¹ The Michigan Department of Education is the lead agency for the Child Development and Care (CDC) Program. A performance agreement between the Department of Education and the Michigan Department of Health and Human Services (MDHHS) identifies services that will be provided by MDHHS to support program implementation. The CDC program provides child care assistance to qualified families when the parent(s) or substitute parent is unavailable to provide care because of high school completion, employment, participation in an approved treatment program for a physical mental or emotional condition (family preservation), or approved employment-related activities.

² Includes one or more of the following: FIP, SDA, FAP, CDC, SSI, Medicaid, Michigan Health Program.

³ Based on the U.S. Census Bureau Michigan population estimate of 9,922,576 (December 22, 2015) for "the recent and highest percentage" of the Michigan population served by the Michigan Department of Health and Human Services.

FOOD ASSISTANCE PROGRAM MISPAYMENT RATES AND SANCTION TARGETS

Fiscal Year 2006 - Fiscal Year 2015¹

OVERVIEW: Under federal quality control rules, the threshold for sanctions for active error rates is set at 105% of the national average. States are in liability status the first year a state's lower confidence boundary exceeds the national sanction target threshold. States are sanctioned and assessed financial penalties for the second consecutive year in which the state's lower confidence boundary exceeds the national sanction target threshold. Michigan was in sanction status in FY 2006 - FY 2008. The FY 2009 error rate put Michigan in first-year liability status. From FY 2010 through FY 2014 Michigan was not in liability or sanction status.

¹ Data for FY 2006 - FY 2014 are final federal rates. Data for FY 2015 are state estimates.

Notes:

Federal law requires that states receiving funding under the Temporary Assistance for Needy Families (TANF) block grant meet work participation rates for cash assistance (Family Independence Program - FIP) caseloads. Michigan is required to achieve minimum work participation rates that are a percentage of the total FIP caseload.

Federal work participation rate targets were established with the passage of welfare reform. "Rates" were subsequently adjusted to recognize reductions in public assistance caseloads that states experienced since 1995 and 2005. The above data reflect federal rates, adjusted target rates, and actual Michigan rates.

Beginning FY 2007, Michigan's two-parent FIP cases were 100% state-funded. After FY 2006, there were no longer federal targets associated with two-parent cases.

¹ Adjusted targets are those that states must meet. An adjusted target rate is the federal target rate reduced by a state's caseload reduction credit.

² Original TANF participation rates and caseload credits remained in effect until 9-30-2006. Reauthorization of the original TANF legislation occurred on 10-01-2006.

³ Actual federally approved participation rates for FY 2013 and FY 2014 were not yet finalized when this packet was developed.

⁴ The FY 2013 adjusted target is the 50% Federal Target minus a 29.4% caseload reduction credit = 20.6% adjusted target. These rates were still under review by federal Health & Human Services when this packet was developed.

⁵ The FY 2013 participation rate (53.3%) is a state-reported rate as of 2-26-16 subject to change by federal Health & Human Services review.

⁶ The FY 2014 adjusted target is the 50% Federal Target minus a 38.9% caseload reduction credit = 11.1% adjusted target. These rates were still under review by federal Health & Human Services when this packet was developed.

⁷ The FY 2014 participation rate (62.3%) is a state-reported rate as of 2-26-16 subject to change by federal Health & Human Services review.

⁸ The FY 2015 participation rate (69.4%) is a state-reported rate based on October 2014-September 2015 case reviews as of 2-26-16. This rate is subject to change by federal Health & Human Services review.

⁹ The FY 2015 adjusted target is the 50% Federal Target minus a 57.3% caseload reduction credit = 0.0% adjusted target. These rates are under review by federal Health & Human Services.

NOTE: The average HUD fair market rent for a MI 2 bedroom home in CY 2016 is \$713.

¹ A household with more than one vehicle can have a total value of \$15,000 or less.

