**MDHHS/CMHSP MANAGED SPECIALTY SUPPORTS AND SERVICES CONTRACT
FY19 REPORTING REQUIREMENTS**

Introduction

The Michigan Department of Health and Human Services reporting requirements for the FY2019 Master contract with pre-paid inpatient health plans (PIHPs) are contained in this attachment. The requirements include the data definitions and dates for submission of reports on Medicaid beneficiaries for whom the PIHP is responsible: persons with mental illness and persons with developmental disabilities served by mental health programs; and persons with substance use disorders served by the mental health programs. These requirements do not cover Medicaid beneficiaries who receive their mental health benefit through the Medicaid Health Plans, and with whom the CMHSPs and PIHPs may contract (or subcontract with an entity that contracts with the Medicaid Health Plans) to provide the mental health benefit.

Companions to the requirements in this attachment are

- “Supplemental Instructions for Encounter and Quality Improvement Data Submissions” which contains clarifications, value ranges, and edit parameters for the encounter and quality improvement (demographic) data, as well as examples that will assist PIHP staff in preparing data for submission to MDHHS.
- Mental Health Code list that contains the Medicaid covered services as well as services that may be paid by general fund and the CPT and HCPCs codes that MDHHS and EDIT have assigned to them.
- Cost per code instructions that contain instructions on use of modifiers; the acceptable activities that may be reflected in the cost of each procedure; and whether an activity needs to be face-to-face in order to count.
- “Establishing Managed Care Administrative Costs” that provides instructions on what managed care functions should be included in the allocation of expenditures to managed care administration
- “Michigan’s Mission-Based Performance Indicator System, Version 6.0” is a codebook with instructions on what data to collect for, and how to calculate and report, performance indicators

These documents are posted on the MDHHS web site and are periodically updated when federal or state requirements change, or when in consultation with representatives of the public mental health system it deemed necessary to make corrections or clarifications. Question and answer documents are also produced from time to time and posted on the web site.

Collection of each element contained in the master contract attachment is required. Data reporting must be received by 5 p.m. on the due dates (where applicable) in the acceptable format(s) and by the MDHHS staff identified in the instructions. Failure to meet this standard will result in contract action.

The reporting of the data by PIHPs described within these requirements meets several purposes at MDHHS including:

- Legislative boilerplate annual reporting and semi-annual updates
- Managed Care Contract Management
- System Performance Improvement
- Statewide Planning
- Centers for Medicare and Medicaid (CMS) reporting
- Actuarial activities

Individual consumer level data received at MDHHS is kept confidential and published reports will display only aggregate data. Only a limited number of MDHHS staff members have access to the database that contains social security numbers, income level, and diagnosis, for example. Individual level data will be provided back to the agency that submitted the data for encounter data validation and improvement. This sharing of individual level data is permitted under the HIPAA Privacy Rules, Health Care Operations.

BEHAVIORAL HEALTH TREATMENT EPISODE DATA SET (BH-TEDS) COLLECTION/RECORDING AND REPORTING REQUIREMENTS

Technical specifications-- including file formats, error descriptions, edit/error criteria, and explanatory materials on record submission are located on MDHHS's website at:

http://www.michigan.gov/mdhhs/0,4612,7-132-2941_38765---,00.html

Reporting covered by these specifications includes the following:

-BH -TEDS Start Records (due monthly)

-BH-TEDS Discharge/Update/End Records (due monthly)

A. Basis of Data Reporting

The basis for data reporting policies for Michigan behavioral health includes:

1. Federal funding awarded to Michigan through the Combined SABG/MHBG Behavioral Health federal block grant.
2. SAMHSA's Behavioral Health Services Information Systems (BHSIS) award agreement administered through Synectics Management, Inc that awards MDHHS a contracted amount of funding if the data meet minimum timeliness, completeness and accuracy standards
- 3 Legislative boilerplate annual reporting and semi-annual updates

B. Policies and Requirements Regarding Data

BH-TEDS Data reporting will encompass Behavioral Health services provided to persons supported in whole or in part with MDHHS-administered funds.

Policy:

Reporting is required for all persons whose services are paid in whole or in part with state administered funds regardless of the type of co-pay or shared funding arrangement made for the services.

For purposes of MDHHS reporting, an admission, or start, is defined as the formal acceptance of a client into behavioral health services. An admission or start has occurred if and only if the person begins receiving behavioral health services.

