumors Occasionally: Dental, Dermatology, Transplant
Cardiology/Congenital Heart Disease	Peds Cardiology Peds Cardiac Surgery

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
Cerebral Palsy	Pediatric Neurology Orthopedics Physiatrist PM&R Occasionally: Neurosurgery for shunts, GI, Neuro development for G-Tube
Cleft Lip/Palate	See Anomalies of Skull and Face/Cleft Palate –Isolated Cleft may need only plastic surgery
Craniosynostosis	Neurosurgeon
Cystic Fibrosis	Cystic Fibrosis Clinic Peds/Adult Pulmonology Endocrine (with Diabetes) Occasionally: Gastroenterology or Pediatric surgery
Dermatomyositis	See Rheumatoid Arthritis
Diabetes	Peds Endocrinology Diabetes Clinic Occasionally: Ophthalmology

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
DiGeorge Syndrome	Peds Cardiology Craniofacial/Cleft Palate Clinic Occasionally: Immunology Endocrine
Dysphagia/Feeding Tubes R1310 – All Dysphagia types R1319 – Specific for Devos Q399 – G-Tube	Peds Gastroenterology Feeding Clinic (Dr.Dodge) Occasionally: PM&R, Pulmonology, ENT
Encephalitis/Meningitis	Peds Neurology Peds Infectious Disease
Epilepsy	Peds Neurology Ophthalmology
Esotropia/Exotropia Strabismus/Amblyopia	Ophthalmology Optometry
Fredrich's Ataxia	Peds Neurology Orthopedics Occasionally: Cardiology, Audiology, Ophthalmology

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
Growth Hormone Deficiency (Hypopituitarism) Can be associated with: Turner's Syndrome, Prader Willi, IUGR	Peds Endocrinology
Hodgkins/Lymphoma (See Cancer)	Peds Hematology Peds Surgery Radiation Oncology
Hemophilia/Von Willebrand's	Hemophilia Clinic Peds or Adult Hematology Dentist, if under age 21 Occasionally: ENT, Orthopedics, OB/Gyn
Hydrocephalus	Neurosurgeon Peds Neurology
Klippel-Feil Syndrome (Fused Cervical Vertebrae)	Peds Orthopedics Peds Neurosurgery (Variable can have other manifestations: Nephrology, cardiology, ENT, Audiology, Cleft Palate)
Limb Deformities	Peds Orthopedics Amputee Clinic Physiatrist

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
Metabolic Disorder E729 Amino Acid E748 Carbohydrate	Metabolic Disease Clinic Genetics Peds Neurology Other providers depending on the disorder
Mitochondrial Disease	Metabolic Disease Clinic Genetics Peds Neurology Other providers depending on the disorder
Muscular Dystrophy	Peds Orthopedics Peds Neurology Peds Cardiology Peds Pulmonology Peds Physiatrist
Neurofibromatosis	Genetics Peds Neurology Neurofibromatosis Clinic Occasionally: ENT, Audiology, Dermatology, Ophthalmology, Neurosurgery
Prader Willi	PGenetics Peds Neurology Physiatrist Peds Endocrinology Occasionally: GI for feeding tubes initially with poor feeding

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
Rheumatoid Arthritis (Dermatomyositis, Lupus)	Peds Rheumatology Peds Orthopedics Peds Ophthalmology Depending on the diagnosis: Dermatology, Plastic surgery
Scoliosis	Peds Orthopedic Surgeon Occasionally: Neurosurgery
Hearing Loss Sensorineural/Conductive	ENT Audiology Cochlear Implant Center Occasionally: Genetic, Cardiology, Ophthalmology
Serous Otitis Media Eustachian Tube Dysfunction	ENT Audiology
Sickle Cell	Sickle Cell Clinic Peds Hematologist
Sleep Apnea	Peds Pulmonology Sleep Clinic

# CSHCS Conditions With Associated Providers

CONDITION	PROVIDERS NEEDED
Spina Bifida Myelodysplasia	Myelodysplasia Clinic Pediatrician (If Director) Peds Orthopedics Urology Physiatrist Peds Neurosurgery Occasionally: GI
Talipe Equinovarus	Peds Orthopedics

# Reports

# Let's Talk Reports

- ▶ There are 17 LHD reports in the current database.
- ▶ The reports provide a variety of information:
  - Who lost Medicaid
  - Who lost enrollment in a health plan
  - How many clients are in each county and/or district
    - How many have Medicaid, how many only have CSHCS
  - Which clients renewed in the auto-renewal process
  - Which clients did not auto renew
  - Client-specific expenditures

# LHD Clients Added Since

- ▶ This report shows clients added to the database since MMDDYYYY. User inputs the desired date.

