## Work Plan Objective Progress and Highlights:

### Injury Prevention

**Objective:** The Region 3 Trauma Network will develop a regional injury prevention plan and have it in place by July 2021.

**Progress:** The Injury prevention Subcommittee met February 16, 2021 to review examples of other regions injury prevention plans. The group has committed to meeting the goal of creating and having a Regional Injury Prevention Plan in place by July 2021. The group has also agreed to have more frequent meetings in an effort to maintain progress and improve communication.

### Communications

**Objective:** The Region 3 Trauma Network will develop a written contingency communication plan/protocol to be used when scheduling interfacility transports during a radio or telephone failure. This plan/protocol will be in place by December 2021.

**Progress:** This objective is scheduled as an agenda item to be discussed at the next Region 3 trauma meeting on April 27, 2021. The region will continue its effort to meet the objective goal date in December.

### Infrastructure

**Objective:** : The Region 3 Trauma Network has developed a regional trauma transfer envelope/checklist that will be utilized by all Region 3 hospitals. The tool is developed and currently in print. The target date for implementation is August 2021.

**Progress:** The Region 3 trauma patient interfacility transfer envelope/checklists have been distributed to all hospitals within the region. The region will monitor compliance for its use on all trauma patient interfacility transfers within the region. The region will also monitor for its effectiveness at reducing missing documentation, films and improving handoff communication between referring hospitals, transporting EMS agencies and receiving trauma centers.

## Regional Performance Improvement

**Objective:** The Region 3 RPSRO will utilize the RPSRO Inventory as a tool to monitor the performance improvement of the trauma system.

**Progress:** The RPSRO Inventory tool has been completed, presented, and discussed by the Region 3 RPSRO. Region 3 is serving as a pilot project for the state trauma system to ensure the data accuracy of the data elements reported within the inventory report. The Region 3 RPSRO has had an initial meeting to discuss regional ED dwell time goals, expectations and how to monitor these times as a performance improvement indicator.

## Continuum of Care

**Objective:** By December of 2021, the Region 3 Trauma Network will establish a regional rehabilitation subcommittee as the first step in developing a plan for the integration of rehabilitation services into the regional trauma system.

**Progress:** The Region 3 Trauma Network has formed a Trauma Rehabilitation subcommittee and have identified a chair and vice chairperson. The group has had an initial meeting and discussed how to identify acute inpatient rehabilitation services within the region and identify the volume of patients being discharged needing those services.

## Trauma Education

**Objective:** The Region 3 Trauma Network will develop a list of recommended standardized trauma training courses for each discipline, including EMS, nursing, and physicians.

**Progress:** The Region 3 Trauma Education subcommittee has met and discussed the ACS recommended trauma training courses for each discipline. The subcommittee will develop a list of available trauma educational offerings within the region, this document will be distributed prior to the regional trauma meetings.