1. Data definitions, coding and instructions issued by MDHHS apply as written. Where a conflict or difference exists between MDHHS definitions and information

developed by the PIHP or locally contracted data system consultants, the MDHHS definitions are to be used.

2. All SUD data collected and recorded on BH-TEDS shall be reported using the proper Michigan Department of Licensing and Regulatory Affairs (LARA) substance abuse services site license number. LARA license numbers are the primary basis for recording and reporting data to MDHHS at the program level.
3. There must be a unique Person identifier assigned and reported. It must be 11 characters in length, and alphanumeric. This same number is to be used to report data for BH-TEDS and encounters for the individual within the PIHP. It is recommended that a method be established by the PIHP and funded programs to ensure that each individual is assigned the same identification number regardless of how many times he/she enters services in any program in the region, and that the client number be assigned to only one individual.
4. Any changes or corrections made at the PIHP on forms or records submitted by the program must be made on the corresponding forms and appropriate records maintained by the program. Each PIHP and its programs shall establish a process for making necessary edits and corrections to ensure identical records. The PIHP is responsible for making sure records at the state level are also corrected via submission of change records in data uploads.
5. PIHPs must make corrections to all records that are submitted but fail to pass the error checking routine. All records that receive an error code are placed in an error master file and are not included in the analytical database. Unless acted upon, they remain in the error file and are not removed by MDHHS.
6. The PIHP is responsible for generating each month's data upload to MDHHS consistent with established protocols and procedures. Monthly data uploads must be received by MDHHS via the DEG no later than the last day of the following month.
7. The PIHP must communicate data collection, recording and reporting requirements to local providers as part of the contractual documentation. PIHPs may not add to or modify any of the above to conflict with or substantively affect State policy and expectations as contained herein.
8. Statements of MDHHS policy, clarifications, modifications, or additional requirements may be necessary and warranted. Documentation shall be forwarded accordingly.

Method for submission: BH-TEDS data are to be submitted in a fixed length format, per the file specifications.

Due dates: BH-TEDS data are due monthly. The PIHP is responsible for generating each month's data upload to MDHHS consistent with established protocols and procedures. Monthly

data uploads must be received by MDHHS via the DEG no later than the last day of the following month.

Who to report: The PIHP must report BH-TEDS data for all individuals with mental health, intellectual/developmental disabilities, and substance use disorders who receive services funded in whole or in part with MDHHS-administered funding. PIHPs participating in the Medicare/Medicaid integration project are not to report BH-TEDS records for beneficiaries for whom the PIHP's financial responsibility is to a non-contracted provider during the 180-day continuity of care.

PROXY MEASURES FOR PEOPLE WITH DEVELOPMENTAL DISABILITIES

For FY19, the CMHSPs are required to report a limited set of data items in the Quality Improvement (QI) file for consumers with an intellectual or developmental disability. The required items and instructions are shown below. Detailed file specifications are (will be) available on the MDHHS web site.

***Instructions:** The following elements are proxy measures for people with developmental disabilities. The information is obtained from the individual's record and/or observation. Complete when an individual begins receiving public mental health services for the first time and update at least annually. Information can be gathered as part of the person-centered planning process.*

For purposes of these data elements, when the term "support" is used, it means support from a paid or un-paid person or technological support needed to enable the individual to achieve his/her desired future. The kinds of support a person might need are:

- *"Limited" means the person can complete approximately 75% or more of the activity without support and the caregiver provides support for approximately 25% or less of the activity.*
- *"Moderate" means the person can complete approximately 50% of the activity and the caregiver supports the other 50%.*
- *"Extensive" means the person can complete approximately 25% of the activity and relies on the caregiver to support 75% of the activity.*
- *"Total" means the person is unable to complete the activity and the caregiver is providing 100% support.*

Fields marked with an asterisk * cannot be blank or the file will be rejected.

* **Reporting Period (REPORTPD)**
The last day of the month in which the consumer data is being updated. Report year, month, day: yyyyymmdd.

* **PIHP Payer Identification Number (PIHPID)**

The MDHHS-assigned 7-digit payer identification number must be used to identify the PIHP with all data transmissions.

* ***CMHSP Payer Identification Number (CMHID)***

The MDHHS-assigned 7-digit payer identification number must be used to identify the CMHSP with all data transmissions.

