

# Would You Like to Make a Difference?

## Bereavement Parent Mentor Training

The Family Center for Children and Youth with Special Health Care Needs invites you to a Bereavement Parent Mentor Training in **Detroit, Michigan.**

The training requirements for parent/caregivers are:

- Their child had a special health care need
- The loss occurred at least 18 months ago
- The parent desires to support another parent possibly with the same diagnosis, who has also experienced the loss of their child

In our free interactive **Parent Mentor Training**, you will learn from a fellow parent about:

- Parent-to-Parent Support
- Communication Skills
- Grief Support
- Self-Care

There is very little support for parents/caregivers who have had a child with special health care needs and have experienced the loss of their child. This year we will be piloting Parent Mentoring Trainings for parents who have had a child with a special health care need, experienced the loss of their child and would like to help other parents that are looking for support in their journey with grief.
