Dear Colleagues,

The Michigan Leadership Education in Neurodevelopmental and Related Disabilities (MI-LEND) is collaborating with the Family Center for Children and Youth with Special Health Care Needs (Family Center) to help train MI-LEND trainees to improve their ability to understand the unique needs of families who have children with disabilities.

The MI-LEND Family Visiting Program pairs trainees with families of children with disabilities. By sharing your family's knowledge and expertise with MI-LEND trainees you can help prepare the professionals and physicians of tomorrow. In addition, MI-LEND trainees can work with you to create a Care Map which can help in figuring out what resources may be available to help support your family. For more information, please see the attached flyer.

We are currently seeking 8 families across Michigan who will meet virtually with trainees for three visits beginning in late January or February. A stipend for your time will be provided after the 3 visits have been completed.

Please see attached flyer for more info.