* ***Consumer Unique ID (CONID)***

A numeric or alphanumeric code, of 11 characters that enables the consumer and related services to be identified and data to be reliably associated with the consumer across all of the PIHP's services. The identifier should be established at the PIHP level so agency level or sub-program level services can be aggregated across all program services for the individual. The consumer's unique ID must not be changed once established since it is used to track individuals, and to link to their encounter data over time. **A single shared unique identifier must match the identifier used in 837 encounter for each consumer.**

Social Security Number (SSNO)

The nine-digit integer must be recorded, if available.

Blank = Unreported [Leave nine blanks]

CHAMPS BEHAVIORAL HEALTH REGISTRY FILE

Purpose: In the past basic consumer information from the QI (MH) and TEDS (SUD) files were sent to CHAMPS to be used as a validation that the consumer being reported in the Encounters is a valid consumer for the reporting PIHP. With QI eventually being phased out during FY16 and

TEDS ending on 9/30/2015, BHTEDS will be replacing them both beginning 10/1/2015. To use BHTEDS to create the CHAMPS validation file would be difficult as there would be three different types of records – mental health, substance use disorder and co-occurring.

Requirement: To simplify the process of creating this validation file, BHDDA is introducing a new file called the Behavioral Health Registry file. For this file, PIHPs are required to report five fields of data with only three being required. The required fields are: PIHP Submitter ID, Consumer ID and Begin Date (date less than or equal to first Date of Service reported in Encounters.) The following two fields will only be reported if the consumer has either: Medicaid ID and MICHild ID.

The file specifications and error logic for the Registry are (will be) available on the MDHHS web site at: http://www.michigan.gov/mdhhs/0,4612,7-132-2941_38765---,00.html Submissions of the BH Registry file by CHAMPS will be ready by 10/1/2015.

**ENCOUNTERS PER MENTAL HEALTH, DEVELOPMENTAL DISABILITY, AND
SUBSTANCE ABUSE BENEFICIARY
DATA REPORT**

Due dates: Encounter data are due within 30 days following adjudication of the claim for the service provided, or in the case of a PIHP whose business practices do not include claims payment, within 30 days following the end of the month in which services were delivered. It is expected that encounter data reported will reflect services for which providers were paid (paid claims), third party reimbursed, and/or any services provided directly by the PIHP. Submit the encounter data for an individual on any claims adjudicated, regardless of whether there are still other claims outstanding for the individual for the month in which service was provided. In order that the department can use the encounter data for its federal and state reporting, it must have the count of units of service provided to each consumer during the fiscal year. Therefore, the encounter data for the fiscal year must be reconciled within 90 days of the end of the fiscal year. Claims for the fiscal year that are not yet adjudicated by the end of that period, should be reported as encounters with a monetary amount of "0." Once claims have been adjudicated, a replacement encounter must be submitted.

Who to Report: The CMHSP must report the encounter data for all mental health and developmental disabilities (MH/DD) Medicaid beneficiaries in its entire service area for all services provided under MDHHS benefit plans. The PIHP must report the encounter data for all substance use disorder Medicaid beneficiaries in its service area. Encounter data is collected and reported for every beneficiary for which a claim was adjudicated or service rendered during the month by the PIHP (directly or via contract) regardless of payment source or funding stream. PIHP's and CMHSPs that contract with another PIHP or CMHSP to provide mental health services should include that consumer in the encounter data set. In those cases the PIHP or CMHSP that provides the service via a contract should not report the consumer in this data set. Likewise, PIHPs or CMHSPs that contract directly with a Medicaid Health Plan, or sub-contract via another entity that contracts with a Medicaid Health Plan to provide the Medicaid mental health outpatient benefit, should not report the consumer in this data set.

The Health Insurance Portability and Accountability Act (HIPAA) mandates that all consumer level data reported after October 16, 2002 must be compliant with the transaction standards. A summary of the relevant requirements is:

- Encounter data (service use) is to be submitted electronically on a Health Care Claim 5010 as appropriate.
- The encounter requires a small set of specific demographic data: gender, diagnosis, Medicaid number, race, and social security number, and name of the consumer.
- Information about the encounter such as provider name and identification number, place of service, and amount paid for the service is required.

- The 837 includes a “header” and “trailer” that allows it to be uploaded to the CHAMPS system.
- Every behavioral health encounter record must have a corresponding Behavioral Health Registry record reported prior to the submission of the Encounter. Failure to report both an encounter record and a registry record for a consumer receiving services will result in the encounter being rejected by the CHAMPS system.

