

Fiscal Year 2025 Executive Budget Recommendation Maternal & Infant Health

February 2024

Amy Epkey, Senior Deputy Director, Financial Operations Administration

Dawn Shanafelt, Director, Maternal & Infant Health Division and Title V
Maternal Child Health

Agenda

- 2024 Investment Updates.
- 2025 Proposed Investments.

Mission

MDHHS provides services and administers programs to improve the health, safety, and prosperity of the residents of the state of Michigan.

2024 Investment Updates

- Close to 45,000 postpartum moms now have access to **12 months of continuous postpartum Medicaid coverage**, assuring continuity of care and access to the full array health benefits during this critical period.
- **12,768** Michiganders have received family planning or related services since the **Plan First** benefit was launched in July 2023.
- The Healthy Moms, Healthy Babies Initiative resulted in **38,524 enhanced home visits** for families enrolled in the statewide **Maternal Infant Health Program (MIHP)**.
- The enhanced visits resulted in families being **44%** less likely to report **cutting meals due to cost**, **16%** less likely to report going without **essential utilities**, and **36%** less likely to report being **unemployed**.

2024 Investment Updates

- The Regional Perinatal Quality Collaboratives have issued **\$5 million** in funding to community-based organizations (CBOs) and other entities serving families **to advance healthy births**.
- Michigan Medicaid began **reimbursing for doula services in February 2023**, as part of the Michigan Doula Initiative.
- There are currently **312** doulas listed on the registry with **192** enrolled as Medicaid providers.

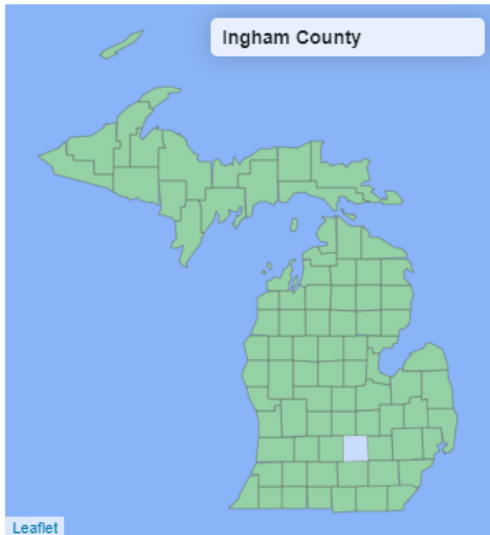

2024 Investment Updates

Ingham County

Select any county by clicking on the map, using the dropdown, or using the advanced search below. Once the selection is made, the location and contact information for doulas in the registry will appear.

