1. Executive Summary

Introduction

The Michigan Department of Health and Human Services (MDHHS) assesses the perceptions and experiences of members enrolled in the MDHHS Children's Special Health Care Services (CSHCS) Program as part of its process for evaluating the quality of health care services provided to child members. MDHHS contracted with Health Services Advisory Group, Inc. (HSAG) to administer and report results of the CSHCS Survey. The goal of the CSHCS Survey is to provide performance feedback that is actionable and that will aid in improving members' overall experiences.

This report presents the 2020 CSHCS Survey results of child members enrolled in the CSHCS Fee-for-Service (FFS) program and the Medicaid health plans (MHPs). The survey instrument selected was a modified version of the Consumer Assessment of Healthcare Providers and Systems (CAHPS®) 5.0 Child Medicaid Health Plan Survey with the Healthcare Effectiveness Data and Information Set (HEDIS®) supplemental item set and the Children with Chronic Conditions (CCC) measurement set.^{1-1,1-2} The surveys were completed by parents or caregivers of child members from May to July 2020.

Report Overview

Results presented in this report include five global ratings, five composite measures, and four individual item measures.

Results presented in this report include:

- Five global ratings:
 - *Rating of Health Plan*
 - *Rating of Health Care*
 - *Rating of Specialist Seen Most Often*
 - *Rating of Children's Multi-Disciplinary Specialty (CMDS) Clinic*
 - *Rating of Beneficiary Help Line*
- Five composite measures:
 - *Customer Service*
 - *How Well Doctors Communicate*
 - *Access to Specialized Services*
 - *Transportation*
 - *CSHCS Family Center*

¹⁻¹ CAHPS® is a registered trademark of the Agency for Healthcare Research and Quality (AHRQ).

¹⁻² HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

- Four individual item measures:
 - *Access to Prescription Medicines*
 - *CMDS Clinic*
 - *Local Health Department Services*
 - *Beneficiary Help Line*

HSAG presents aggregate statewide results and compares them to national Medicaid data and the prior two years' results, where appropriate. Throughout this report, three statewide aggregate results are presented for comparative purposes:

- MDHHS CSHCS Program: Combined results for the FFS subgroups (Medicaid and non-Medicaid) and the MHPs.
- MDHHS CSHCS Managed Care Program: Combined results for the MHPs.
- MDHHS CSHCS FFS Program: Combined results for the FFS Medicaid and FFS non-Medicaid subgroups.

Key Findings

Survey Demographics and Dispositions

Table 1-1, on the following page, provides an overview of the child member demographics for the MDHHS CSHCS Program.

Table 1-1—Child Member Survey Demographics

Table 1-2 provides an overview of the demographics of parents or caregivers who completed a CSHCS Survey and survey dispositions for the MDHHS CSHCS Program.

Table 1-2—Respondent Demographics and Survey Dispositions

Trend Analysis

HSAG compared the 2020 results to their corresponding 2018 and 2019 results to determine if the results were statistically significantly different. Table 1-3 provides the statistically significant results of the trend analysis findings for the MDHHS CSHCS Program.

Table 1-3—Trend Analysis Comparison for the MDHHS CSHCS Program

Measure	Trend Results (2020 to 2018)	Trend Results (2020 to 2019)
Global Ratings		
<i>Rating of Health Plan</i>	▲	▲
<i>Rating of Specialist Seen Most Often</i>	▲	—
<i>Rating of Health Care</i>	▲	—
<i>Rating of CMDS Clinic</i>	—	—
<i>Rating of Beneficiary Help Line</i>	—	—
Composite Measures		
<i>Customer Service</i>	—	—
<i>How Well Doctors Communicate</i>	—	▲
<i>Access to Specialized Services</i>	—	—
<i>Transportation</i>	—	▲
<i>CSHCS Family Center</i>	—	—
Individual Item Measures		
<i>Access to Prescription Medicines</i>	▲	▲
<i>CMDS Clinics</i>	—	—
<i>Local Health Department Services</i>	▼	—
<i>Beneficiary Help Line</i>	—	—
▲ Statistically significantly higher in 2020 than in previous years. ▼ Statistically significantly lower in 2020 than in previous years. — Not statistically significantly different in 2020 than in previous years.		

Managed Care Statewide Comparisons

HSAG compared the MHP and FFS results to the MDHHS CSHCS Managed Care Program to determine if plan or FFS program results were statistically significantly different than the MDHHS CSHCS Managed Care Program. Table 1-4 shows the statistically significant results of this analysis.

Table 1-4—Managed Care Statewide Comparisons: Statistically Significant Results

Measure	MDHHS CSHCS FFS Program	FFS Medicaid Subgroup	Meridian Health Plan of Michigan	Priority Health Choice, Inc.	UnitedHealthcare Community Plan
Global Ratings					
Rating of Health Plan		↓	↑	↑	
Rating of Specialist Seen Most Often	↑				
Rating of Health Care	↑				
Composite Measures					
How Well Doctors Communicate	↑	↑			
Transportation			↑ ⁺	↑ ⁺	↑ ⁺
CSHCS Family Center					↑ ⁺
Individual Item Measures					
CMDs Clinics	↑	↑ ⁺			
Local Health Department Services	↑	↑			
⁺ Indicates fewer than 100 responses. Caution should be exercised when evaluating these results. [↑] Statistically significantly above the MDHHS CSHCS Managed Care Program average. [↓] Statistically significantly below the MDHHS CSHCS Managed Care Program average.					

FFS Statewide Comparisons

HSAG compared the FFS Medicaid and FFS non-Medicaid subgroups' results to determine if the results were statistically significantly different from each other. Table 1-5 shows the statistically significant results from this analysis.¹⁻³

Table 1-5—FFS Medicaid and FFS non-Medicaid Comparisons: Statistically Significant Results

	<i>Rating of Health Plan</i>	<i>Transportation</i>
FFS Medicaid Subgroup	↓	↓ ⁺
FFS Non-Medicaid Subgroup	↑	↑ ⁺
⁺ Indicates fewer than 100 responses. Caution should be exercised when evaluating these results. [↑] Statistically significantly above the other FFS Subgroup. [↓] Statistically significantly below the other FFS Subgroup.		

¹⁻³ HSAG did not modify the survey instrument to refer to the Rating of FFS Program instead of Rating of Health Plan, since the same survey instrument was used to capture responses from parents or caretakers of child members enrolled in the MHPs and the FFS program.

2. Reader's Guide

2020 CSHCS Survey Performance Measures

The CSHCS Survey administered to the MHPs and the FFS population includes 73 survey questions that yield 14 measures of experience. These measures include five global rating questions, five composite measures, and four individual item measures. The global measures (also referred to as global ratings) reflect overall respondents' experience with the health plan, health care, specialists, CMDS clinics, and beneficiary help line. The composite measures are sets of questions grouped together to address different aspects of care (e.g., *Customer Service*, *How Well Doctors Communicate*). The individual item measures are individual questions that look at specific areas of care (e.g., *Access to Prescription Medicines*).

