# MI-SIM Components

# 2018

## *A Year in Review*

---

The PCMH Initiative experienced several accomplishments in 2018:

- Approximately 350,000 Medicaid beneficiaries per month covered with services
- About 310 practices and 2,135 providers participating in the Initiative
- Initiative Participants utilized funding to transform practices through care management, SDoH screening, expanded access, improved team functioning, practice workflow improvements, etc.
- Three successful Summits with integration of ideas of Planning Committee
- Launch of Care Coordination Collaborative with two successful virtual events
- Cadre of Technical Assistance Office Hours Offerings
- Successful onboarding and integration of QMI use case data to Dashboard
- Launch of CCL Data Partnership

# PCMH Initiative Objectives

---

1. Create a Sustainable PCMH Model – Implement payment models that provide meaningful incentives to Primary Care Providers for advancing health outcomes and delivery system transformation through public/private Payer and Practice collaborations to improve health care value and transform primary care in ways that are sustainable and can be replicated statewide.
2. Improve Quality and Outcomes – Maintain and expand measurable improvements in quality of care, total cost of care, and patient satisfaction through continuous quality improvement of participating PCMH Practices.
3. Lower Overall Health Care Costs – Reduce unnecessary or avoidable costs through the timely and effective transformation of care delivery by the PCMH Practice and stronger coordination of care in other settings.

\*\*Recorded webinar content is included in the CCM course. If a care manager attends the CCM course after January 2017, they do not need to complete the PCMH, Chronic Care Model, and ACO or the Team Based Care recorded webinars. However, Care Coordinators do need to complete.

\*\*\*SDOH eLearning modules are included in the CCM course content. If the care manager attends the CCM course after July 2017, they do not need to complete the eLearning Modules. However, Care Coordinators do need to complete.

**Note: CCM course redesign to launch 2<sup>nd</sup> quarter 2019**

# Care Manager & Coordinator Learning: *Complex Care Management Training*

---

The SIM PCMH Initiative partners with the Michigan Care Management Resource Center to offer Complex Care Management Training to all Care Managers supporting SIM PCMH Initiative patients, that have not been previously trained.

The MiCMRC Complex Care Management Course (CCM) curriculum provides the framework for the complex care management role, foundational elements of integration into the ambulatory care setting, and development of complex care management skills.

## **Course Schedule**

DAY 1: Introduction, Live one-hour logistics webinar

Day 2: Self-study, recorded webinars, post-tests, (approximately 6 hours of self-study)

Day 3&4: In-person training, 8 hours each day

\*Note: This course is required for Care Managers only

# Care Manager & Coordinator Learning: *Self Management Training Options*

---

To provide additional flexibility and convenience for SIM PCMH Initiative participants, three organizations will be available for self-management training for Care Managers and Coordinators who have not been trained previously:

- Integrated Health partners (IHP)
- Michigan Center for Clinical Systems Improvement (MiCCSI)
- Practice Transformation Institute (PTI)

If self-management training is completed through one of these vendors, the PCMH Initiative will cover the cost of the course. (Travel and any other related expenses are the responsibility of the attendee or their organization.)

Trainees must attest that they have not been previously been trained in self-management. Those who completed self-management training with a MiCMRC-approved vendor with MiPCT or another initiative do not need to be retrained.

- Go to [www.micmrc.org](http://www.micmrc.org)
- Click on the success story link
- Fill out the brief questionnaire
- Click submit

It's that easy!

A member of the Michigan Institute for Care Management and Transformation team will:

- take your information and put together a draft of your story
- work with you to ensure all aspects of your story is captured.
- once approved your story will be published in an upcoming statewide newsletter

The image shows a screenshot of the Michigan Care Management Resource Center (MICMRC) website. The top navigation bar includes 'Home', 'Training & Support', and 'Care Management'. A search bar is located in the top right corner. The main content area features a 'Tell Us About It' section with a prominent 'Share Your Success Stories' link circled in red. Below this, there are several program descriptions, including 'MiCMRC Complex Care Management Course' and 'MiCMRC Approved Self-Management Support Courses and Resources'. Overlaid on the right side of the screenshot are two overlapping forms for sharing success stories. The top form is titled 'Share Your Success Story' and includes fields for 'First Name', 'Last Name', 'Email Address', 'Licensure', 'Job Title', 'Employer Type', and 'Employer Name'. It also has a 'Program' section with checkboxes for 'SIM-PCMH Initiative', 'BCBSM PDCM', 'BCBSM PDCM Specialty', 'HICM', 'CPC+', and 'Other'. The bottom form is also titled 'Share Your Success Story' and includes a 'Patient's Insurance' dropdown, a question about how the patient was referred to care management, a question about how the care manager reviewed appropriateness, a question about how the care manager knew the patient would benefit, and a question about problems and issues addressed at enrollment.