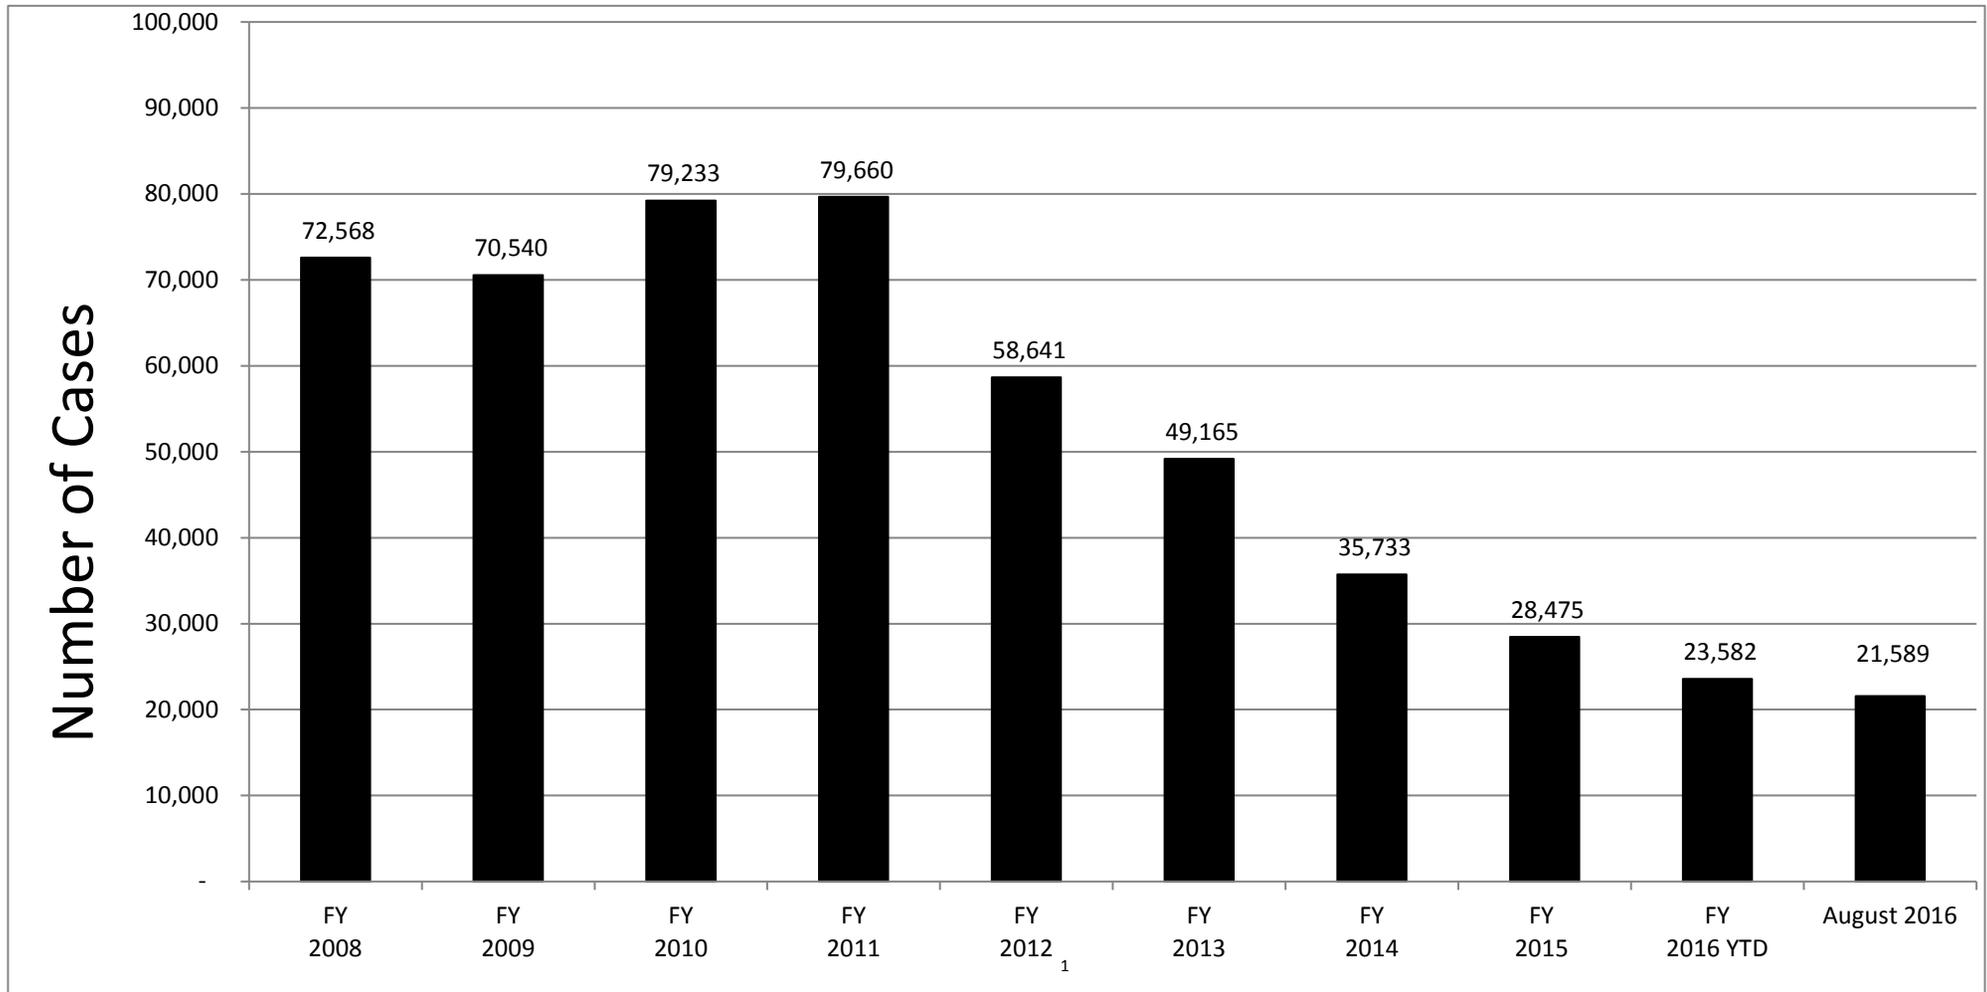

² Payment amounts for an eligible adult and two children in which the grantee is expected to work and has no earned income.

³ While the income of an ineligible adult is not counted when determining FIP and FAP benefit amounts, the earned income amount of \$877 is counted when determining the FAP amount. Thus, the FAP benefit amount will depend on the family's total income. It is assumed the recipient pays \$713 in monthly rent and receives the FY 2016 FAP heat and utility standard of \$539. **NOTE:** \$713 in rent is the average fair market Michigan rent in CY 2016. Please see page 16.

⁴ Beginning FY 2012, SDA monthly payments for new cases are \$200.

* Employer-sponsored retirement accounts are excluded from determinations for FAP eligibility. Some trusts are countable, but not those that are irrevocable. Real property assets cannot be higher than \$200,000.

Average Monthly Family Independence Program (FIP) Caseloads
Fiscal Year 2008 - Fiscal Year 2016 (Year-to-date) and August 2016 (Most Recent Month)

¹ FIP time limits were implemented in FY 2011. FIP caseloads have dropped month-over-month since October 2010.

* The August 2016 FIP-regular caseload was the lowest monthly total in 59 years (since FY 1957). With a growing Michigan economy, more clients are becoming self sufficient, resulting in further caseload decreases. Policy-driven factors, impacts surrounding FIP time limits, a FIP 21-day orientation policy and truancy policies for children attending school are also deemed responsible factors contributing to continued decreases. Of 21,589 August 2016 cases, only 8,578 (39.7 percent) were subject to cash assistance time limits. The balance of 13,001 cases were either "ineligible grantee" or "deferred" cases.

FAMILY INDEPENDENCE PROGRAM (FIP) PAYMENT AS AN ESTIMATED PERCENTAGE OF THE POVERTY LEVEL
 Fiscal Year 2007 - Fiscal Year 2016

FIP Group of Three Percentages Based on Each Year's Federal Poverty Thresholds for a Family of Three