Table 2-1 lists the measures included in the CSHCS Survey.

Table 2-1—CSHCS Survey Measures

Global Ratings	Composite Measures	Individual Item Measures
<i>Rating of Health Plan</i>	<i>Customer Service</i>	<i>Access to Prescription Medicines</i>
<i>Rating of Health Care</i>	<i>How Well Doctors Communicate</i>	<i>CMDS Clinic</i>
<i>Rating of Specialist Seen Most Often</i>	<i>Access to Specialized Services</i>	<i>Local Health Department Services</i>
<i>Rating of CMDS Clinic</i>	<i>Transportation</i>	<i>Beneficiary Help Line</i>
<i>Rating of Beneficiary Help Line</i>	<i>CSHCS Family Center</i>	

Table 2-2 presents the survey language and response options for each measure.

Table 2-2—Question Language and Response Options

Question Language		Response Options
Global Ratings		
<i>Rating of Specialist Seen Most Often</i>		
6.	We want to know your rating of the specialist your child saw most often in the last 6 months. Using any number from 0 to 10, where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate that specialist?	0–10 Scale
<i>Rating of Health Care</i>		
18.	We want to know your rating of health care for your child's CSHCS condition in the last 6 months from <u>all doctors and other health providers</u> . Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your child's health care in the last 6 months?	0–10 Scale

Question Language		Response Options
Rating of Health Plan		
36.	Using any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your child's health plan?	0–10 Scale
Rating of CMDS Clinic		
43.	We want to know your rating for the services that your child received in a CMDS Clinic in the last 6 months. Using any number from 0 to 10, where 0 is not useful at all and 10 is the most useful in helping your child, what number would you use to rate that CMDS Clinic?	0–10 Scale
Rating of Beneficiary Help Line		
60.	We want to know your rating of all your experience with the Beneficiary Help Line. Using any number from 0 to 10, where 0 is the worst experience possible and 10 is the best experience possible, what number would you use to rate the Beneficiary Help Line in the last 6 months?	0–10 Scale
Composite Measures		
How Well Doctors Communicate		
11.	In the last 6 months, how often did your child's doctor or other health providers explain things about your child's health in a way that was easy to understand?	Never, Sometimes, Usually, Always
12.	In the last 6 months, how often did your child's doctors or other health providers listen carefully to you?	Never, Sometimes, Usually, Always
13.	In the last 6 months, how often did your child's doctors or other health providers show respect for what you had to say?	Never, Sometimes, Usually, Always
15.	In the last 6 months, how often did doctors or other health providers spend enough time with your child?	Never, Sometimes, Usually, Always
Access to Specialized Services		
23.	In the last 6 months, how often was it easy to get special medical equipment or devices for your child?	Never, Sometimes, Usually, Always
26.	In the last 6 months, how often was it easy to get this therapy for your child?	Never, Sometimes, Usually, Always
Transportation		
29.	In the last 6 months, when you asked for help with transportation related to the CSHCS condition, how often did you get it?	Never, Sometimes, Usually, Always
30.	In the last 6 months, how often did the help with transportation related to the CSHCS condition meet your needs?	Never, Sometimes, Usually, Always
Customer Service		
32.	In the last 6 months, how often did customer service at your child's health plan give you the information or help you needed?	Never, Sometimes, Usually, Always
33.	In the last 6 months, how often did customer service staff at your child's health plan treat you with courtesy and respect?	Never, Sometimes, Usually, Always

Question Language		Response Options
CSHCS Family Center		
50.	In the last 6 months, how often was it easy to get the help or information you needed from the CSHCS <u>Family Center</u> ?	Never, Sometimes, Usually, Always
54.	In the last 6 months, how often was it easy to get the help or information you needed when you called the CSHCS Family Phone Line?	Never, Sometimes, Usually, Always
Individual Item Measures		
Access to Prescription Medicines		
20.	In the last 6 months, how often was it easy to get prescription medicines for your child through his or her health plan?	Never, Sometimes, Usually, Always
CMDS Clinic		
38.	In the last 6 months, how often did you get an appointment as soon as your child needed in a CMDS Clinic?	Never, Sometimes, Usually, Always
Local Health Department Services		
47.	Please mark below to show how you felt about the service you received when you contacted your CSHCS office in the local health department in the last 6 months.	Extremely Dissatisfied, Somewhat Dissatisfied, Neither Satisfied Nor Dissatisfied, Somewhat Satisfied, Extremely Satisfied
Beneficiary Help Line		
56.	In the last 6 months, how often was it easy to get the help you needed when you called the Beneficiary Help Line?	Never, Sometimes, Usually, Always

How Results Were Collected

Sampling Procedures

MDHHS provided HSAG with a list of all eligible child members in the CSHCS Program for the sampling frame. HSAG inspected a sample of the file records to check for any apparent problems with the files, such as missing address elements. HSAG sampled child members who met the following criteria:

- Were 17 years of age or younger as of February 29, 2020.
- Were currently enrolled in a CSHCS plan/program.
- Had been continuously enrolled in the plan or program for at least five of the six months of the measurement period (i.e., September 1, 2019, through February 29, 2020).

A sample of 1,650 child members was selected from each reporting unit. No more than one member per household was selected as part of the survey samples. Some MHPs did not have 1,650 eligible child

members for inclusion in the CSHCS Survey; therefore, each member from the MHP's eligible population was included in the sample following deduplication. HSAG tried to obtain new addresses for members selected for the sample by processing sampled members' addresses through the United States Postal Service's National Change of Address (NCOA) system.

Survey Protocol

The survey administration protocol employed was a mail only methodology, except for the parents or caretakers of sampled child members that completed the survey in Spanish via Computer Assisted Telephone Interviewing (CATI). All sampled members received an English version of the survey, with the option of completing the survey in Spanish. The cover letter provided with the English version of the survey questionnaire included additional text informing parents or caretakers of sampled child members that they could call a toll-free number to request to complete the survey in Spanish via CATI. Non-respondents received a reminder postcard, followed by a second survey mailing and postcard reminder, and a third survey mailing.

Table 2-3 shows the timeline used for the survey administration.

Table 2-3—Survey Timeline

Task	Timeline
Send first questionnaire with cover letter to the parent or caretaker of child member.	0 days
Send a postcard reminder to non-respondents seven days after mailing the first questionnaire.	7 days
Send a second questionnaire (and letter) to non-respondents 28 days after mailing the first questionnaire.	28 days
Send a second postcard reminder to non-respondents seven days after mailing the second questionnaire.	35 days
Send a third questionnaire (and letter) to non-respondents 28 days after mailing the second questionnaire.	56 days
Survey field closes 28 days after mailing the third questionnaire.	84 days

How CSHCS Results Were Calculated and Displayed

HSAG developed a scoring approach, based in part on scoring standards devised by the Agency for Healthcare Research and Quality (AHRQ), the developers of CAHPS, to comprehensively assess the experience of parents or caregivers of child members. In addition to individual plan results, HSAG calculated scores for the MDHHS CSHCS Program, MDHHS CSHCS Managed Care Program, and MDHHS CSHCS FFS Program. Figure 2-1 depicts how results were combined to calculate each program average. This section provides an overview of each analysis.

