

myHealthButton & myHealthPortal

Help Your Clients Connect With Their Health Benefits

The myHealthButton & myHealthPortal applications provide tools that will put health care benefits and services directly into the hands of members enrolled in Michigan Medicaid, Healthy Michigan Plan, MICHild, or Children's Special Health Care Services (CSHCS). Through these applications they can instantly access their health and insurance information.

We are employing a 'train the trainer' approach with service providers for eligible consumers to demonstrate how and why they can help their clients complete registration and use the apps.

Continuing Education Credits Available for:

Social workers

Nurses

Community Health Workers

Certificate of Attendance

myHealthButton & myHealthPortal Can Help Consumers:

- ✓ View and order a new mihealth card
- ✓ Fill out their Health Risk Assessment (HRA)
- ✓ View CSHCS Information like Qualifying Diagnoses and Authorized Providers
- ✓ View CSHCS Payment Agreement Notification and Online Payments
- ✓ Find a Doctor in their Care Network
- ✓ View their Michigan immunization record (MCIR)
- ✓ Track Healthy Behaviors and more!

Who benefits from this training?