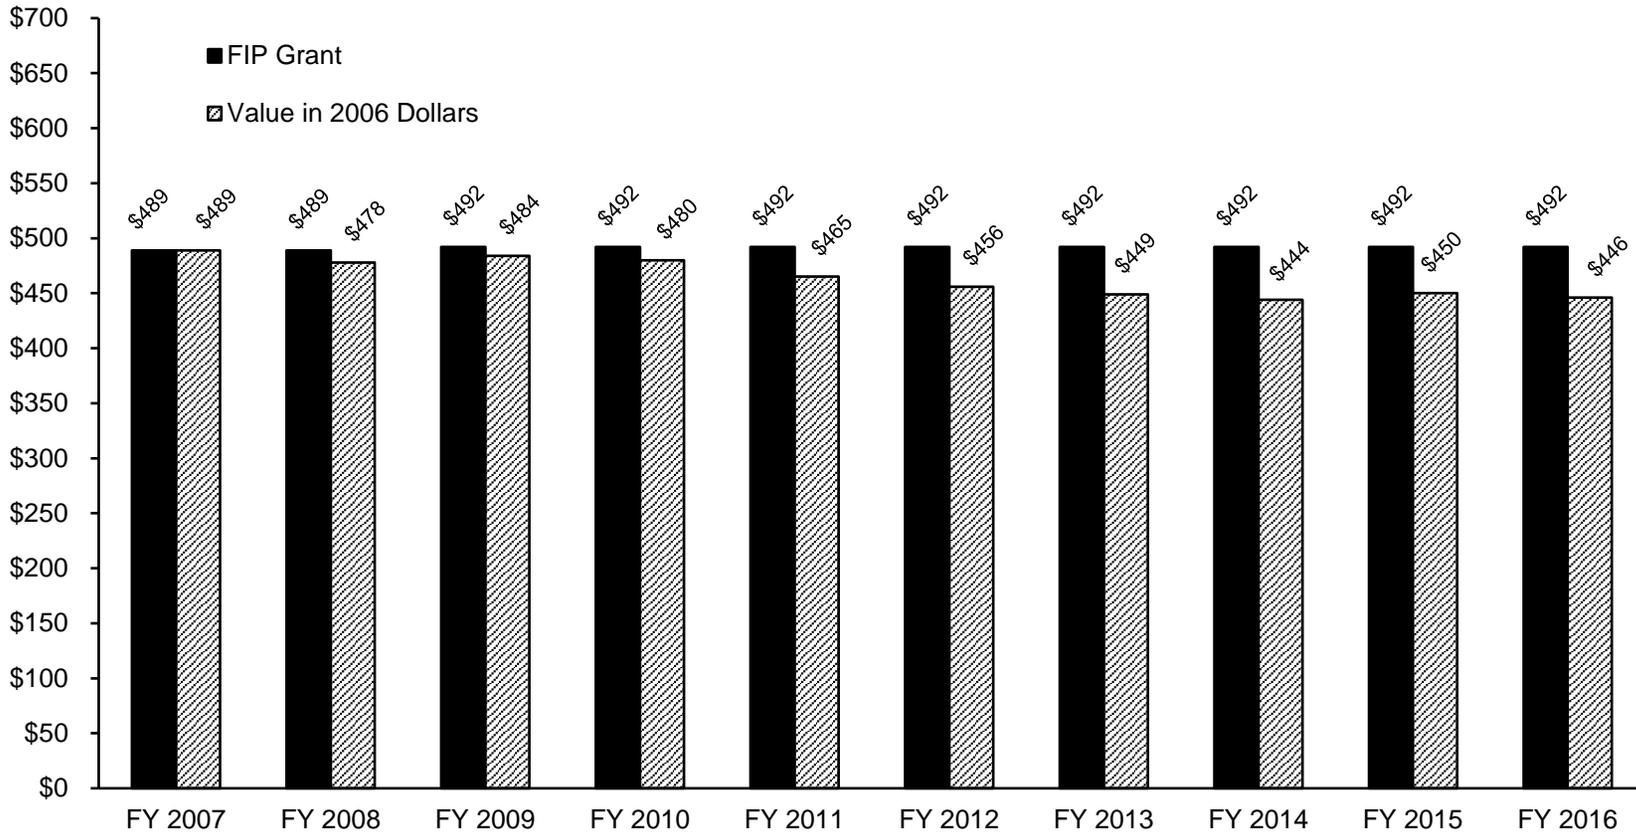

Note: The FY 2016 FIP payment for a family of three is estimated to be 31% of the CY 2016 poverty threshold. Adding FAP to the FIP payment results in a family benefit that is 63% of the estimated 2016 poverty threshold. The FIP grant for a family of three is \$492 a month or \$5,904 a year. Related FAP benefits for the same family of three total \$511 a month or \$6,132 a year.
 $\$5,904 \text{ FIP} + \$6,132 \text{ FAP} = \$12,036 / \$19,076 \text{ estimated family of three poverty threshold} = 63\% \text{ of the estimated 2016 poverty threshold.}$