Figure 2-1—CSHCS Programs

Who Responded to the Survey

The response rate was defined as the total number of completed surveys divided by all eligible child members of the sample. HSAG considered a survey completed if at least one question was answered. Eligible child members included the entire sample minus ineligible child members. Ineligible child members met at least one of the following criteria: they were deceased, were invalid (did not meet the eligible criteria), or had a language barrier other than Spanish (the CSHCS Survey was made available in both English and Spanish).

$$\text{Response Rate} = \frac{\text{Number of Completed Surveys}}{\text{Sample} - \text{Ineligibles}}$$

Demographics of Child Members and Respondents

The demographics analysis evaluated demographic information of child members and respondents based on parents' or caregivers' responses to the survey. The demographic characteristics of children included age, gender, race, ethnicity, and general health status. Self-reported parent or caregiver demographic information included age, gender, level of education, and relationship to the child. MDHHS should exercise caution when extrapolating the survey results to the entire population if the respondent population differs statistically significantly from the actual population of the plan/program.

Scoring Calculations

For purposes of the Statewide Comparisons analysis, HSAG calculated top-box scores for each measure, following National Committee for Quality Assurance (NCQA) HEDIS Specifications for Survey Measures.²⁻¹ The scoring involved assigning top-box responses a score of one, with all other responses receiving a score of zero. A "top-box" response was defined as follows:

- "9" or "10" for the global ratings;
- "Usually" or "Always" for the *Customer Service, How Well Doctors Communicate, Access to Specialized Services, Transportation, and CSHCS Family Center* composite measures;
- "Usually" or "Always" for the *Access to Prescription Medicines, CMDS Clinic, and Beneficiary Help Line* individual item measures;
- "Somewhat satisfied" or "Extremely satisfied" for the *Local Health Department Services* individual item measure.

Although NCQA requires a minimum of at least 100 responses on each item in order to obtain a reportable survey result, HSAG presented results with fewer than 100 responses. Therefore, caution

²⁻¹ National Committee for Quality Assurance. *HEDIS® 2020, Volume 3: Specifications for Survey Measures*. Washington, DC: NCQA; 2019.

should be exercised when evaluating measures' results with fewer than 100 responses, which are denoted with a cross (+). Additionally, a threshold of 11 responses was required for results to be reported; therefore, results based on fewer than 11 respondents were suppressed and are noted as "Not Applicable" in the figures.

Weighting

HSAG calculated a weighted rate for the MDHHS CSHCS Program, MDHHS CSHCS Managed Care Program, and MDHHS CSHCS FFS Program based on the total eligible population for each plan's/program's child population.

Statewide Comparisons

Managed Care Statewide Comparisons

The results of the MHPs, the CSHCS FFS Medicaid subgroup, and the MDHHS CSHCS FFS Program were compared to the MDHHS CSHCS Managed Care Program to determine if the results were statistically significantly different. Colors in the figures note statistically significant differences. Green indicates a top-box score that was statistically significantly above the MDHHS CSHCS Managed Care Program. Conversely, red indicates a top-box score that was statistically significantly below the MDHHS CSHCS Managed Care Program. Blue represents top-box scores that were not statistically significantly different from the MDHHS CSHCS Managed Care Program.

For the MHP comparisons, two types of hypothesis tests were applied to these results. First, a global F test was performed to determine whether the difference between the MHPs' results were statistically significant. If the F test demonstrated statistically significant differences (i.e., p value < 0.05), then a t test was performed for each MHP. The t test determined whether each MHP's results were statistically significantly different from the MDHHS CSHCS Managed Care Program.

A global F test was not performed in order to compare the CSHCS FFS Medicaid subgroup or the MDHHS CSHCS FFS Program to the MDHHS CSHCS Managed Care Program because only two populations were being compared. Instead, a t test was performed to determine if the CSHCS FFS Medicaid subgroup and the MDHHS CSHCS FFS Program were statistically significantly different from the MDHHS CSHCS Managed Care Program. This analytic approach follows AHRQ's recommended methodology for identifying statistically significant performance differences.

FFS Statewide Comparisons

The results of the CSHCS FFS Medicaid and CSHCS FFS non-Medicaid subgroups were compared to each other to determine if the results were statistically significantly different. Green indicates a population's top-box score that was statistically significantly above the other population's rate. Conversely, red indicates a population's top-box score that was statistically significantly below the other population's rate. Blue indicates that the top-box scores for the populations were not statistically significantly different from each other.

A *t* test was performed to determine whether the CSHCS FFS Medicaid subgroup's results were statistically significantly different from the CSHCS FFS non-Medicaid subgroup's results. A difference was considered statistically significant if the two-sided *p* value of the *t* test was less than 0.05. This analytic approach follows AHRQ's recommended methodology for identifying statistically significant performance differences.

Trend Analysis

HSAG compared the 2020 results to the corresponding 2018 and 2019 results to determine whether there were statistically significant differences. A *t* test was performed to determine whether results in 2020 were statistically significantly different from results in previous years. A difference was considered statistically significant if the two-sided *p* value of the *t* test was less than 0.05. The two-sided *p* value of the *t* test is the probability of observing a test statistic as extreme as or more extreme than the one actually observed.

Key Drivers of Member Experience Analysis

HSAG performed an analysis of key drivers of member experience for the following three global ratings: *Rating of Health Plan*, *Rating of Health Care*, and *Rating of Specialist Seen Most Often*. The purpose of the key drivers of member experience analysis is to help decision makers identify specific aspects of care that will most benefit from quality improvement (QI) activities.

Table 2-4 depicts the survey items (i.e., questions) that were analyzed for each measure in the key drivers of member experience analysis as indicated by a checkmark (✓), as well as each survey item's baseline response that was used in the statistical calculation.

Table 2-4—Correlation Matrix

Question Number	Rating of Health Plan	Rating of Health Care	Rating of Specialist Seen Most Often	Baseline Response
Q4. Seeing a Specialist	✓	✓	✓	Always
Q8. Child Got Care As Soon As Needed	✓	✓	✓	Always
Q11. Doctor Explained Things in Way They Could Understand	✓	✓	✓	Always
Q12. Doctor Listened Carefully	✓	✓	✓	Always
Q13. Doctor Showed Respect	✓	✓	✓	Always
Q14. Doctor Explained Things in a Way Their Child Could Understand	✓	✓	✓	Always
Q15. Doctor Spent Enough Time with Child	✓	✓	✓	Always

Question Number	Rating of Health Plan	Rating of Health Care	Rating of Specialist Seen Most Often	Baseline Response
Q17. Coordination of Care Among Providers or Services	✓	✓		Yes
Q20. Getting Prescription Medicine	✓	✓	✓	Always
Q23. Getting Special Medical Equipment	✓	✓	✓	Always
Q26. Getting Special Therapies	✓	✓	✓	Always
Q29. Help with Transportation Related to CSHCS Condition	✓	✓		Always
Q32. Getting Information or Help Needed from Customer Service	✓	✓		Always
Q33. Health Plan Customer Service Treated with Courtesy and Respect	✓	✓		Always
Q35. Forms from Health Plan Easy to Fill Out	✓	✓		Always
Q38. Receiving Appointment in a CMDS Clinic as Soon as Needed	✓	✓	✓	Always

HSAG measured each global rating's performance by assigning the responses into a three-point scale as follows:

- 0 to 6 = 1 (Dissatisfied)
- 7 to 8 = 2 (Neutral)
- 9 to 10 = 3 (Satisfied)

For each item evaluated, HSAG assigned 2 to each item's baseline response and 1 to the item's other responses. HSAG calculated the relationship between the item's response and performance on each of the three measures using a polychoric correlation, which is used to estimate the correlation between two theorized normally distributed continuous latent variables, from two observed ordinal variables. HSAG then prioritized items based on their correlation to each measure.

