Colleagues,

We've received several inquiries from LHDs regarding the use of CSHCS base funding to support COVID-19 response activities. The source of the CSHCS base funding for local health departments is Medicaid funds. After thorough review of the parameters surrounding these Medicaid funds, and in consultation with leadership from the MDHHS Medical Services Administration and Finance Administration, it has been determined that CSHCS program funding is not flexible funding and cannot be used outside of CSHCS program activities.