FAMILY INDEPENDENCE PROGRAM (FIP) PAYMENT ADJUSTED FOR INFLATION¹

Fiscal Year 2007 - Fiscal Year 2016

FIP Family of Three - Eligible Adult Expected to Work and Two Children

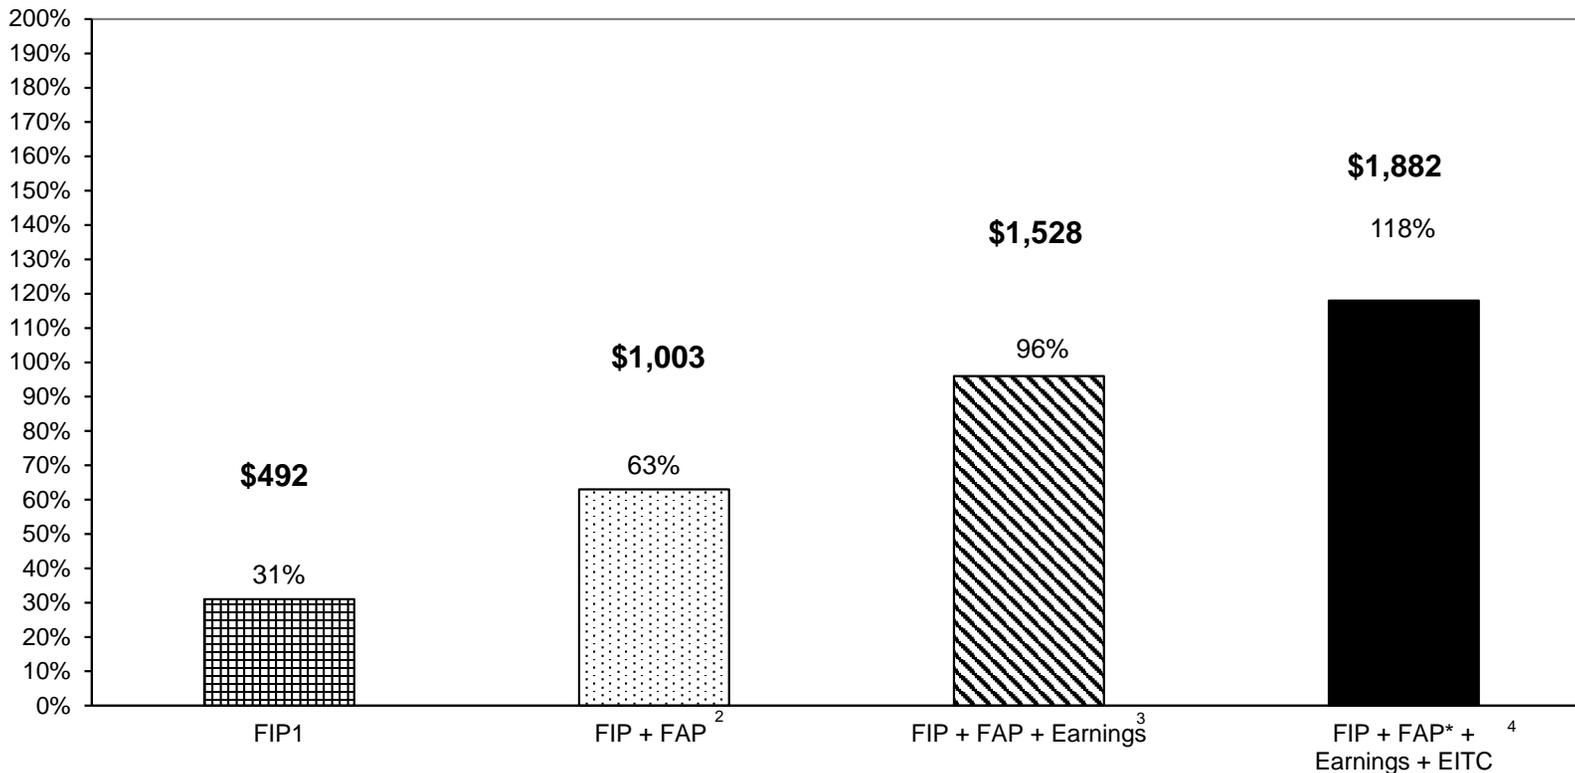

Note: From FY 2007 to FY 2016, FIP monthly grant amounts increased \$3. Over the same period, cumulative inflation (Detroit CPI-U) is estimated to have reduced the purchasing power of the grant by \$43 (in 2007 dollars).

¹ Average monthly grant received by a FIP family with no earned income over the entire fiscal year. This amount may be different than the typical grant amount shown on other pages.

FAMILY INDEPENDENCE PROGRAM (FIP) BENEFITS, EARNED INCOME, FOOD ASSISTANCE AND FEDERAL AND STATE EARNED INCOME TAX CREDITS AS PERCENTAGES OF THE ESTIMATED 2016 POVERTY THRESHOLD¹

Fiscal Year 2016 Estimate
FIP Family of Three with Earned Income of \$877 per Month

¹ The 2016 estimated poverty threshold for a family of three = \$19,076. Annual FIP benefits for a family of three total \$5,904, or 31% of the poverty level.

² Includes \$492 FIP grant and \$511 in FAP benefits. Total benefit value = \$1,003.

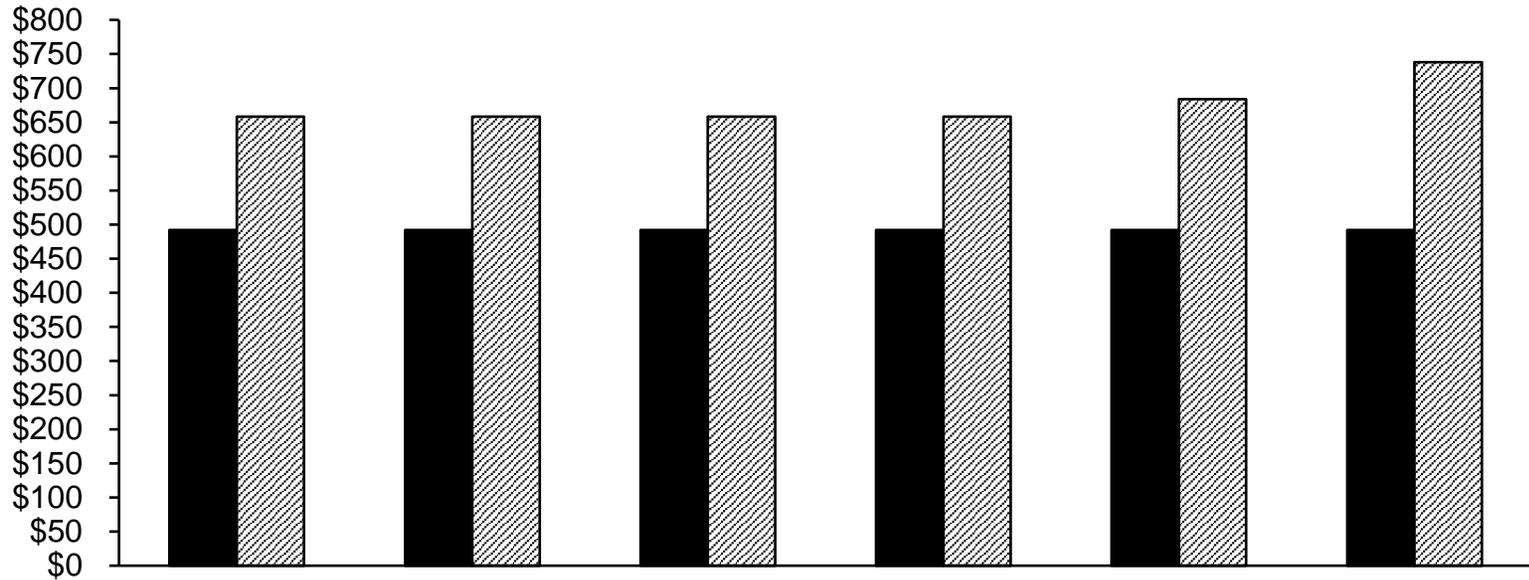

³ Includes \$154 FIP grant, \$877 in earnings and \$497 in monthly FAP benefits. Total benefit value = \$1,528.

⁴ A family of three receiving Family Independence Program (FIP) benefits, Food Assistance Program (FAP) benefits and with average earned income of \$877 each month would have estimated household income equal to 96% of poverty. U.S. and Michigan combined Earned Income Tax Credits (EITC) raise the percentage to 118%. NOTE: Michigan's EITC is 6% of the federal EITC. The federal monthly EITC for this group is \$334 / \$4,008 annually. The monthly state EITC is 6% of that total or \$20 / \$240 annually. The combined EITC is then \$4,248 (\$4,008 federal + \$240 state = \$4,248 / 12-months = \$354 (a month). Includes \$154 FIP grant, \$877 in earnings, \$497 in FAP benefits and \$354 in combined federal and Michigan EITC Total benefit value = \$1,882.

NOTE: With the minimum wage at \$8.50 as of January 2016, a person working 24 hours a week for 4.3 weeks a month has earned income of \$877.

Note: Adoption subsidy caseloads decreased 2,822 cases (10.3%) from FY 2010 (highest recent caseload) through FY 2016 YTD. Title IV-E, TANF/state cases refer to eligibility categories of children covered by the Adoption Support Subsidy program. Beginning FY 2012, Michigan extended benefit programming for eligible children under the Young Adult Voluntary Foster Care (YAVFC) program, providing benefits for eligible individuals to age 21.

GUARDIANSHIP ASSISTANCE PROGRAM (GAP) CASELOAD TRENDS

■ Cases	128	314	486	633	862	998	1,046
---------	-----	-----	-----	-----	-----	-----	-------

Note: The GAP caseload has increased month-over-month and year-over-year since FY 2011. The FY 2016 year-to-date (October 2015 - August 2016) average caseload was 998 cases. In August 2016, the GAP caseload count was 1,046 cases, the fourth highest caseload ever.