The correlation can range from -1 to 1, with negative values indicating an inverse relationship between overall member experience and a particular survey item. However, the correlation analysis conducted is not focused on the direction of the correlation, but rather on the degree of correlation. Therefore, the absolute value of correlation is used in the analysis, and the range is 0 to 1. A zero indicates no relationship between the response to a question and the member's experience. As the value of correlation increases, the importance of the question to the respondent's overall experience increases.

After prioritizing items based on their correlation to each measure, HSAG estimated the odds ratio, which is used to quantify respondents' tendency to choose a lower rating over a higher rating based on their responses to the evaluated items. The odds ratio can range from 0 to infinity. Key drivers are those

items for which the odds ratio is statistically significantly greater than 1. If a response to an item has an odds ratio value that is statistically significantly greater than 1, then a respondent who provides a response other than the baseline (i.e., “Always” or “Yes”) is more likely to provide a lower rating on the measure than respondents who provide the baseline response. As the odds ratio value increases, the tendency for a respondent who provided a non-baseline response to choose a lower rating increases.

In the example table below, the results indicate that respondents who answered “Never,” “Sometimes,” or “Usually” to question 9 are 3.6 more likely to provide a lower rating for their child’s health plan than respondents who answered “Always.” Respondents who answered “Never,” “Sometimes,” or “Usually” to question 35 are 2.6 times more likely to provide a Dissatisfied (1) rating and 3.6 times more likely to provide a Dissatisfied (1) or Neutral (2) rating for their child’s health plan than respondents who answered “Always.”

Key Drivers	Odds Ratio Estimates
	Rating of Health Plan
Q9. In the last 6 months, not counting the times your child went to an emergency room, how many times did he or she go to a doctor’s office or clinic to get health care?	3.6
Q35. In the last 6 months, how often were the forms from your child’s health plan easy to fill out?	2.6 (1) 3.6 (1 or 2)

Limitations and Cautions

The findings presented in this CSHCS report are subject to some limitations in the survey design, analysis, and interpretation. MDHHS should consider these limitations when interpreting or generalizing the findings.

Case-Mix Adjustment

The demographics of a response group may impact member experience; therefore, differences in the demographics of the response group may impact CSHCS Survey results. NCQA does not recommend case-mix adjusting Medicaid CAHPS results to account for these differences; therefore, no case-mix adjusting was performed on these results.²⁻²

²⁻² Agency for Healthcare Research and Quality. *CAHPS Health Plan Survey and Reporting Kit 2008*. Rockville, MD: US Department of Health and Human Services; 2008.

Non-Response Bias

The experiences of the survey respondent population may be different than that of non-respondents with respect to their health care services and may vary by plan or program. Therefore, MDHHS should consider the potential for non-response bias when interpreting CSHCS Survey results.

Causal Inferences

Although this report examines whether respondents report differences in experience with various aspects of their child's health care experiences, these differences may not be completely attributable to an MHP or the FFS program. The survey by itself does not necessarily reveal the exact cause of these differences.

National Data for Comparisons

While comparisons to national data were performed for some of the survey measures, it is important to keep in mind that differences may exist between the CSHCS population and the CCC Medicaid population; therefore, caution should be exercised when interpreting the comparisons to NCQA national data.

CSHCS Survey Instrument

For purposes of the 2020 CSHCS Survey administration, the standardized CAHPS 5.0 Child Medicaid Health Plan Survey with the HEDIS supplemental item set and CCC measurement set was modified, such that additional questions specific to the CSHCS program were added and standard CAHPS survey question language was changed. Given the modifications to the standardized CAHPS survey, caution should be exercised when interpreting the results presented in this report.

COVID-19 Impact

Due to guidelines outlined by President Trump's declaration of a national emergency in March 2020 in response to the coronavirus (COVID-19) outbreak in the United States, the survey administration protocol was updated from a mixed-mode methodology (i.e., mail followed by telephone follow-up [CATI]) to a mail-only methodology with a third questionnaire and cover letter being mailed to non-respondents. In addition, members' perceptions of and experiences with the health care system may have been impacted due to the COVID-19 pandemic. Therefore, caution should be exercised when evaluating the results as the number of completed surveys and experience of members may have been impacted.

3. Results

Who Responded to the Survey

Table 3-1 shows the total number of child members sampled, the number of surveys completed, the number of ineligible child members, and the response rates. Aetna Better Health of Michigan, Total Health Care, Inc., and Upper Peninsula Health Plan did not meet the minimum required sample size of 1,650; therefore, each member from the MHPs' eligible populations were included in the sample following deduplication. One health plan, HAP Empowered, was not included due to minimal CSHCS enrollment.

Table 3-1—Distribution of Surveys and Response Rates

	Sample Size	Completes	Ineligibles	Response Rates
MDHHS CSHCS Program	14,003	3,303	69	23.70%
MDHHS CSHCS FFS Program	3,300	1,135	24	34.65%
FFS Medicaid Subgroup	1,650	485	9	29.56%
FFS Non-Medicaid Subgroup	1,650	650	15	39.76%
MDHHS CSHCS Managed Care Program	10,703	2,168	45	20.34%

Please note, percentages may not total 100% due to rounding.		
*The “Other Relative” category includes responses of aunt or uncle, older brother or sister, other relative, and someone else.		

Managed Care Statewide Comparisons

For purposes of the Managed Care Statewide Comparisons, HSAG calculated top-box scores for each measure. The MDHHS CSHCS Program, MDHHS CSHCS Managed Care Program, and MDHHS CSHCS FFS Program results were weighted based on the eligible population for each child population (i.e., CSHCS FFS Medicaid subgroup, CSHCS FFS non-Medicaid subgroup, and MHPs). For additional information on the calculation of top-box scores and weighting, please refer to the Reader’s Guide beginning on page 2-6. For additional information on the survey language and response options for the measures, please refer to the Reader’s Guide beginning on page 2-1.

