Public Notice
Michigan Department of Health and Human Services Behavioral and Physical Health and Aging Services Administration

Section 5121 of the Consolidated Appropriations Act, 2023 (CAA) Screening and Diagnostic Services State Plan Amendment Requests

The Michigan Department of Health and Human Services (MDHHS) plans to submit a State Plan Amendment (SPA) request to the Centers for Medicare & Medicaid Services (CMS). The request includes a SPA to cover any medical and dental screenings and diagnostic services (including behavioral health screenings), and most likely a corresponding alternative benefit plan (ABP) SPA, for eligible juveniles who are post-adjudication inmates in public institutions under Medicaid and the Children's Health Insurance Program (CHIP).

The anticipated effective date for the CAA Screening and Diagnostic Services SPAs is January 1, 2025.

In accordance with section 1902(a)(84)(D) of the Social Security Act, the state has an internal operational plan and, in accordance with such plan, provides for any screenings and diagnostic services for eligible juveniles as defined in 1902(nn) (individuals who are under 21 years of age and determined eligible for any Medicaid eligibility group, or individuals determined eligible for the mandatory eligibility group for former foster care children age 18 up to age 26, immediately before becoming an inmate of a public institution or while an inmate of a public institution) who are within 30 days of their scheduled date of release from a public institution following adjudication. A correctional institution is considered a public institution and may include prisons, jails, detention facilities, or other penal settings (e.g., boot camps or wilderness camps).

In the 30 days prior to release (or not later than one week, or as soon as practicable, after release from the public institution), and in coordination with the public institution, the state will provide any screenings and diagnostic services which meet reasonable standards of medical and dental practice, as determined by the state, or as otherwise indicated as medically necessary, in accordance with the Early and Periodic Screening, Diagnostic, and Treatment requirements, including a behavioral health screening or diagnostic service.

In compliance with 42 CFR § 440.345, individuals under 21 years of age receiving Medicaid benefits will continue to have access to services within the full early and periodic screening, diagnostic and treatment (EPSDT) benefit as defined in Section 1905(r) of the Social Security Act.

The estimated gross cost to the State of Michigan for the State Plan Amendments is \$262,000 per year.

There is no public meeting scheduled regarding this notice. Any interested party wishing to request a written copy of the SPA or wishing to submit comments may do so by sending an e-mail to MSADraftPolicy@michigan.gov or submitting a request in writing to: MDHHS/Behavioral and Physical Health and Aging Services Administration, Program Policy Division, PO Box 30479, Lansing, MI 48909-

7979 by December 31, 2024. A copy of the proposed State Plan Amendment will also be available for review at: <https://www.michigan.gov/mdhhs/inside-mdhhs/budgetfinance/264/s-tate-plan-amendments>.

Public Notice
Michigan Department of Health and Human Services Behavioral and Physical Health and Aging Services Administration

Section 5121 of the Consolidated Appropriations Act, 2023 (CAA) Targeted Case Management (TCM) Services State Plan Amendment Requests

The Michigan Department of Health and Human Services (MDHHS) plans to submit a State Plan Amendment (SPA) request to the Centers for Medicare & Medicaid Services (CMS). The request includes a SPA to cover any medical and dental screenings and diagnostic services (including behavioral health screenings), and most likely a corresponding alternative benefit plan (ABP) SPA, for eligible juveniles who are post-adjudication inmates in public institutions under Medicaid and the Children's Health Insurance Program (CHIP). In addition, a SPA will be submitted to update the current TCM services for Recently Incarcerated Beneficiaries state plan.

The anticipated effective date for the CAA TCM services SPAs is January 1, 2025.

In accordance with section 1902(a)(84)(D) of the Social Security Act, the state has an internal operational plan and, in accordance with such plan, provides for TCM services for eligible juveniles as defined in 1902(nn) (individuals who are under 21 years of age and determined eligible for any Medicaid eligibility group, or individuals determined eligible for the mandatory eligibility group for former foster care children age 18 up to age 26, immediately before becoming an inmate of a public institution or while an inmate of a public institution) who are within 30 days of their scheduled date of release from a public institution following adjudication. A correctional institution is considered a public institution and may include prisons, jails, detention facilities, or other penal settings (e.g., boot camps or wilderness camps).

In the 30 days prior to release (or not later than one week, or as soon as practicable, after release from the public institution), and in coordination with the public institution, the state will provide TCM services, including referrals to appropriate care and services available in the geographic region of the home or residence of the eligible juvenile, where feasible, under the Medicaid state plan (or waiver of such plan).