JUVENILE JUSTICE AVERAGE MONTHLY CASELOADS FY 2006 - FY 2015

Average Monthly Caseload

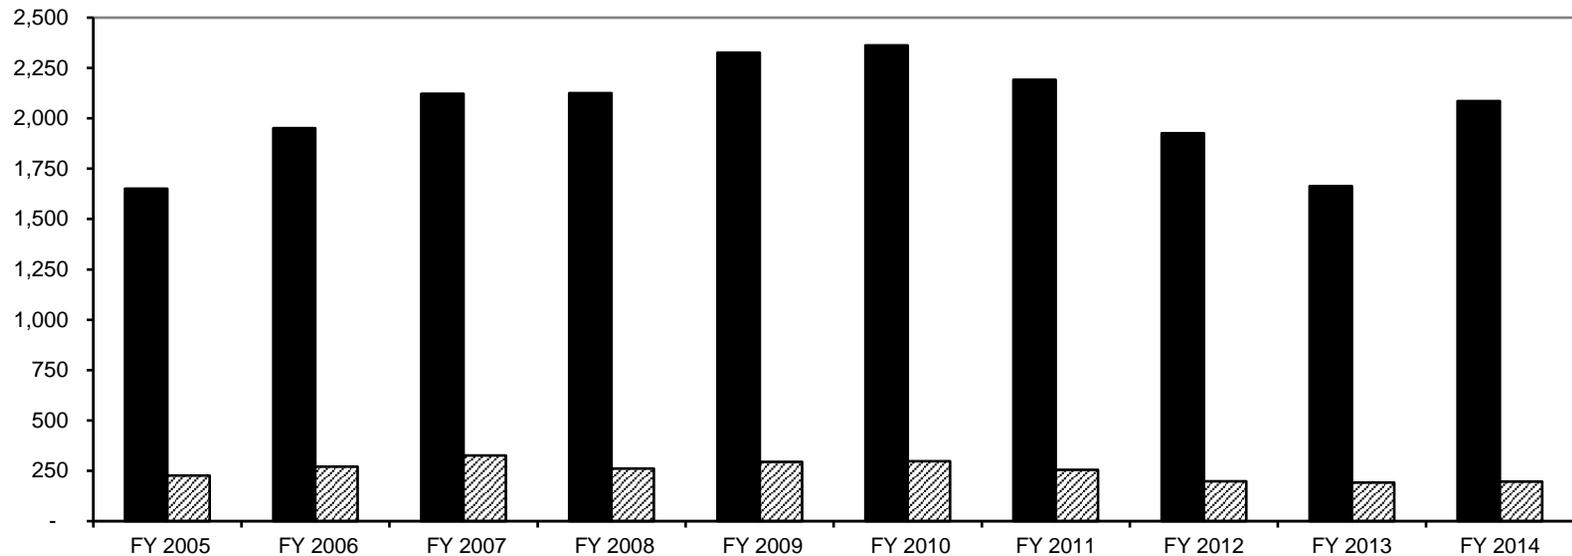

Note: *The average monthly Juvenile Justice caseload has decreased year-over-year since FY 2006. From FY 2006 to FY 2015 the caseload dropped by 906 (54.7 percent). Caseload decreases are attributed to the implementation of community-based diversion programming in several counties across the state. Reflected caseloads include only youth in public and private placements under the supervision of the Department.*

NOTE: The major goal of Families First is to maintain children in their own family home. However, when children are removed from their families and placed in out-of-home care, they may be placed in a number of different types of settings, including with relatives. Current laws and policies require that children be placed in the least restrictive setting that can meet their needs and that relatives or kin be given priority in placement decisions.

¹ "Successful outcomes" are defined as those families where no child was placed in foster care during the 12-month follow-up period.

¹ Totals include information and referral calls related to domestic and sexual violence.

² Shelter denial totals reflect the number of adult victims of domestic violence who were declined emergency shelter due to shelter(s) being full. There are duplications in counts. When a client calls more than once, each call is counted. A call can represent the shelter request or needs of the adults, as well as those of their children.

INSURANCE ASSISTANCE PROGRAM (IAP) CLIENTS SERVED & HIV/AIDS SERVICES AND IAP CONTACTS FY 2006 - FY 2015

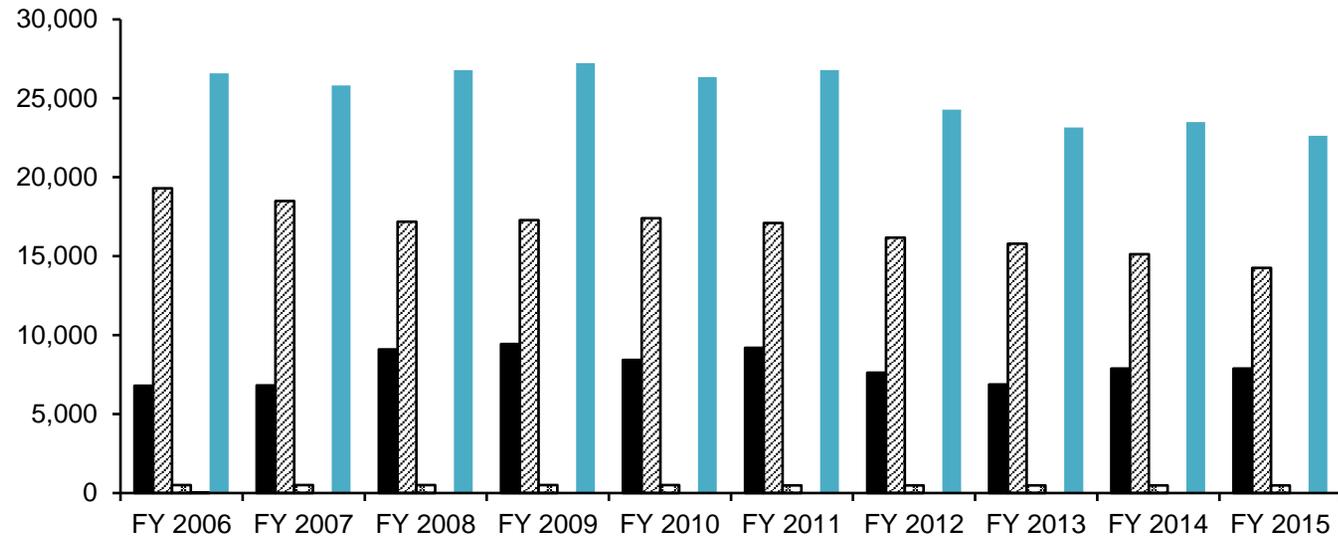

Note: When totaled, the number of "contacts" and "clients served" increased year-over-year from FY 2006 through FY 2011. The Insurance Assistance Program earlier consisted of two programs: 1) The Insurance Assistance Program (IAP) and 2), the Insurance Assistance Program Plus (IAP+). As of March 1, 2012, IAP+ was transferred from the Michigan Department of Human Services to the Michigan Department of of Community Health. Therefore, from FY 2012 forward, above totals reflect just the number of clients of the Insurance Assistance Program (IAP). IAP served 350 clients in fiscal year 2014. Since that time, the merger of DCH and DHS into MDHHS has once again brought the IAP+ and IAP back into the same department administration. Merged counts of IAP and IAP+ remain unavailable from FY 2012 - FY 2015 but have been requested.