Managed Care Comparisons

HSAG compared the MHP, FFS Medicaid subgroup, and MDHHS CSHCS FFS Program results to the MDHHS CSHCS Managed Care Program to determine if the results were statistically significantly different.³⁻¹ Colors in the figures note statistically significant differences. The NCQA Medicaid national averages for the CCC population are presented for comparison, where appropriate.^{3-2,3-3} Populations with fewer than 100 respondents are denoted with a cross (+). Caution should be used when evaluating rates derived from fewer than 100 respondents.

In some instances, the top-box scores presented for two populations were similar, but one was statistically different from the MDHHS CSHCS Managed Care Program and the other was not. In these instances, it was the difference in the number of respondents between the two populations that explains the different statistical results. It is more likely that a statistically significant result will be found in a population with a larger number of respondents. In addition, HSAG did not present top-box scores for

³⁻¹ The MDHHS CSHCS Managed Care Program is displayed as “MDHHS CSHCS MC Program” in the legend under the figures.

³⁻² The source for data contained in this publication is Quality Compass® 2019 and is used with the permission of the National Committee for Quality Assurance (NCQA). Quality Compass 2019 includes certain CAHPS data. Any data display, analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such display, analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA. CAHPS® is a registered trademark of the AHRQ.

³⁻³ NCQA national averages for the child with CCC Medicaid population are presented for comparative purposes. Given the potential differences in demographic make-up of the CSHCS and child Medicaid with CCC populations, caution should be exercised when interpreting the comparisons to NCQA national averages.

measures with fewer than 11 responses for an MHP, which are indicated as “Not Applicable” in the following figures.

Global Ratings

Rating of Health Plan

Figure 3-1 shows the *Rating of Health Plan* top-box scores.

Figure 3-1—Rating of Health Plan Top-Box Scores

Rating of Health Care

Figure 3-2 shows the *Rating of Health Care* top-box scores.

Figure 3-2—Rating of Health Care Top-Box Scores³⁻⁴

³⁻⁴ Language for the *Rating of Health Care* global rating question in the CSHCS Survey was modified from the standard question in the CAHPS 5.0 Child Medicaid Health Plan Survey. Given that the results are not comparable to the NCQA national average, the 2019 NCQA national average is not displayed.

Rating of Specialist Seen Most Often

Figure 3-3 shows the *Rating of Specialist Seen Most Often* top-box scores.

Figure 3-3—Rating of Specialist Seen Most Often Top-Box Scores

+ Indicates fewer than 100 responses. Caution should be exercised when evaluating these results.

Rating of CMDS Clinic

Figure 3-4 shows the *Rating of CMDS Clinic* top-box scores.

³⁻⁵ The *Rating of CMDS Clinic* global rating question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Rating of Beneficiary Help Line

Figure 3-5 shows the *Rating of Beneficiary Help Line* top-box scores.

Figure 3-5—Rating of Beneficiary Help Line Top-Box Scores³⁻⁶

³⁻⁶ The *Rating of Beneficiary Help Line* global rating question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Composite Measures

Customer Service

Figure 3-6 shows the *Customer Service* top-box scores.

Figure 3-6—Customer Service Top-Box Scores

⁺ Indicates fewer than 100 responses. Caution should be exercised when evaluating these results.
Results based on fewer than 11 respondents were suppressed and noted as "Not Applicable".

How Well Doctors Communicate

Figure 3-7 shows the *How Well Doctors Communicate* top-box scores.

Figure 3-7—How Well Doctors Communicate Top-Box Scores³⁻⁷

³⁻⁷ The survey questions that comprise the *How Well Doctors Communicate* composite measure in the CAHPS 5.0 Child Medicaid Health Plan Survey were modified for inclusion in the CSHCS Survey. Given that the results are not comparable to the NCQA national average, the 2019 NCQA national average is not displayed.

Access to Specialized Services

Figure 3-8 shows the *Access to Specialized Services* top-box scores.

Figure 3-8—Access to Specialized Services Top-Box Scores³⁻⁸

³⁻⁸ The survey questions that comprise the *Access to Specialized Services* composite measure in the CSHCS Survey differed from the CAHPS 5.0 Child Medicaid Health Plan Survey (i.e., one question was removed from the composite). Given that the results are not comparable to the NCQA national average, the 2019 NCQA national average is not displayed.

Transportation

Figure 3-9 shows the *Transportation* top-box scores.

Figure 3-9— Transportation Top-Box Scores³⁻⁹

³⁻⁹ The *Transportation* composite measure survey questions are not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and are specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

CSHCS Family Center

Figure 3-10 shows the *CSHCS Family Center* top-box scores.

Figure 3-10—CSHCS Family Center Top-Box Scores³⁻¹⁰

³⁻¹⁰ The *CSHCS Family Center* composite measure survey questions are not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and are specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Individual Item Measures

Access to Prescription Medicines

Figure 3-11 shows the *Access to Prescription Medicines* top-box scores.

Figure 3-11—Access to Prescription Medicines Top-Box Scores

CMD5 Clinic

Figure 3-12 shows the *CMD5 Clinic* top-box scores.

Figure 3-12—CMD5 Clinic Top-Box Scores³⁻¹¹

³⁻¹¹ The *CMD5 Clinic* individual item measure survey question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Local Health Department Services

Figure 3-13 shows the *Local Health Department Services* top-box scores.

Figure 3-13—Local Health Department Services Top-Box Scores³⁻¹²

³⁻¹² The *Local Health Department Services* individual item measure survey question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Beneficiary Help Line

Figure 3-14 shows the *Beneficiary Help Line* top-box scores.

Figure 3-14— Beneficiary Help Line Top-Box Scores³⁻¹³

³⁻¹³ The *Beneficiary Help Line* individual item measure survey question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

FFS Statewide Comparisons

For purposes of the FFS Statewide Comparisons analysis, HSAG calculated top-box scores for each measure. The MDHHS CSHCS FFS Program results were weighted based on the eligible population for each child population (i.e., CSHCS FFS Medicaid subgroup and CSHCS FFS non-Medicaid subgroup). The weighted MDHHS CSHCS Program and MDHHS CSHCS Managed Care Program results are displayed in the figures for reference only and were not compared to the MDHHS CSHCS FFS Program. For additional information on the calculation of top-box scores and weighting, please refer to the Reader's Guide beginning on page 2-6. For additional information on the survey language and response options for the measures, please refer to the Reader's Guide beginning on page 2-1.

FFS Comparisons

HSAG compared the CSHCS FFS Medicaid subgroup and FFS non-Medicaid subgroup results to each other to determine if the results were statistically significantly different. Colors in the figures note statistically significant differences. The NCQA Medicaid national averages for the CCC population are presented for comparison, where appropriate.^{3-14,3-15} Results based on fewer than 100 respondents are denoted with a cross (+). Caution should be used when evaluating rates derived from fewer than 100 respondents.

³⁻¹⁵ NCQA national averages for the child with CCC Medicaid population are presented for comparative purposes. Given the potential differences in demographic make-up of the CSHCS and child Medicaid with CCC populations, caution should be exercised when interpreting the comparisons to NCQA national averages.

Global Ratings

Rating of Health Plan

Figure 3-15 shows the *Rating of Health Plan* top-box scores.