Infant Mortality Rate by Maternal Race & Ethnicity

Per 1,000 live births

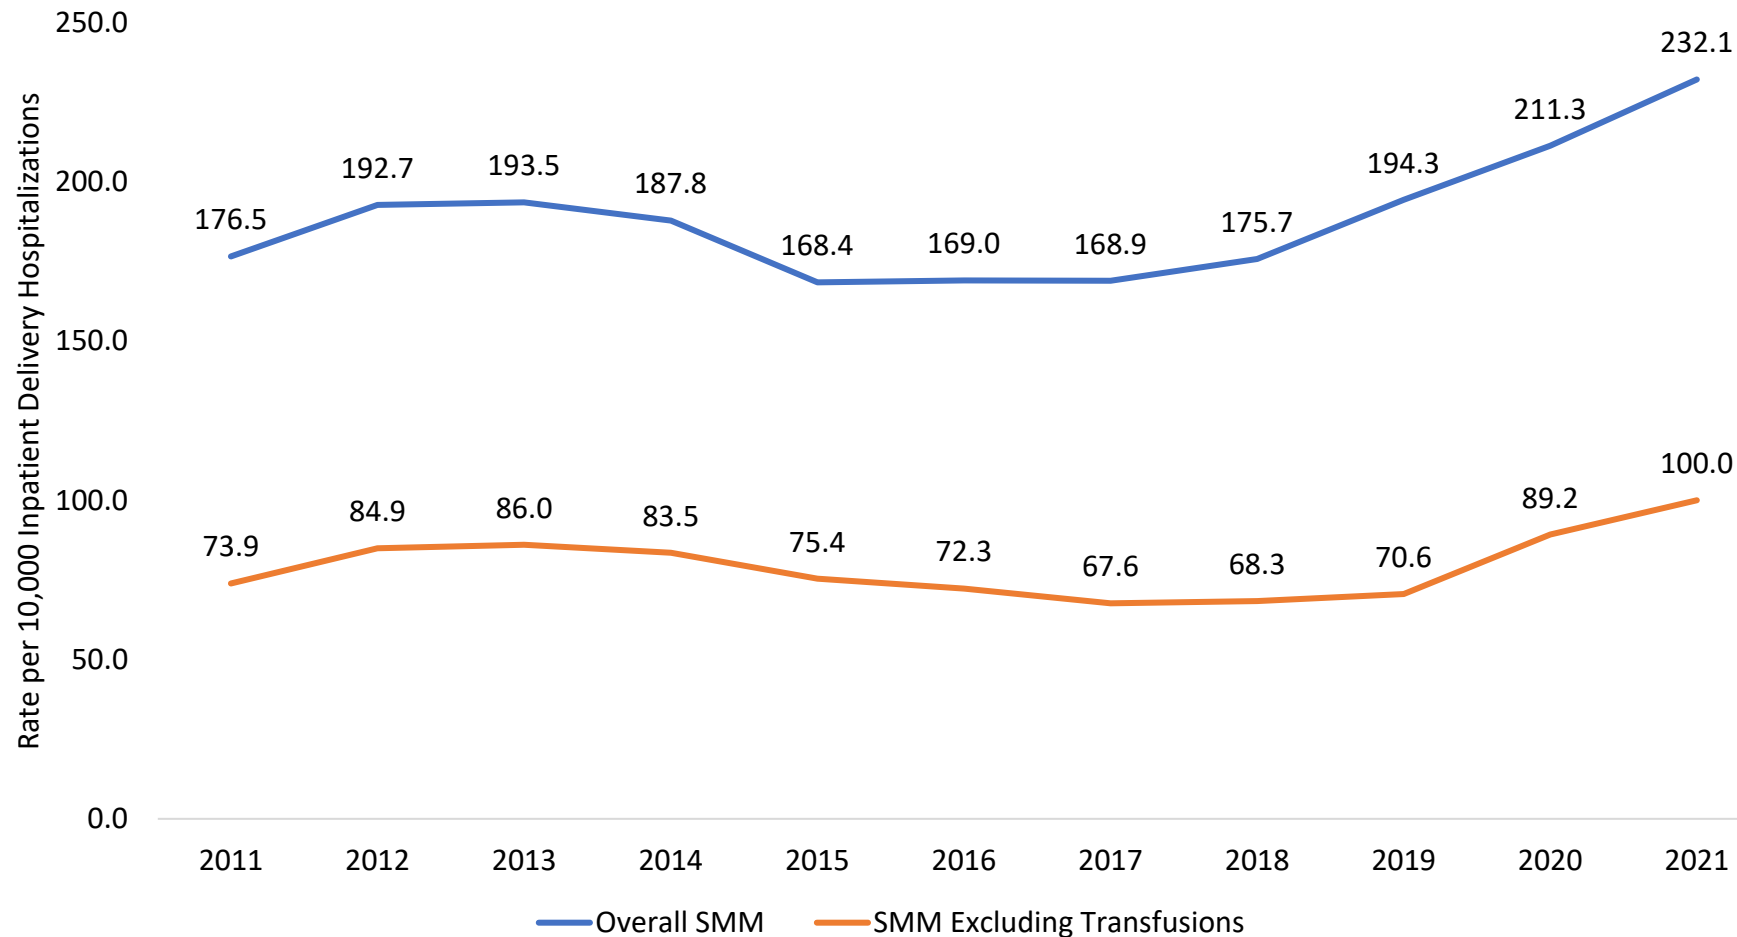

Data source: Michigan resident live birth files and infant mortality files, Division for Vital Records and Health Statistics, MDHHS