Note: Totals are final, year-end adjusted amounts (source: OCSE-34a)

¹ Public Assistance collections include TANF and IV-E. Non-PA collections include in-state, as well as out-of-state/country collections.

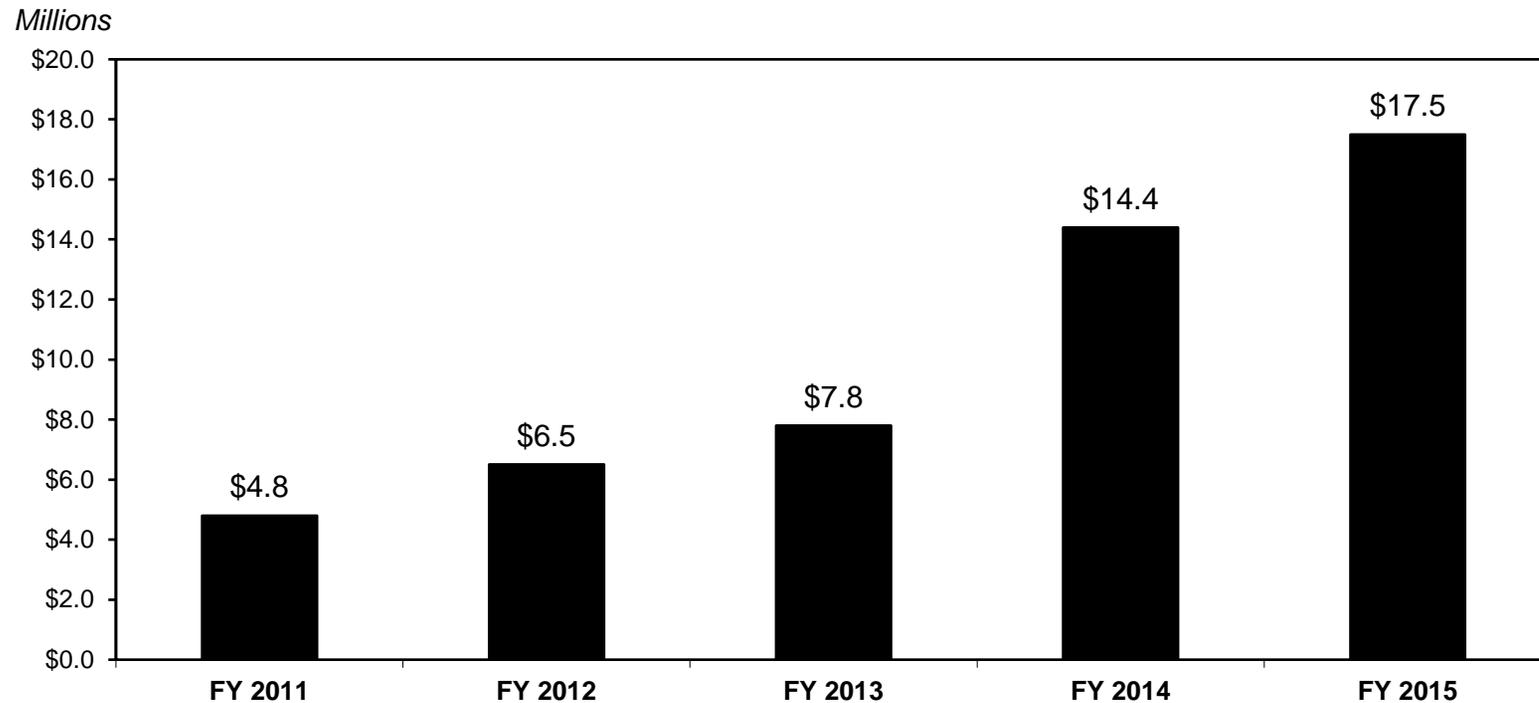

* There were recession impacts on collections in FY 2010 and FY 2011 and a decrease in TANF collections and federal tax refunds in FY 2013. There was a 20,000 TANF and Foster Care caseload drop from FY 2012 to FY 2013, which according to the OCSE-157 Federal Report, is likely to have contributed to the decline in TANF collections in FY 2012. It's further noted in the OCSE-157 Federal Report, there was a decline in tax offset collections.

OFFICE OF INSPECTOR GENERAL (OIG)
Combined Value of Identified Fraud and Cost Avoidance¹
Fiscal Year 2010 - Fiscal Year 2015

¹**Data Source:** Michigan Inspector General System (MIGS) database. The MIGS database tracks and quantifies public assistance recipient, provider, employee and trafficking cases identified / referred for fraud investigation by the OIG. Systems data contributing to MIGS include in part: 1) Front End Eligibility (FEE) fraud detection and prevention, 2) Benefit Trafficking Unit (BTU), 3) Special Investigations Unit (SIU), and 4) Investigative Analytics Unit (IAU). Since FY 2010, the value of OIG trafficking increased from \$42 million to \$141 million in FY 2015, an increase of \$99 million (nearly 336%).

