Boilerplate Section 1866 (1) of Public Act 200 of 2012 appropriates \$12,000,000 in general fund/general purpose revenues and any associated federal match to rural and sole community hospitals, with no hospital or hospital system to receive more than 5% of this funding.

Hospitals are eligible to receive funding from this pool by meeting either of the following criteria. The hospital must:

- Have fewer than 50 occupied beds; be located in a city, village, or township with not more than 12,000 people and in a county with not more than 165,000 people (based on criteria established in Boilerplate Section 1842).
- Be classified by CMS as a sole community hospital for Medicare reimbursement purposes (SCHs).

The new pool is allocated as follows:

1. Hospitals that meet the criteria above will be reimbursed the difference between their Medicaid outpatient and inpatient cost and their gross Medicaid outpatient and inpatient payments. Data used to allocate this funding were obtained from Medicaid cost reports filed for hospital fiscal years ending during state fiscal year 2011.
2. The remaining funds (about \$2.4 million) are paid based on the number of Medicaid deliveries that occurred at each eligible hospital during state fiscal year 2011.