Maternal Mortality: Key Findings 2016-2020

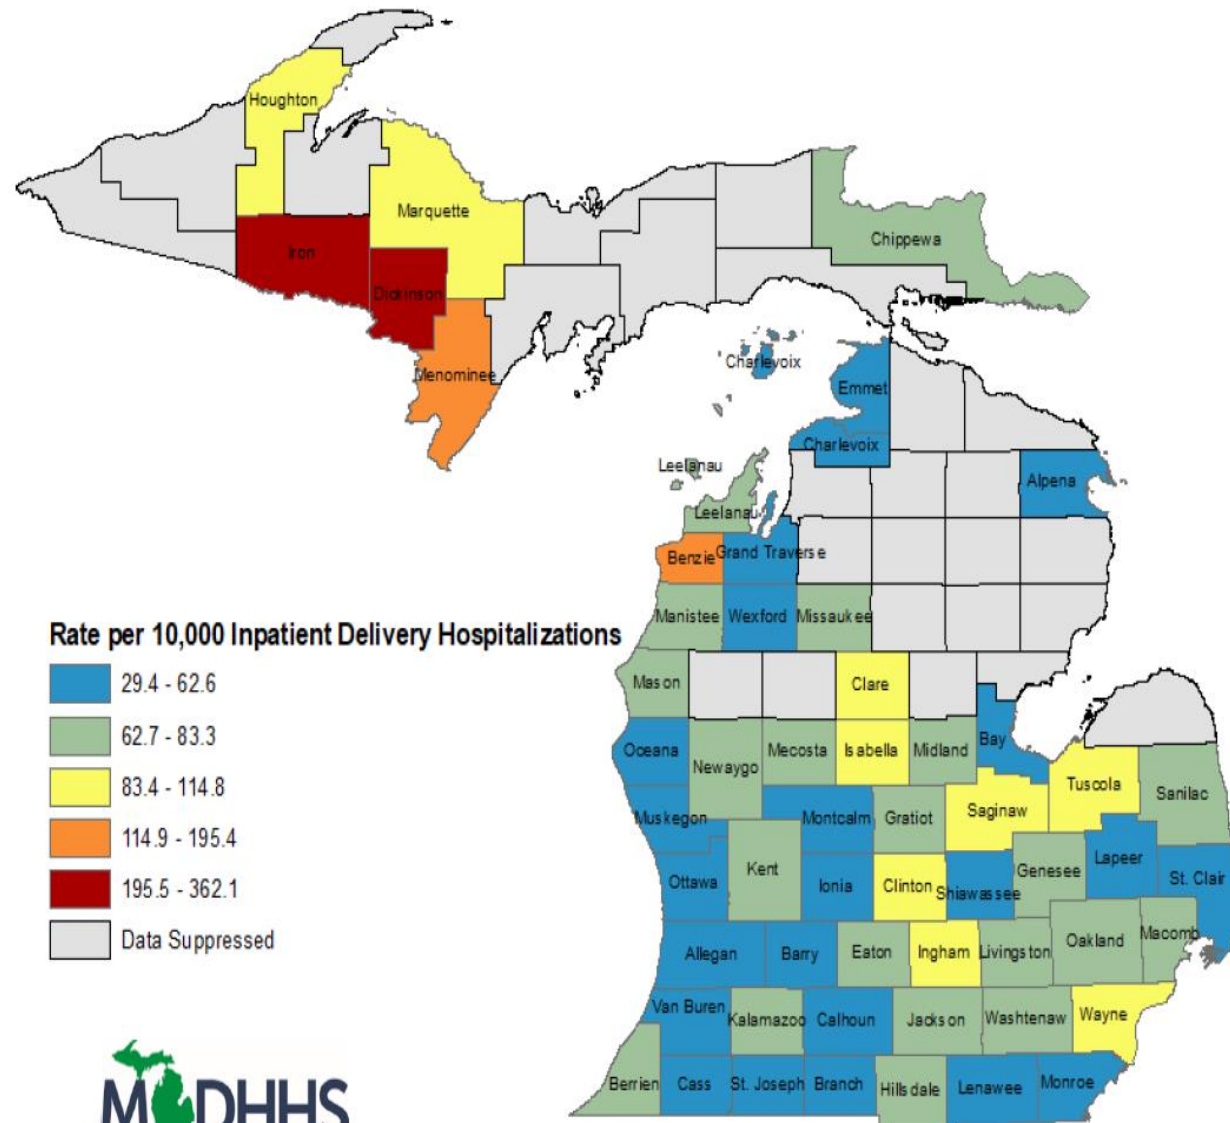

- **442** maternal deaths.
- **106 deaths were identified as pregnancy-related.** The most common causes of death were **infection, thrombotic/pulmonary embolism, and substance use disorder.**
- **305 deaths** were identified as pregnancy-associated, not related. The most common causes of death were **accidental poisoning/drug overdose and medical causes not directly related to, or aggravated by, the pregnancy.**
- **Disparities exist by race, age, and education level.**
- Pregnancy-related deaths: **74.5%** were determined to be preventable.
- Pregnancy-associated deaths: **81.8%** were deemed to be preventable.

Severe Maternal Morbidity (SMM) and SMM Excluding Transfusions

A photograph of two pregnant women sitting on a grey couch in a bright, modern living room. The woman on the left is wearing a white long-sleeved shirt and blue jeans, and is smiling while gesturing with her hands. The woman on the right is wearing a beige sweater and blue jeans, and is smiling while holding a clipboard and a pen. A teal cushion is on the couch to the left. A potted plant is visible on the right side of the frame. The background is a light-colored wall with a window.

Healthy Moms, Healthy Babies

Healthy Moms, Healthy Babies

Description

- **The Maternal Infant Health Program (MIHP)** is a statewide, evidence-based and Medicaid-funded home visitation program for pregnant and postpartum people, infants, and caregivers.
- Supports more than 15,000 Medicaid-eligible pregnant people and 20,000 infants annually.