The information on HIPAA contained in this contract relates only to the data that MDHHS is requiring for its own monitoring and/or reporting purposes, and does not address all aspects of the HIPAA transaction standards with which PIHPs must comply for other business partners (e.g., providers submitting claims, or third party payers). Further information is available at www.michigan.gov/MDHHS.

Data that is uploaded to CHAMPS must follow the HIPAA-prescribed formats for encounter data. The 837/5010 includes header and trailer information that identifies the sender and receiver and the type of information being submitted. If data does not follow the formats, entire files could be rejected by the electronic system.

HIPAA also requires that procedure codes, revenue codes and modifiers approved by the CMS be used for reporting encounters. Those codes are found in the Current Procedural Terminology (CPT) Manual, Fifth Edition, published by the American Medical Associations, the Health Care Financing Administration Common Procedure Coding System (HCPCS), the National Drug Codes (NDC), the Code on Dental Procedures and Nomenclature (CDPN), the International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM), ICD-10 and the Michigan Uniform Billing Manual. The procedure codes in these coding systems require standard units that must be used in reporting on the 837/5010.

MDHHS has produced a code list of covered Medicaid specialty and Habilitation Supports waiver supports and services names (as found in the Medicaid Provider Manual) and the CPT or HCPCS codes/service definition/units as soon as the majority of mental health services have been assigned CPT or HCPCS codes. This code list is available on the MDHHS web site.

The following elements reported on the 837/ 5010 encounter format will be used by MDHHS Quality Management and Planning Division for its federal and state reporting, the Contracts Management Section and the state’s actuary. The items with an ** are required by HIPAA, and when they are absent will result in rejection of a file. Items with an ** must have 100% of values recorded within the acceptable range of values. Failure to meet accuracy standards on these items will result in contract action.

Refer to HIPAA 837 transaction implementation guides for exact location of the elements. Please consult the HIPAA implementation guides, and clarification documents (on MDHHS’s web site) for additional elements required of all 837/5010 encounter formats. The Supplemental Instructions contain field formats and specific instructions on how to submit encounter level data.

**MICHIGAN MISSION-BASED PERFORMANCE INDICATOR SYSTEM
VERSION 6.0
FOR CMHSPS**

The Michigan Mission Based Performance Indicator System (version 1.0) was first implemented in FY'97. That original set of indicators reflected nine months of work by more than 90 consumers, advocates, CMHSP staff, MDHHS staff and others. The original purposes for the development of the system remain. Those purposes include:

- To clearly delineate the dimensions of quality that must be addressed by the Public Mental Health System as reflected in the Mission statements from Delivering the Promise and the needs and concerns expressed by consumers and the citizens of Michigan. Those domains are: ACCESS, EFFICIENCY, and OUTCOME.
- To develop a state-wide aggregate status report to address issues of public accountability for the public mental health system (including appropriation boilerplate requirements of the legislature, legal commitments under the Michigan Mental Health Code, etc.)
- To provide a data-based mechanism to assist MDHHS in the management of CMHSP contracts that would impact the quality of the service delivery system statewide.
- To the extent possible, facilitate the development and implementation of local quality improvement systems; and
- To link with existing health care planning efforts and to establish a foundation for future quality improvement monitoring within a managed health care system for the consumers of public mental health services in the state of Michigan.

All of the indicators here are measures of CMHSP performance. Therefore, performance indicators should be reported by the CMHSP for all the Medicaid beneficiaries for whom it is responsible. Medicaid beneficiaries who are not receiving specialty services and supports (1915(b)(c) waivers) but are provided outpatient services through contracts with Medicaid Health Plans, or sub-contracts with entities that contract with Medicaid Health Plans are not covered by the performance indicator requirements. Due dates for indicators vary and can be found on the table following the list of indicators. Instructions and reporting tables are located in the "Michigan's Mission-Based Performance Indicator System, Codebook. Electronic templates for reporting will be issued by MDHHS six weeks prior to the due date and also available on the MDHHS website: www.michigan.gov/MDHHS. Click on Mental Health and Substance Abuse, then Reporting Requirements.