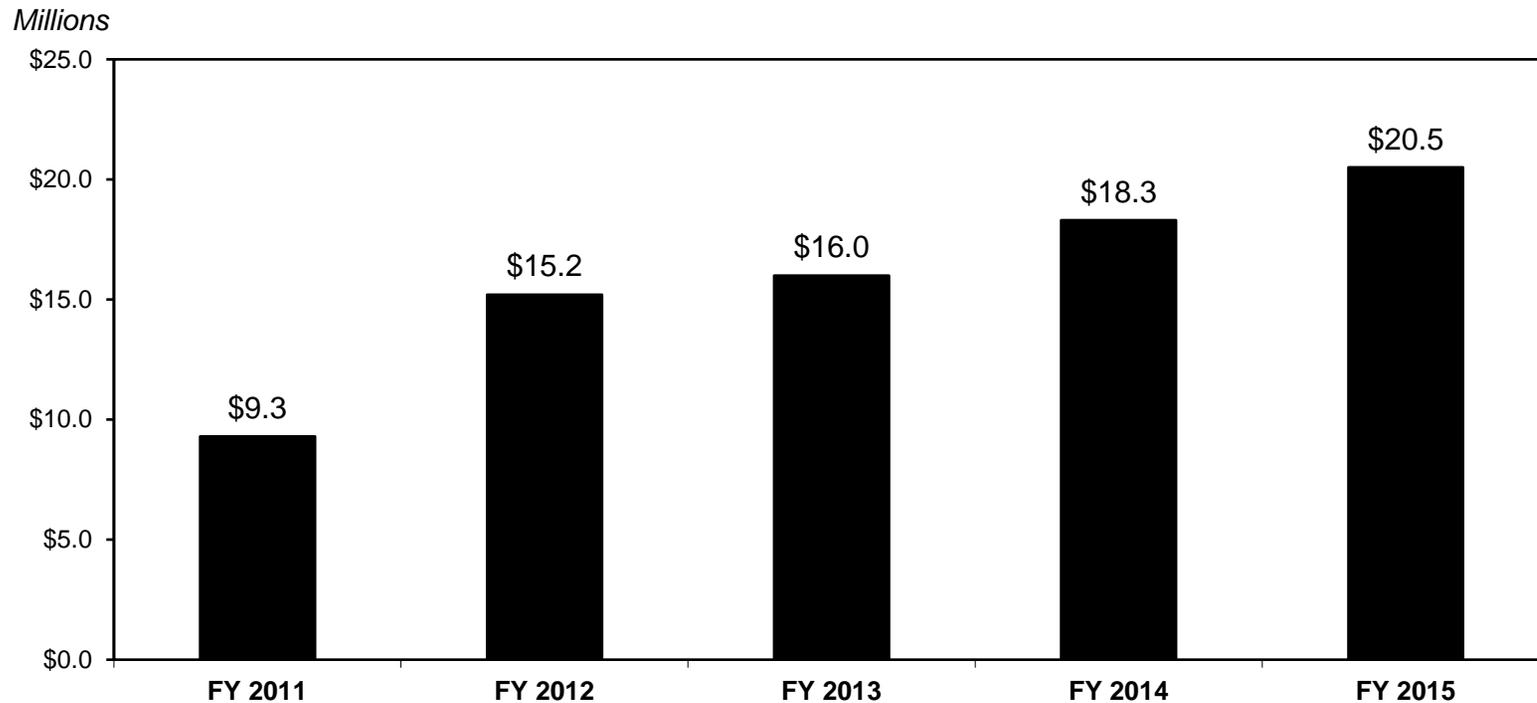

OFFICE OF INSPECTOR GENERAL (OIG)
Combined Value of Medicaid Provider Fraud, Overpayments and Cost Avoidance¹
Fiscal Year 2011 - Fiscal Year 2015

The OIG tracks Medicaid provider fraud, overpayment and cost avoidance data through the CHAMPS Siebel CRM database. Overpayments are identified through various audit and investigative activities where Medicaid provider payments are compared to supporting documentation (e.g., medical records, prescriptions, etc.) to ensure payments were made in accordance with Medicaid policy and state and/or federal law. OIGs cost avoidance calculations estimate the reduction in future Medicaid payments as a result of action taken (e.g., provider suspensions, Medicaid policy enhancements, and payment processing edits, etc.).

OFFICE OF INSPECTOR GENERAL (OIG)
Value of Food Assistance Program (FAP) Fraud Claim¹
Fiscal Year 2011 - Fiscal Year 2015

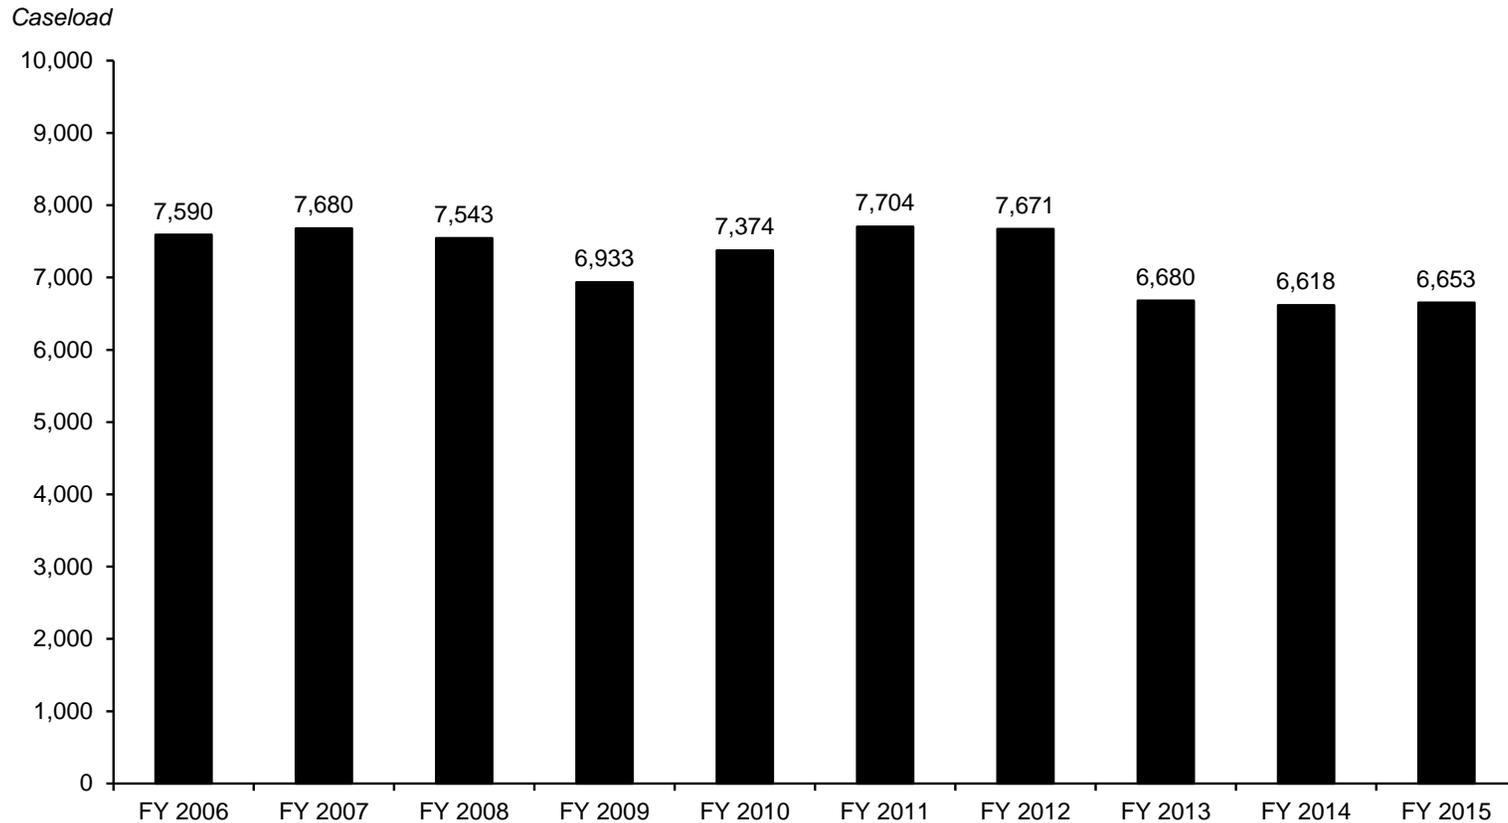

OIG's Recoupment Specialists' and Investigators establish client, agency and fraud claims on behalf of the Department. Since FY 2011, claims established against households increased 120%.