- **68 MIHP agencies** representing **98 sites**.
- Families would benefit from:
 - Increasing the Medicaid rate to doulas for **longer deliveries**, the reimbursed **number of doula visits**, and the number of doula **trainings** and **continuing education** opportunities, plus supporting doula connections.
 - Further expanding access to **CenteringPregnancy**.
 - **Regional Perinatal Quality Collaboratives** issuing funds directly to communities.

Proposed Investment

- \$7.5 million one-time General Fund (GF) to continue state grants for CenteringPregnancy and the Regional Perinatal Quality Collaboratives.
- \$3.3 million (\$918,700 GF) to increase reimbursement rates to MIHP service providers for additional care management services.
- \$2 million (\$545,100 GF) for increases in Medicaid reimbursement for doula care.
- \$2.9 million one-time (\$1.4 million GF) for doula training and outreach.

Outcomes

- Achieve equitable birth outcomes.
- Provide enhanced services to more than 11,000 individuals.
- Decrease health and racial disparities.

Family Planning Services

Description

- Increase **access to local health departments and agencies to assist individuals and families in planning** and spacing birth, preventing unintended pregnancy, and seeking preventive health screenings.
- Family Planning Network:
 - 91 clinics, 33 sub-recipients.
 - In 2023, the network served 38,748 women and 6,429 men for a total of 45,177 people.

Proposed Investments

- \$14.2 million statewide family planning services (one-time, GF).

Outcomes

- Increase reproductive health access.
- Improve birth outcomes.
