Medically Frail Identification Process

Proposed Amendment: Revised July 9, 2018

Healthy Michigan Plan (HMP) beneficiaries who are considered medically frail in accordance with 42 CFR 440.315(f) are exempt from the 48-month cumulative enrollment suspension of coverage requirement. Additionally, HMP beneficiaries who are considered medically frail are exempt from the workforce engagement requirements as a condition of receiving medical coverage.

MDHHS will identify individuals who are medically frail by the following methods: 1) Self-identification, 2) claims analysis, and 3) health care provider referral.

Individuals who are identified as medically frail will retain the status for 12 months, after which time an annual review will be required.

Self-Identification

MDHHS will allow individuals to self-attest to their medically frail status through the application for medical assistance program application: Application for Health Coverage & Help Paying Costs (DCH-1426) or through completion of a Medical Exemption Request form.

With respect to the application, individuals who answer “yes” to either of these questions will be designated as medically frail:

- 1) Does the applicant “have a physical, mental, or emotional health condition that causes limitations in activities (like bathing, dressing, daily chores, etc.) or live in a medical facility or nursing home?” (Paper Application)
- 2) Does the applicant: a) “have a physical disability or mental health condition that limits their ability to work, attend school, or take care of their daily needs?” or b) “need help with activities of daily living (like bathing, dressing, and using the bathroom), or live in a medical facility or nursing home?” (Online Application)

If an individual becomes medically frail during a period of eligibility, or period of eligibility suspension due to non-compliance with the HMP criteria, he or she may update his or her application information. Alternatively, an individual may complete an MDHHS Medical Exemption Request form that requires a signature from a health care provider.

Retrospective Claims Analysis

When available, MDHHS will review health care claims data available within Community Health Automated Medicaid Processing System (CHAMPS) from the preceding 12 months for the presence of select diagnosis codes to identify individuals considered medically frail. The list of codes is included as Appendix A. MDHHS may pursue updates to this list on an annual basis, in consultation with CMS as appropriate. The claims data to be reviewed include the following:

- a. ICD-10 diagnosis codes (over 500 codes selected) that identify:
 - Individuals with disabling mental disorders;
 - Individuals with chronic substance use disorders;
 - Individuals with serious and complex medical conditions;
 - Individuals with a physical, intellectual or developmental disability that significantly impairs their ability to perform one or more activities of daily living;
- b. Whether a beneficiary is in a nursing home, hospice, or Children's Special Health Care Services (CSHCS), or is receiving home help services.

Health Care Provider Referral

Medicaid enrolled providers will be able to recommend that an individual be considered medically frail through clinical judgement in cases where individuals may have not self-identified or had a claim indicating medical frailty. Health care providers whose scope of practice qualifies them to assess an individual as medically frail will be able to complete a Medical Exemption Request form on behalf of an individual. Exemption forms will be accepted at any time.