STATE LEVEL DATA COLLECTION

CAFAS

Child and Adolescent Functional Assessment Scale (CAFAS) shall be performed for each child with serious emotional disturbance at intake, quarterly thereafter, and at exit. Scale scores shall be exported using the FAS Outcomes application in xml format. In order that the scores along with de-identified data are automatically sent to the Eastern Michigan University Level of Functioning (LOF) Project, the CMHSP must assure the research box remains checked. MDHHS uses aggregate reports from the LOF Project for internal planning and decision-making. In FY'11 MDHHS will cover 50% of the FAS Outcomes annual licensing fee of \$400 per CMHSP, and 50% of the per usage fee of \$2.95.

Annually each CMHSP shall submit an aggregate CAFAS report to MDHHS. The report is automatically generated by the FAS Outcomes program. **Methodology and instructions for submitting the reports are posted on the MDHHS web site at www.michigan.gov/MDHHS. Click on Mental Health and Substance Abuse, then "Reporting Requirements."**

Preschool and Early Childhood Functional Assessment Scale (PECFAS) shall be performed for each child, four through six year olds, with serious emotional disturbance at intake, quarterly thereafter, and at intake.

DECA

The Devereux Early Childhood Assessment (DECA) for Infants (1 to 18 months), Toddler (18-36 months) or Clinical (24-47 months) shall be completed by a trained rater for each young child with serious emotional disturbance or for each young child served, age 1 to 47 months, when open under the parent with mental illness or intellectual/developmental disability, at intake, quarterly thereafter, and at exit. All DECAs are to be entered into the electronic DECA (eDECA) system. DECA (Infant, Toddler and Clinical) raters are to have attended an in-person MDHHS sponsored training, a MDHHS sponsored webinar or have received training by a certified Devereux Early Childhood Trainer.

Annually, MDHHS will aggregate the DECA scores and use this information for internal planning and decision-making.

Consumer Satisfaction Survey: Adults with Serious Mental Illness & Children with Serious Emotional Disturbance

-An annual survey using MHSIP 44 items for adults with MI and substance use disorder, and MHSIP Youth and Family survey for families of children with SED will be conducted. Surveys are available on the MHSIP web site and have been translated into several languages. See www.mhsip.org/surveylink.htm

-The PIHPs will conduct the survey in the month of May for all people (regardless of medical assistance eligibility) currently receiving services in specific programs.

-Programs to be selected annually by QIC based on volume of units, expenditures, complaints and site review information.

-The raw data is due August 31st to MDHHS each year on an Excel template to be provided by MDHHS.

Critical Incident Reporting

PIHPs will report the following events, except Suicide, within 60 days after the end of the month in which the event occurred for individuals actively receiving services, with individual level data on consumer ID, event date, and event type:

- **Suicide** for any individual actively receiving services at the time of death, and any who have received emergency services within 30 days prior to death. Once it has been determined whether or not a death was suicide, the suicide must be reported within 30 days after the end of the month in which the death was determined. If 90 calendar days have elapsed without a determination of cause of death, the PIHP must submit a “best judgment” determination of whether the death was a suicide. In this event the time frame described in “a” above shall be followed, with the submission due within 30 days after the end of the month in which this “best judgment” determination occurred.
- **Non-suicide death** for individuals who were actively receiving services and were living in a Specialized Residential facility (per Administrative Rule R330.1801-09) or in a Child-Caring institution; or were receiving community living supports, supports coordination, targeted case management, ACT, Home-based, Wraparound, Habilitation Supports Waiver, SED waiver or Children’s Waiver services. If reporting is delayed because the PIHP is determining whether the death was due to suicide, the submission is due within 30 days after the end of the month in which the PIHP determined the death was not due to suicide.
- **Emergency Medical treatment due to Injury or Medication Error** for people who at the time of the event were actively receiving services and were living in a Specialized Residential facility (per Administrative Rule R330.1801-09) or in a Child-Caring institution; or were receiving either Habilitation Supports Waiver services, SED Waiver services or Children’s Waiver services.
- **Hospitalization due to Injury or Medication Error** for individuals who at the time of the event were actively receiving services and were living in a Specialized Residential facility (per Administrative Rule R330.1801-09) or in a Child-Caring institution; or receiving Habilitation Supports Waiver services, SED Waiver services, or Children’s Waiver services.
- **Arrest of Consumer** for individuals who at the time of the event were actively receiving services and were living in a Specialized Residential facility (per Administrative Rule R330.1801-09) or in a Child-Caring institution; or receiving Habilitation Supports Waiver services, SED Waiver services, or Children’s Waiver services.