# 2019 Participation Agreement

---

- Bureau of Purchasing will send out 2019 Participation Agreement\*
  - This is the version that should be signed and returned
- Participants should continue operating under terms of 2018 Participation Agreement until receipt of 2019 Participation Agreement
- Questions can be emailed to [MDHHS-SIMPCMH@Michigan.gov](mailto:MDHHS-SIMPCMH@Michigan.gov)

\*This is the memorandum of understanding used to signify participation in the 2019 PCMH Initiative, signed by both MDHHS and either a PO (on behalf of member practices) or an individual practice. There are two versions: PO Agreement and Practice Agreement. There is also a 2019 Participation Agreement Summary of Changes resource which will be made available to support identifying the changes from the 2018 to 2019 Participation Agreement.

# 2019 Participation Requirements: Highlights

---

- Changes from 2018
  - Payment Model Update:
    - Care Management Improvement Reserve (CMIR)
    - Performance Incentive Program (PIP)
- Notable continuances from 2018
  - Care Management and Coordination Requirements
    - CMCC Tracking Code set remains unchanged
    - 2.5% CMCC benchmark remains

# Payment Model Update:

### EXAMPLE:

Participant Organization	2018 Aggregate Performance	2018 Performance Rate	2019 PMPM Payments	2019 Performance *	Action Related to 2018 Performance	Action Related to 2019 Performance
Participant 1	$\frac{596}{34,965}$	1.70%	Reduced by \$0.15	Above 2.5%	CMIR returned	None
Participant 2	$\frac{225}{5,145}$	4.37%	NO Change	Above 2.5%	None	None
Participant 3	$\frac{138}{1,464}$	9.43%	NO Change	Below 2.5%	None**	Final Initiative Payment Reduced
Participant 4	$\frac{62}{4,687}$	1.32%	Reduced by \$0.15	Below 2.5%	CMIR retained by Initiative	Final Initiative Payment Reduced

\* The 2019 Benchmark has been set--2.5% of patients within the attributed population received care management and coordination services as measured on aggregated quarterly reports for service delivery.

\*\* No 2018 Care Management Improvement Reserve was imposed as performance in 2018 was acceptable, therefore 2019 Performance will be assessed independently, and action will be as defined for the 2019 PCMH Initiative.

# Payment Model Update:

## *Performance Incentive Program (PIP)*

Participants that perform at or above the PCMH Initiative defined benchmark on a set of select quality and utilization measures will be eligible for a base performance incentive payment. Those that meet the benchmark on at least 80% of the measures for which they are eligible may receive a bonus incentive payment.

# Care Management and Coordination: *Service Documentation*

---

All Services rendered should be documented in electronic Care Management and Coordination Documentations Tools (either a stand alone product or component of EHR), with information accessible to all care team members at the point of care.

Documentation should, at a minimum, include the following:

- Date of Contact\*
- Duration of Contact
- Method of Contact
- Name(s) of Care Team Member(s) Involved in Service
- Nature of Discussion and Pertinent Details
- For G9001- Comprehensive assessment results and detailed, individualized care plan
- For G9007- Update(s) and/or additions made to individualized care plan

*\* Date of service reported should be the date the care management and coordination service took place. In some cases, a service may take place over the course of more than one day, in such an event the date of service reported should be the date the service was completed*

# Care Management and Coordination: *Claims Submission Guidelines*

---

Submission of the Care Management and Coordination claims supports one of the SIM PCMH Initiative Care Management and Coordination Metrics:

Any patient who has had a claim with one of the  
applicable codes during the reporting period

---

Eligible Population

All claims must be formally submitted to the appropriate payer (Medicaid Health Plan) directly at the practice's customary charge to be included as a part of service provision tracking

- The Care Management and Coordination services outlined by the HCPCS and CPT codes must be provided under the general supervision of a primary care provider.
- Many of the services themselves or activities to support the service can be accomplished through coordinated team efforts, maximizing Care Manager and Coordinator skills to engage patients efficiently. While many team members may be involved in the provision of a single service (such as a care transition), the service may only be billed using the National Provider Identifier (NPI) of the primary care provider
