Reviewer:

Emergency Department

↓ Notes ↓

Equipment	Yes	No	Adult* Child Infant
Airway control & ventilation equipment			
Supplies for surgical airway			
Pulse oximetry			
Suction devices			
Waveform capnography			
Cardiac Monitor/defibrillator/pacer			
Standard IV fluids and administration sets			
IV fluid infusion pumps			
Large bore IV catheters			
IO sets			
Rapid infuser system (blood-fluid warmer used to administer blood, medications, and other fluids in trauma treatment situation)			
Thermal control for patients & fluids/blood (when a rapid infuser is not available)			
Massive transfusion protocol			
Drugs accessible for emergency care			
Supplies for thoracostomy			
Central line			
Nasal & oral gastric tubes			
Splints/pelvic wrap/tourniquets			
Pediatric length-based resuscitation tape			
Hazmat equipment (per Joint Commission requirement)			
EMS Compliant Communication: A. Which of the following recorded communication systems do you have? <input type="checkbox"/> VHF <input type="checkbox"/> UHF <input type="checkbox"/> 800 MHz <input type="checkbox"/> Phone Line B. How many recorded radios do you have? _____			

Site Tour Equipment Checklist Level III

Operating Room

Equipment	Yes	No	Adult Child Infant
Thermal control for patients & fluids/blood (when a rapid infuser is not available)			
X-ray capabilities			
Rapid infuser system (blood-fluid warmer used to administer blood, medications and other fluids in trauma treatment situation)			

↓ Notes ↓

PACU (ICU acceptable)

Equipment	Yes	No	Adult Child Infant
Equipment for monitoring and resuscitation			
Pulse oximetry			
Thermal control for patients & fluids/blood (when a rapid infuser is not available)			

Intensive Care Unit

Equipment	Yes	No	Adult Child Infant
Equipment for invasive monitoring and resuscitation			
Ventilator			
Intracranial pressure monitoring (if caring for inpatient) – only required for Level 3 with neurosurgical capabilities.