# MILogin

# MILogin

- ▶ Single Sign On (SSO) is gradually going away as the new solution, MILogin, goes live in several waves.
- ▶ CSHCS went live in Wave 2 on May 20<sup>th</sup>.
- ▶ CHAMPS will go live in Wave 3 on June 19<sup>th</sup>.
- ▶ MCIR and WIC are scheduled to go live in Wave 4, effective July 26, 2016.

# MILogin

- ▶ MILogin Team continues work on sporadic issues related to CSHCS system:
  - Multi Factor Authentication (MFA) not consistently requested before entry
  - Provider Names not populating on Overview and Enrollment screens
  - MFA screen sometimes pops up when LHD User clicks for a diagnosis definition

# Payment Agreement Guidance

# Payment Agreements: Guidance For Clients Turning 18 During the Enrollment Period

- ▶ Things to consider:
  - How many months into the payment agreement period will the client turn 18?
  - If the client turns 18 sometime during the 90 days prior to or within 60 days after the expiration date, the family may want to wait for the client to turn 18 then have them sign the IRPA.  
NOTE: The client cannot sign the IRPA before the day they turn 18 or the IRPA will be returned since they are not their own responsible party until age 18.
  - If the responsible party signs the IRPA, they will be responsible for the entire amount of the agreement even after the client turns 18. The balance due is not amended nor is this a reason to request an exception since the entire amount was due at the start of the payment agreement period.

# Payment Agreements: Guidance For Clients Turning 18 During the Enrollment Period

- ▶ More things to consider:
  - What is the client's diagnoses?
    - If the client has Diabetes, Epilepsy, etc., where regular medications are needed, the family may decide to renew even though the payment agreement amount will typically be higher than if the 18 year old signs the contract.
    - If the client has a hearing loss diagnosis and does not need new hearing aids in the next few months, they may decide to let coverage lapse (60 days or less), waiting for the client to turn 18.

# Payment Agreements: Guidance For Clients Turning 18 During the Enrollment Period

- ▶ One more thing to consider:
  - Does the family anticipate having the client apply for Medicaid when they turn 18? If so, no IRPA is needed, but the length of time until Medicaid coverage is established may put them into a lapsed coverage situation.

# MIChild

# MIChild

- MICHild is a category of Medicaid (effective January 2016)
- Although it is a Medicaid category, the \$10.00 per month premium has resumed.
- Maximus continues to be the payment/premium vendor.

# Document Management Portal (DMP)

# DMP

- ▶ CSHCS program staff are being trained in June 2016 according to job duties.
- ▶ LHD training will occur in July and will be conducted via webinars.
- ▶ The transition from EZ Link to DMP is expected to happen on or near August 1, 2016.

# DMP

- ▶ Document Management Portal (DMP) is a document based system.
- ▶ There is no longer a comprehensive client file similar to EZLink.
- ▶ There is the capability to search a client by name, ID, etc., and find all documents associated to the client.
- ▶ You will access DMP by logging into CHAMPS.

# DMP

- Documents uploaded to the DMP with Document Type and Document Title assigned by the LHD, Medicaid Health Plan or other provider will go directly to the appropriate work queue within CSHCS for processing.
- Documents that are uploaded to the DMP with the incorrect Document Type and/or Document Title will take additional steps within CSHCS to process the document correctly.
- Documents that are faxed or mailed to CSHCS will have the Document Type and Document Title assigned by CSHCS staff and routed to the appropriate CSHCS work queue. Faxed and mailed documents will take longer to process.

# DMP

More to come as we work our way through determining the most efficient manner to do business in the new environment.

# Transitioning From The Current Database to eMEDS and CSHCS/CHAMPS

# The Current CSHCS Database

- ▶ When will the current database be decommissioned?
  - As of today, we anticipate that the current database will no longer be available at the close of business on Thursday, January 5, 2017.
  - Because of the transition time needed by the vendor, we will be unable to work in the database on Friday, January 6, 2017.
  - The new system will go-live over the weekend and be ready for use on Monday, January 9, 2017.

# The New CSHCS System

- ▶ The new system will have two parts: eMEDS and CSHCS CHAMPS.
  - eMEDS will contain client medical records and medical eligibility decisions. It will also be the entry point for clients to apply online.
  - CSHCS CHAMPS is where initial enrollment, renewal activities, adding providers, adding diagnoses, payment agreement, and the insurance premium benefit program information will reside.
  - Letters will be generated out of both portion of the system depending on whether the client is enrolled in CSHCS or not.

# How Does It Work?

- ▶ Although we have completed the requirements and design phases of the project and seen some parts of the system through the vendor's view and screen prints, we have yet to see or test the new system(s).
- ▶ User Acceptance should begin in September.

# Questions?
