

Family Center for Children and Youth with Special Health Care Needs

Parent Connect Call

Conversations with parents of children with special needs!

Please join one of our Parent Consultants, Megan Mezel, as she presents on Virtual Learning Strategies for Sensory Processing Challenges!

The pandemic has brought many challenges to Michigan families including adjusting to virtual learning! Please join us for a conversation regarding sensory processing challenges that our children are facing and learn tools to help make your home an optimal learning environment for your families' needs. This call will include a short presentation and time for parents to share their own tips or ideas.

**We are not mental health professionals. We are parents of children with special health care needs. Our role is to help facilitate a discussion on the topic of sensory processing disorder and virtual learning. Our purpose is to share experiences and provide additional tools and resources.*

**Date – Wednesday December 2, 2020 at 11:00 am-12:00pm EST.
Microsoft Teams**