TCM services are defined as services furnished to assist individuals, eligible under the State Plan, in gaining access to needed medical, social, educational and other services. TCM services include a comprehensive assessment and periodic reassessment of individual needs, the development (and periodic revision) of a specific care plan, referrals and related activities, and monitoring and follow-up activities.

The update for current TCM Services for Recently Incarcerated Beneficiaries state plan addresses an age overlap between the current TCM services for individuals 18 years of age and older and the CAA age requirement of under 21 years of age, adjusting the age for this SPA to 21 years of age and older. The current TCM services only cover post release services whereas the CAA TCM

services cover both pre- and post-release TCM services.

In compliance with 42 CFR § 440.345, individuals under 21 years of age receiving Medicaid benefits will continue to have access to services within the full early and periodic screening, diagnostic and treatment (EPSDT) benefit as defined in Section 1905(r) of the Social Security Act.

The estimated gross cost to the State of Michigan for the new State Plan Amendment is \$378,000 per year. The estimated savings to the State of Michigan for State Plan Amendment is \$83,000 per year to address the needed update to the current TCM services state plan.

There is no public meeting scheduled regarding this notice. Any interested party wishing to request a written copy of the SPA or wishing to submit comments may do so by sending an e-mail to MSADraftPolicy@michigan.gov or submitting a request in writing to: MDHHS/Behavioral and Physical Health and Aging Services Administration, Program Policy Division, PO Box 30479, Lansing, MI 48909-7979 by December 31, 2024. A copy of the proposed State Plan Amendment will also be available for review at: <https://www.michigan.gov/mdhhs/inside-mdhhs/budgetfinance/264/s-tate-plan-amendments>.

Dear Tribal Chair and Health Director:

RE: Notice of Intent to Submit Several State Plan Amendment Requests to Address the Requirements of the Consolidated Appropriations Act and a Subsequent Update of the Current Targeted Case Management Services for Recently Incarcerated Beneficiaries

This letter, in compliance with Section 1902(a)(73) and Section 2107(e)(1)(C) of the Social Security Act, serves as notice to all Tribal Chairs and Health Directors of the intent by the Michigan Department of Health and Human Services (MDHHS) to submit several State Plan Amendment (SPA) requests to the Centers for Medicare & Medicaid Services (CMS) to address the requirements of the Consolidated Appropriations Act (CAA). Due to the requirements of the CAA, it will be necessary to amend the current targeted case management (TCM) services for recently incarcerated beneficiaries state plan.

The CAA requires that in the 30 days prior to release, or within one week or as soon as practicable after release, eligible juveniles shall receive any medical and dental screenings and diagnostic services (including behavioral health screenings) to determine the existence of certain physical or mental illnesses or conditions. In addition, eligible juveniles are to receive TCM services 30 days prior to release and for at least 30 days following release from a public institution. To align with the current MDHHS TCM services for recently incarcerated beneficiaries policy, eligible juveniles will receive TCM services for up to 12 months following release from a public institution.

An eligible juvenile is defined as an inmate of a public institution who is within 30 days of release from a public institution, meets Medicaid or Children's Health Insurance Program (CHIP) eligibility requirements, and is under 21 years of age or meets the requirements for former foster care described in the Social Security Act at 1902(a)(10)(A)(i)(IX). An inmate is an individual who was in custody and held involuntarily through operation of law enforcement authorities in a public institution (e.g., state prisons, local jails, tribal jails/prisons, and all juvenile detention and youth correctional facilities, etc.).

MDHHS expects that these SPA services will have a positive impact on Native American beneficiaries who are soon to be released from a public institution. Native American beneficiaries who are eligible juveniles under 21 years of age or are eligible juveniles who are former foster care will be able to receive screening and diagnostic services 30 days prior to release from a public institution. In addition, these beneficiaries will be able to receive TCM services 30 days prior to release and for 12 months following release from a public institution to improve the continuity of care they receive and to facilitate their reentry back into their community. The anticipated effective date of these SPAs is January 1, 2025.

There is no public hearing scheduled for these SPAs. Input regarding these SPAs is highly encouraged, and comments regarding this notice of intent may be submitted to Lorna Elliott-Egan, MDHHS Liaison to the Michigan tribes. Lorna can be reached at 517-512-4146, or via email at Elliott-EganL@michigan.gov. **Please provide all input by November 25, 2024.**

In addition, MDHHS is offering to set up group or individual consultation meetings to discuss these SPAs, according to the tribe's preference. Consultation meetings allow tribes the opportunity to address any concerns and voice any suggestions, revisions, or objections to be relayed to the author of the proposal. If you would like additional information or wish to schedule a consultation meeting, please contact Lorna Elliott-Egan at the telephone number or email address provided above.

MDHHS appreciates the continued opportunity to work collaboratively with you to care for the residents of our state.