Figure 3-15—Rating of Health Plan Top-Box Scores

Rating of Health Care

Figure 3-16 shows the *Rating of Health Care* top-box scores.

Figure 3-16—Rating of Health Care Top-Box Scores³⁻¹⁶

Rating of Specialist Seen Most Often

Figure 3-17 shows the *Rating of Specialist Seen Most Often* top-box scores.

Figure 3-17—Rating of Specialist Seen Most Often Top-Box Scores

³⁻¹⁶ Language for the *Rating of Health Care* global rating question in the CSHCS Survey was modified from the standard question in the CAHPS 5.0 Child Medicaid Health Plan Survey. Given that the results are not comparable to the NCQA national average, the NCQA national average is not displayed.

Rating of CMDS Clinic

Figure 3-18 shows the *Rating of CMDS Clinic* top-box scores.

Rating of Beneficiary Help Line

Figure 3-19 shows the *Rating of Beneficiary Help Line* top-box scores.

³⁻¹⁷ The *Rating of CMDS Clinic* global rating question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

³⁻¹⁸ The *Rating of Beneficiary Help Line* global rating question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Composite Measures

Customer Service

Figure 3-20 shows the *Customer Service* top-box scores.

Figure 3-20—Customer Service Top-Box Scores

How Well Doctors Communicate

Figure 3-21 shows the *How Well Doctors Communicate* top-box scores.

Figure 3-21—How Well Doctors Communicate Top-Box Scores³⁻¹⁹

³⁻¹⁹ The survey questions that comprise the *How Well Doctors Communicate* composite measure in the CAHPS 5.0 Child Medicaid Health Plan Survey were modified for inclusion in the CSHCS Survey. Given that the results are not comparable to the NCQA national average, the 2019 NCQA national average is not displayed.

Access to Specialized Services

Figure 3-22 shows the *Access to Specialized Services* top-box scores.

Figure 3-22—Access to Specialized Services Top-Box Scores³⁻²⁰

Transportation

Figure 3-23 shows the *Transportation* top-box scores.

Figure 3-23—Transportation Top-Box Scores³⁻²¹

³⁻²⁰ The survey questions that comprise the *Access to Specialized Services* composite measure in the CSHCS Survey differed from the CAHPS 5.0 Child Medicaid Health Plan Survey (i.e., one question was removed from the composite). Given that the results are not comparable to the NCQA national average, the 2019 NCQA national average is not displayed.

³⁻²¹ The *Transportation* composite measure survey questions are not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and are specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

CSHCS Family Center

Figure 3-24 shows the *CSHCS Family Center* top-box scores.

Figure 3-24—CSHCS Family Center Top-Box Scores³⁻²²

³⁻²² The *CSHCS Family Center* composite measure survey questions are not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and are specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Individual Item Measures

Access to Prescription Medicines

Figure 3-25 shows the *Access to Prescription Medicines* top-box scores.

Figure 3-25—Access to Prescription Medicines Top-Box Scores

CMDS Clinic

Figure 3-26 shows the *CMDS Clinic* top-box scores.

Figure 3-26—CMDS Clinic Top-Box Scores³⁻²³

³⁻²³ The *CMDS Clinic* individual item measure survey question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Local Health Department Services

Figure 3-27 shows the *Local Health Department Services* top-box scores.

Figure 3-27—Local Health Department Services Top-Box Scores³⁻²⁴

³⁻²⁴ The *Local Health Department Services* individual item measure survey question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

Beneficiary Help Line

Figure 3-28 shows the *Beneficiary Help Line* top-box scores.

Figure 3-28— Beneficiary Help Line Top-Box Scores³⁻²⁵

³⁻²⁵ The *Beneficiary Help Line* individual item measure survey question is not included in the standard CAHPS 5.0 Child Medicaid Health Plan Survey and is specific to the CSHCS Survey. Therefore, a 2019 NCQA national average is not available for this measure.

4. Trend Analysis

The 2020 scores were compared to the 2018 and 2019 scores to determine whether there were statistically significant differences. Statistically significant differences between 2020 scores and previous years' scores are noted with triangles. Statistical significance is impacted by the size of the respondent population; therefore, while there might be differences that are important, they are not statistically significant due to small denominators. Measures with fewer than 100 responses are denoted with a cross (+). Caution should be used when evaluating rates derived from fewer than 100 respondents. HSAG did not present results for measures with fewer than 11 responses, which are indicated as "Not Applicable (NA)" within the tables. HSAG did not present results for measures that were not trendable, which are indicated as "Not Trendable (NT)" within the tables.

Global Ratings

Rating of Health Plan

Table 4-1 shows the 2018, 2019, and 2020 top-box scores and trend results for *Rating of Health Plan*.

Table 4-1—Rating of Health Plan Trend Analysis

	2018	2019	2020	Trend Results (2020-2018)	Trend Results (2020-2019)
MDHHS CSHCS Program	65.1%	65.4%	68.5%	▲	▲

5. Key Drivers of Member Experience Analysis

HSAG performed an analysis of key drivers of member experience for the following measures: *Rating of Health Plan*, *Rating of Health Care*, and *Rating of Specialist Seen Most Often*.

Key drivers of member experience are defined as those items for which the odds ratio is statistically significantly greater than 1. For additional information on the assignment of problem scores, please refer to the Reader's Guide section on page 2-8. Table 5-1 depicts those items identified as being key drivers of member experience for the MDHHS CSHCS Program.

Table 5-1—MDHHS CSHCS Program Key Drivers of Member Experience

Key Drivers	Odds Ratio Estimates		
	<i>Rating of Health Plan</i>	<i>Rating of Health Care</i>	<i>Rating of Specialist Seen Most Often</i>
Q4. In the last 6 months, how often did you get an appointment for your child to see a specialist as soon as you needed?	NS	3.2 (1) 2.7 (1 or 2)	2.5
Q11. In the last 6 months, how often did your child's doctor or other health providers explain things about your child's health in a way that was easy to understand?	NS	1.8	1.9
Q12. In the last 6 months, how often did your child's doctors or other health providers listen carefully to you?	NS	2.4	1.9
Q13. In the last 6 months, how often did your child's doctors or other health providers show respect for what you had to say?	2.0	NS	NS
Q15. In the last 6 months, how often did doctors or other health providers spend enough time with your child?	NS	3.5	1.9
Q20. In the last 6 months, how often was it easy to get prescription medicines for your child through his or her health plan?	2.7	NS	NS
Q23. In the last 6 months, how often was it easy to get special medical equipment or devices for your child?	2.0	NS	NS
Q29. In the last 6 months, when you asked for help with transportation related to the CSHCS condition, how often did you get it?	3.5	NS	NA
Q32. In the last 6 months, how often did customer service at your child's health plan give you the information or help you needed?	3.2	NS	NA
Q33. In the last 6 months, how often did customer service staff at your child's health plan treat you with courtesy and respect?	3.5	3.6 (1 or 2)	NA
Q35. In the last 6 months, how often were the forms from your child's health plan easy to fill out?	2.6 (1) 3.6 (1 or 2)	NS	NA
Q38. In the last 6 months, how often did you get an appointment as soon as your child needed in a CMDs Clinic?	2.3 (1 or 2)	2.7 (1 or 2)	1.9

Key Drivers	Odds Ratio Estimates		
	Rating of Health Plan	Rating of Health Care	Rating of Specialist Seen Most Often
NA indicates that this question was not evaluated for this measure. NS indicates that the calculated odds ratio estimate is not statistically significantly higher than 1.0; therefore, respondents' answers for those responses does not significantly affect their rating.			