¹Data Source: Quarterly Report of Status of Claims Against Households (GH-490).

MICHIGAN REHABILITATION SERVICES (MRS)

Employment Outcomes¹ FY 2006 - FY 2015

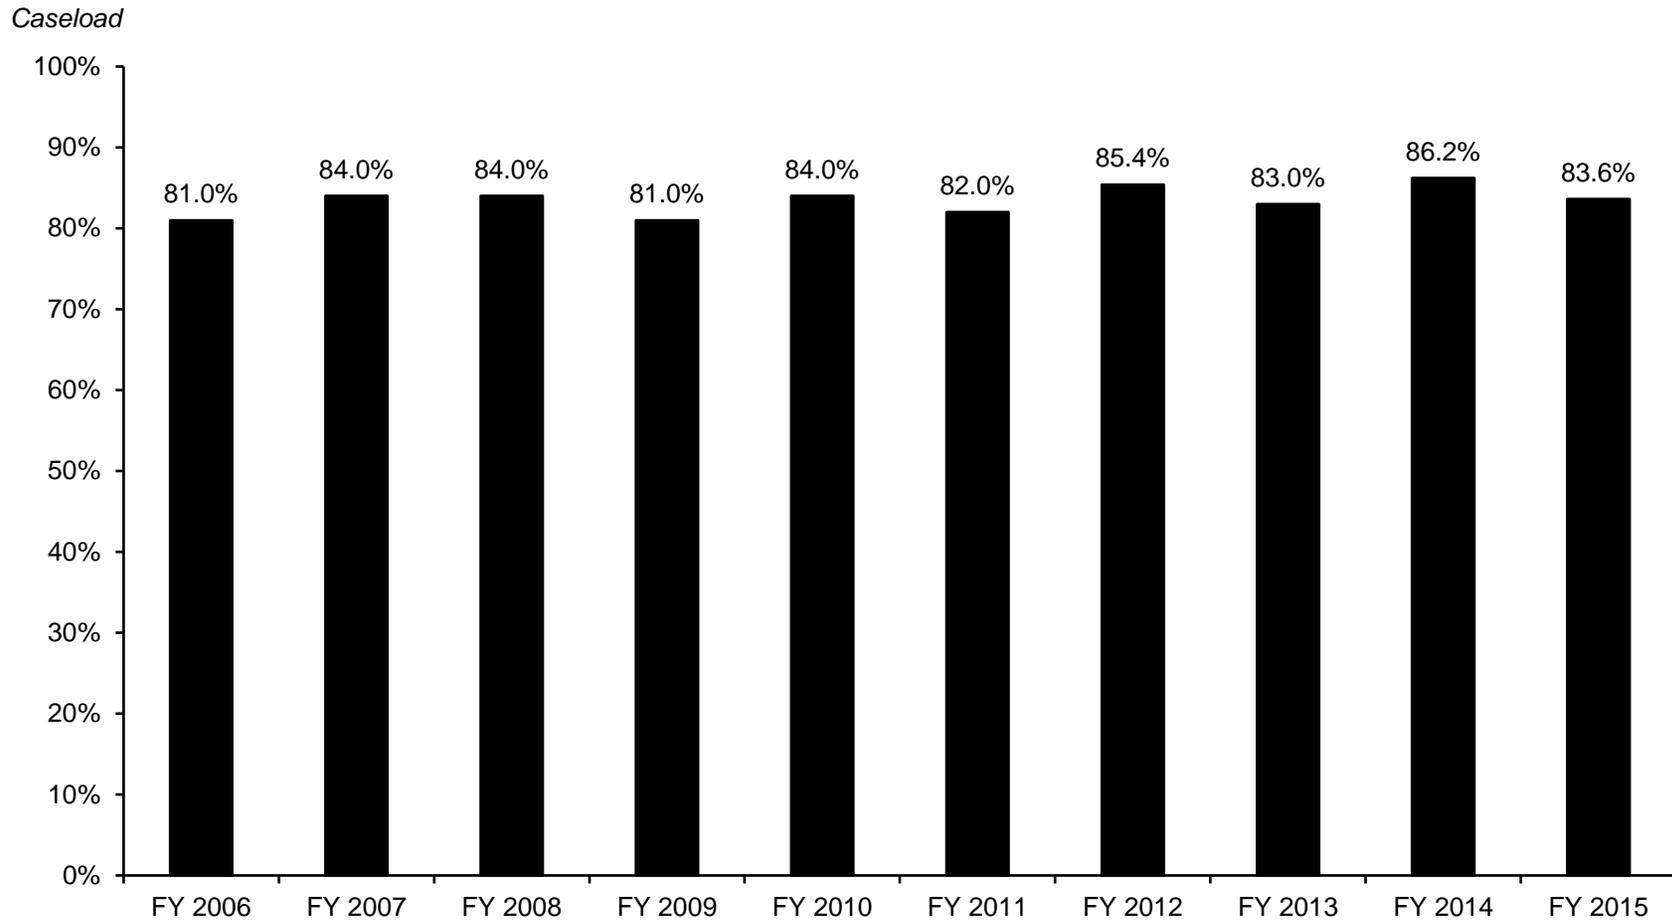

¹ An Employment Outcome results when an applicant: 1) completes an individualized service plan; 2) receives vocational services; 3) obtains employment paying minimum wage (or higher) and remains on the job for 90 days (or longer).

NOTE: Several factors likely contributed to lower employment outcomes after FY 2012. First, FY 2012 was the last year of ARRA funds. That is, the American Recovery and Reinvestment Act. Without those additional funds and support, rehabilitation tapered off nearly 13 percent. A reduction in force within MRS was also taking place in FY 2012. Ultimately, there were fewer field and MRS central office staff. Finally, MRS was moved from what was then the Michigan Department of Human Services to LARA. That is, the Michigan Department of Licensing and Regulatory Affairs. In combination then, those combined factors likely combined to result in lower employment related outcomes after FY 2012.
