

Candida auris Surveillance Report

June 1, 2026

Case Count:	<u>Total Cases</u>	<u>Clinical Case</u>	<u>Screening Case</u>
	2,796	705	2,091

Cases initially identified as screening cases that later develop a positive clinical culture will solely be reported as a clinical case to avoid double counting the same individuals.

259 individuals converted from a screening to clinical case.