6. Survey Instrument

Survey Instrument

The survey instrument selected was a modified version of the CAHPS 5.0 Child Medicaid Health Plan Survey with the HEDIS supplemental item set and CCC measurement set. This section provides a copy of the survey instrument administered. The first question in the survey asked the parent or caregiver to confirm their child's enrollment. For sampled members in an MHP, the MHP name was included in the first survey question. For sampled members in the FFS Medicaid subgroup, the parent or caregiver was asked if their child was enrolled in Children's Special Health Care Services and Michigan Medicaid. For sampled members in the FFS non-Medicaid subgroup, the parent or caregiver was asked if their child was enrolled in Children's Special Health Care Services.

All information that would let someone identify you or your family will be kept private. The research staff will not share your personal information with anyone without your OK. You may choose to answer this survey or not. If you choose not to, this will not affect the benefits you get.

You may notice a barcode number on the front of this survey. This number is **ONLY** used to let us know if you returned your survey so we don't have to send you reminders.

If you want to know more about this study, please call 1-877-455-7158.

SURVEY INSTRUCTIONS

- Please be sure to fill the response circle completely. Use only black or blue ink or dark pencil to complete the survey.

Correct
Mark 

Incorrect
Marks

- You are sometimes told to skip over some questions in the survey. When this happens you will see an arrow with a note that tells you what question to answer next, like this:

- ☒ Yes ➔ *Go to Question 1*
- ☐ No

↓ START HERE ↓

Please answer the questions for the child listed on the envelope. Please do not answer for any other children.

1. Our records show that your child is now in [STATE MEDICAID PROGRAM/HEALTH PLAN NAME]. Is that right?

- ☐ Yes ➔ *Go to Question 3*
- ☐ No

2. What is the name of your child's health plan? (Please print)

HEALTH CARE FROM A SPECIALIST

These questions ask about your child's health care. Do not include care your child got when he or she stayed overnight in a hospital. Do not include the times your child went for dental care visits.

3. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and other doctors who specialize in one area of health care. In the last 6 months, did you make any appointments for your child to see a specialist?

☐ Yes
☐ No → **Go to Question 7**

4. In the last 6 months, how often did you get an appointment for your child to see a specialist as soon as you needed?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

5. How many specialists has your child seen in the last 6 months?

☐ None → **Go to Question 7**
☐ 1 specialist
☐ 2
☐ 3
☐ 4
☐ 5 or more specialists

6. We want to know your rating of the specialist your child saw most often in the last 6 months. Using any number from 0 to 10, where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate that specialist?

☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
0	1	2	3	4	5	6	7	8	9	10
Worst								Best		
Specialist								Specialist		
Possible								Possible		

HEALTH CARE FOR CSHCS CONDITION

7. In the last 6 months, did your child have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor's office?

☐ Yes
☐ No → **Go to Question 16**

8. In the last 6 months, when your child needed care right away, how often did your child get care as soon as he or she needed?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

9. In the last 6 months, not counting the times your child went to an emergency room, how many times did he or she go to a doctor's office or clinic to get health care?

☐ None → **Go to Question 16**
☐ 1 time
☐ 2
☐ 3
☐ 4
☐ 5 to 9
☐ 10 or more times

10. In the last 6 months, how often did you have your questions answered by your child's doctors or other health providers?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

11. In the last 6 months, how often did your child's doctor or other health providers explain things about your child's health in a way that was easy to understand?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

12. In the last 6 months, how often did your child's doctors or other health providers listen carefully to you?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

13. In the last 6 months, how often did your child's doctors or other health providers show respect for what you had to say?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

14. In the last 6 months, how often did your child's doctors or other health providers explain things in a way that was easy for your child to understand?

☐ Never
☐ Sometimes
☐ Usually
☐ Always
☐ My child is not able to understand or speak with his or her doctor

15. In the last 6 months, how often did doctors or other health providers spend enough time with your child?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

16. In the last 6 months, did your child get care from more than one kind of health provider or use more than one kind of health care service?

☐ Yes
☐ No → Go to Question 18

17. In the last 6 months, did anyone from your child's health plan, doctor's office, or clinic help coordinate your child's care among these different providers or services?

☐ Yes
☐ No

18. We want to know your rating of health care for your child's CSHCS condition in the last 6 months from all doctors and other health providers. Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your child's health care in the last 6 months?

☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
0	1	2	3	4	5	6	7	8	9	10
Worst					Best					
Health Care					Health Care					
Possible					Possible					

PRESCRIPTIONS

The next questions are about prescription medicine your child needed for the CSHCS condition.

19. In the last 6 months, did you get or refill any prescription medicines for your child?

☐ Yes
☐ No → Go to Question 22

20. In the last 6 months, how often was it easy to get prescription medicines for your child through his or her health plan?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

21. Did anyone from your child's health plan, doctor's office, or clinic help you get your child's prescription medicines?

☐ Yes
☐ No

SUPPLIES AND EQUIPMENT

22. Special medical equipment or devices include a walker, wheelchair, nebulizer, feeding tubes, or oxygen equipment. In the last 6 months, did you get or try to get any special medical equipment or devices for your child?

☐ Yes
☐ No → Go to Question 25

23. In the last 6 months, how often was it easy to get special medical equipment or devices for your child?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

24. Did anyone from your child's health plan, doctor's office, or clinic help you get the special medical equipment or devices for your child?

- ☐ Yes
- ☐ No

SPECIAL THERAPIES

25. In the last 6 months, did you get or try to get special therapy such as physical, occupational, or speech therapy for your child?

- ☐ Yes
- ☐ No → Go to Question 28

26. In the last 6 months, how often was it easy to get this therapy for your child?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

27. Did anyone from your child's health plan, doctor's office, or clinic help you get this therapy for your child?

- ☐ Yes
- ☐ No

TRANSPORTATION

28. In the last 6 months, did you ask for help with transportation related to the CSHCS condition for your child?

- ☐ Yes
- ☐ No → Go to Question 31

29. In the last 6 months, when you asked for help with transportation related to the CSHCS condition, how often did you get it?

- ☐ Never → Go to Question 31
- ☐ Sometimes
- ☐ Usually
- ☐ Always

30. In the last 6 months, how often did the help with transportation related to the CSHCS condition meet your needs?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

YOUR CHILD'S HEALTH PLAN

The next questions ask about your experience with your child's health plan. If your child is not in a Medicaid health plan, please answer these questions with regard to your child's Medicaid and/or CSHCS program experience.

