Services Provided to the Categorically and Medically Needy***

10. Dental Services (CONTINUED)

- Services provided by licensed dentists within their scope of practice as defined by state law, are
 - Services provided by licensed dental therapists within their scope of practice as defined by state law and performed under the supervision of a Medicaid-enrolled dentist within the terms of the written practice agreement, are
- B. covered for beneficiaries under the EPSDT program:
1. Examinations and preventive services in accordance with the State's ~~State's~~ **AMERICAN ACADEMY OF PEDIATRIC DENTISTRY (AAPD)** periodicity schedule; therapeutic services as needed for pain relief, infections, restoration of teeth and maintenance of dental health.
 2. Diagnostic and therapeutic services necessary to diagnose and treat conditions relating to a specific medical problem. Approval for these services will be given only when the physician and the dentist concur that the dental care is critical to the treatment of the medical problem for which the attending physician is treating the client.
 3. Emergency treatment such as extraction of teeth or palliative treatment for relief of pain or acute infection.
 4. Preparation for, adjustments to, and repair of necessary dentures as described in item 12.b. of this attachment.
 5. Other medically necessary dental services.
 6. Any limitations to these dental services can be exceeded based on medical necessity under the Early and Periodic Screening Diagnostic and Treatment (EPSDT) program.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Michigan

**AMOUNT, DURATION AND SCOPE OF MEDICAL AND REMEDIAL CARE
SERVICES PROVIDED TO THE CATEGORICALLY AND MEDICALLY NEEDY**

- 4b. The EPSDT program is available to all Medicaid beneficiaries under the age of 21. This program was established to detect and correct or ameliorate defects and physical and mental illnesses and conditions discovered in children.

EPSDT visits are recommended according to the periodicity schedule by the American Academy of Pediatrics. **DENTAL VISITS ARE RECOMMENDED ACCORDING TO THE PERIODICITY SCHEDULE BY THE AMERICAN ACADEMY OF PEDIATRIC DENTISTRY.**

EPSDT services are provided as defined in section 1905 (r) (5) of the Act. Medically necessary screening, preventive, diagnostic services and treatment will be covered under other appropriate service categories.

Of the services listed on 3.1-A preprint pages of the State Plan, religious non-medical health care nursing services (formerly Christian Science nurses' services) and private duty nursing services may be prior authorized by the single state agency for medically necessary follow-up services to treat detected conditions for beneficiaries under the age of 21 years when the following requirements are met:

- the beneficiary requires continuous skilled nursing care on a daily basis and is either dependent daily on technology-based medical equipment to sustain life or has had frequent episodes of medical instability within the past 3 to 6 months, requiring skilled nursing assessments, judgments or interventions due to a substantiated progressively debilitating physical disorder
- the beneficiary is eligible for Medicaid in the home/community setting; and appropriate nursing services, considering the beneficiary's health and medical care needs, can be safely provided in the home/community setting
- the beneficiary, his/her family (or guardian), the beneficiary's physician, the Medicaid case manager, and the care giving nurse have collaborated and developed an integrated plan of care that identifies and addresses the beneficiary's need for nursing services

Private duty nursing services must be provided by a registered nurse (RN), or licensed practical nurse (LPN) under the supervision of an RN, under the direction of the beneficiary's physician.

Determinations regarding the quantity of services provided will consider the beneficiary's care needs which establish medical necessity for nursing services.

Blood lead follow-up services are not listed in the preprint pages but are covered for children discovered to have elevated blood lead levels. The on-site investigation of a child's home or primary residence to determine the environmental source of lead is covered under the diagnostic service benefit at 42 CFR 440.130(a).

Assessments are performed by assessors certified by the state.

Diagnostic services are limited to lead investigation to determine the source of lead poisoning for a child who is diagnosed with an elevated blood lead level. The investigation will be conducted in the child's home or primary residence. A maximum of two sites may be investigated. Lead investigations beyond the child's home or primary residence, such as in community settings, or schools, are not reimbursable. The state follows recommended guidelines established by the Centers for Disease Control and Prevention (CDC) for assessment and investigation activities associated with elevated blood lead levels.

Dear Tribal Chair and Health Director:

RE: Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Dental Periodicity Schedule

This letter, in compliance with Section 1902(a)(73) and Section 2107(e)(1)(C) of the Social Security Act, serves as notice to all Tribal Chairs and Health Directors of the intent by the Michigan Department of Health and Human Services (MDHHS) to submit a State Plan Amendment (SPA) request to the Centers for Medicare & Medicaid Services (CMS).

The purpose of the SPA is to adopt the American Academy of Pediatric Dentistry (AAPD) Recommendations for Pediatric Oral Health Assessment, Preventive Services, and Anticipatory Guidance/Counseling schedule as a dental-specific periodicity schedule for children up to 21 years of age under the EPSDT requirement defined in section 1905(r) of the Social Security Act.

The AAPD guidelines are designed for the care of children developing normally and without contributing medical conditions. The guidelines include recommendations to modify as needed for children with special health care needs, disease or trauma. The AAPD guidelines emphasize the importance of early professional intervention and continuity of care based on the individualized needs of the child. The anticipated effective date of this SPA is January 1, 2023. This change is expected to clearly define dental recommendations for all beneficiaries under 21 years of age, including Native American beneficiaries.

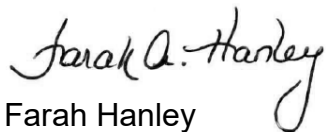

There is no public hearing scheduled for this SPA. Input regarding this SPA is highly encouraged, and comments regarding this notice of intent may be submitted to Lorna Elliott-Egan, MDHHS Liaison to the Michigan tribes. Lorna can be reached at 517-512-4146, or via email at Elliott-EganL@michigan.gov. **Please provide all input by November 3, 2022.**

In addition, MDHHS is offering to set up group or individual consultation meetings to discuss the SPA, according to the tribes' preference. Consultation meetings allow tribes the opportunity to address any concerns and voice any suggestions, revisions, or objections to be relayed to the author of the proposal. If you would like additional information or wish to schedule a consultation meeting, please contact Lorna Elliott-Egan at the telephone number or email address provided above.

MDHHS appreciates the continued opportunity to work collaboratively with you to care for the residents of our state.
