Report produced by: MDCH, Mental Health and Substance Abuse Services, Performance Measurement Section

Source data: FY1999-FY2001 Community Mental Health Services Programs Demographic and Cost Data
FY2002-FY2013 Quality Improvement and Encounter Data

File:

Report date: 9/4/2014

Definitions: **Mental Illness:** An individual is determined to have mental illness if he/she has a DSM-IV diagnosis of mental illness, excluding mental retardation, developmental disability or substance abuse disorder.

Developmental Disability: An individual is determined to have a developmental disability if he/she meets the 1996 Mental Health Code Definition of Developmental Disability, regardless of the types of services that he/she receives.

Dual Diagnosis: Beginning FY2001, CMHSPs and PIHPs were given the option to designate an individual as having a 'dual diagnosis' if he/she met the standards for both mental illness as well as developmental disability.

Children are those consumers who are 18 years of age or younger during the fiscal year of reporting.

Note: **Consumers who were only reported to have a substance use disorder (n = 1,623) are excluded from the counts above. Additionally, for FY 2013 those reported as "Assessment Only" (n = 1,207) have been excluded from this report.**