31. In the last 6 months, did you get information or help from customer service at your child's health plan?

- ☐ Yes
- ☐ No → Go to Question 34

32. In the last 6 months, how often did customer service at your child's health plan give you the information or help you needed?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

33. In the last 6 months, how often did customer service staff at your child's health plan treat you with courtesy and respect?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

34. In the last 6 months, did your child's health plan give you any forms to fill out?

- ☐ Yes
- ☐ No → Go to Question 36

35. In the last 6 months, how often were the forms from your child's health plan easy to fill out?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

36. Using any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your child's health plan?

- | | | | | | | | | | | |
|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|

CHILDREN'S MULTIDISCIPLINARY SPECIALTY (CMDS) CLINICS

The following questions are about services delivered in Children's Multidisciplinary Specialty (CMDS) clinics. CMDS clinics include a variety of physician specialties and other health professionals who meet with CSHCS clients to evaluate the child, and develop a comprehensive care plan. CMDS clinics are located in large pediatric hospitals.

37. Is your child being followed now, or has he or she had an appointment in the last 6 months, in a Children's Multidisciplinary Specialty (CMDS) Clinic?

- ☐ Yes
- ☐ No → Go to Question 44
- ☐ I don't know → Go to Question 44

38. In the last 6 months, how often did you get an appointment as soon as your child needed in a CMDS Clinic?

- ☐ Never
- ☐ Sometimes
- ☐ Usually
- ☐ Always

39. Did anyone from your child's health plan, doctor's office, or clinic help you get an appointment in a CMDS Clinic for your child?

- ☐ Yes
- ☐ No

40. What is the diagnosis category that best describes the condition that is the main reason your child goes to a CMDS Clinic? (Please select only one.)

- ☐ Blood diseases, sickle cell disease, cancers, AIDS, hemophilia
- ☐ Amputation, limb loss, muscular dystrophy
- ☐ Neurology conditions, seizures
- ☐ Kidney or urinary disease
- ☐ Apnea, pulmonary (lung) and breathing difficulty conditions, cystic fibrosis, asthma
- ☐ Heart conditions
- ☐ Diabetes or endocrine disorders
- ☐ Spina Bifida
- ☐ Genetic and metabolic disease
- ☐ Stomach conditions
- ☐ Cleft Palate
- ☐ Other
- ☐ I don't know

41. Did your CMDS Clinic develop a plan of care for your child?

- ☐ Yes
- ☐ No
- ☐ I don't know

42. In the last 6 months, did anyone from your child's CMDS Clinic help coordinate your child's care?

- ☐ Yes
- ☐ No
- ☐ I don't know

43. We want to know your rating for the services that your child received in a CMDS Clinic in the last 6 months. Using any number from 0 to 10, where 0 is not useful at all and 10 is the most useful in helping your child, what number would you use to rate that CMDS clinic?

- | | | | | | | | | | | |
|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| Not useful at | | | | | Most useful | | | | | |
| all in helping | | | | | in helping | | | | | |
| my child | | | | | my child | | | | | |

LOCAL HEALTH DEPARTMENT SERVICES

The next section is about services your child receives at the Children's Special Health Care Services office in your local health department.

44. In the last 6 months, have you had any contact, either by phone, mail, or in person, with the CSHCS office at your local or county health department?

☐ Yes
☐ No → **Go to Question 48**
☐ I don't know → **Go to Question 48**

45. In the last 6 months, how many times have you had contact, either by phone, mail, or in person, with the CSHCS office in your local health department?

☐ 1 time
☐ 2 times
☐ 3 times
☐ 4 or more times

46. From the list below, please mark all of the topics that have been covered in your contacts by phone, mail, or in person with the CSHCS office in the local health department in the last 6 months. Mark one or more.

☐ Adding or changing providers
☐ Arranging for a diagnostic evaluation
☐ Assistance to identify other community resources
☐ Financial review
☐ Application to join CSHCS
☐ Transportation assistance
☐ Care Coordination/Plan of Care
☐ Insurance or COBRA questions
☐ Children with Special Needs Fund
☐ Questions about Medicaid
☐ Assistance as child becomes an adult
☐ Other

47. Please mark below to show how you felt about the service you received when you contacted your CSHCS office in the local health department in the last 6 months.

☐ Extremely dissatisfied
☐ Somewhat dissatisfied
☐ Neither satisfied nor dissatisfied
☐ Somewhat satisfied
☐ Extremely satisfied

FAMILY CENTER

48. Have you received any information about the CSHCS Family Center in the last 6 months?

☐ Yes
☐ No
☐ I don't know

- 48a. Would you like more information about the CSHCS Family Center?

☐ Yes
☐ No

49. In the last 6 months, have you utilized any services provided by the CSHCS Family Center?

☐ Yes
☐ No → **Go to Question 51**

50. In the last 6 months, how often was it easy to get the help or information you needed from the CSHCS Family Center?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

51. Did you know that there is a Parent-to-Parent Support Network available to support families of children with special needs?

☐ Yes
☐ No

- 51a. Would you like more information about a Parent-to-Parent Support Network that supports families of children with special needs?

☐ Yes
☐ No

52. Are you aware of the toll free CSHCS Family Phone Line (1-800-359-3722)?

☐ Yes
☐ No

- 52a. Would you like more information about the toll free CSHCS Family Phone Line?

☐ Yes
☐ No

If you answered "No" at Question 52, then go to Question 55.

53. In the last 6 months, did you call the toll free CSHCS Family Phone Line to get information or help for your child?

☐ Yes
☐ No → Go to Question 55

54. In the last 6 months, how often was it easy to get the help or information you needed when you called the CSHCS Family Phone Line?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

BENEFICIARY HELP LINE

55. In the last 6 months, did you call the Beneficiary Help Line (1-800-642-3195) to get information or help for your child?

☐ Yes
☐ No → Go to Question 57

56. In the last 6 months, how often was it easy to get the help you needed when you called the Beneficiary Help Line?

☐ Never
☐ Sometimes
☐ Usually
☐ Always

57. In the last 6 months, have you called the Beneficiary Help Line with a complaint or problem?

☐ Yes
☐ No → Go to Question 60

58. How long did it take the Beneficiary Help Line to resolve your complaint?

☐ Same day
☐ 2-7 days
☐ 8-14 days
☐ 15-21 days
☐ More than 21 days
☐ I am still waiting for it to be settled → Go to Question 60

59. Was your complaint or problem settled to your satisfaction?

☐ Yes
☐ No

If Question 55 and Question 57 were both answered "No", please skip Question 60 and go to Question 61.

60. We want to know your rating of all your experience with the Beneficiary Help Line. Using any number from 0 to 10, where 0 is the worst experience possible and 10 is the best experience possible, what number would you use to rate the Beneficiary Help Line in the last 6 months?

☐ 0 ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐ 7 ☐ 8 ☐ 9 ☐ 10
Worst Experience Possible Best Experience Possible

ABOUT YOUR CHILD AND YOU

61. In general, how would you rate your child's overall health?

☐ Excellent
☐ Very Good
☐ Good
☐ Fair
☐ Poor
