RE: TN 25-0016

Dear Deputy Medicaid Director Groen:

The Centers for Medicare & Medicaid Services (CMS) has reviewed the proposed Michigan state plan amendment (SPA) to Attachment 4.19-A and 4.19-B, MI-25-0016, which was submitted to CMS on November 25, 2025. This plan amendment updates the eligibility criteria of the Rural Access Pool.

We reviewed your SPA submission for compliance with statutory requirements, including in sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903 as it relates to the identification of an adequate source for the non-federal share of expenditures under the plan, as required by 1902(a)(2), of the Social Security Act and the applicable implementing Federal regulations.

Based upon the information provided by the state, we have approved the amendment with an effective date of December 1, 2025. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Tom Caughey at 517-487-8598 or via email at tom.caughey@cms.hhs.gov.

Sincerely,

A handwritten signature in cursive script that reads "Rory Howe".

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of MICHIGAN

Policy and Methods for Establishing Payment Rates (Other than Inpatient Hospital and Long Term Care Facilities)

Rural Access Pool

The State will establish a Rural Access Pool beginning in State FY 2013 for hospitals that provide Medicaid services to low income rural residents. Effective State FY 2021, eligibility for the rural access pool is limited to non-critical access hospitals. To be eligible for this pool, hospitals must be categorized by the Centers for Medicare & Medicaid Services as a sole community hospital, or meet both of the following criteria.

1. A hospital must have 50 or fewer staffed beds. The State will calculate staffed beds by dividing the total hospital days reported by the hospital on its Medicaid cost report with a fiscal year ending between October 1, 2010 and September 30, 2011, by the number of days covered in the cost report; and
2. A hospital must be located in a county with a population of not more than 195,000 and within a city, village, or township with a population of not more than 15,000. The population threshold will be measured against population counts from the 2020 federal decennial census.

Each hospital's allocation from this pool will be calculated as the unreimbursed cost the hospital incurred providing inpatient services to Michigan Medicaid beneficiaries during its cost period that ended during the second previous fiscal year. For example, to calculate the 2013 pool, hospital cost reports with fiscal years ending between October 1, 2010 and September 30, 2011 will be used.

Provider costs will be determined using data reported on the following lines of the CMS 2552-96 or their equivalent lines on the CMS 2552-10. Inpatient costs are obtained from Worksheet D-1, Part II, Title XIX, Line 49. The following gross Medicaid payments from this cost report period will be applied against cost to determine unreimbursed cost: operating, capital, graduate medical education, executive order reductions, and Medicaid access to care initiative, or any other supplemental payment.

Payments will be made within 45 days of the beginning of each quarter. The quarterly payments will be made in four equal installments based on the total annual amount the hospital is eligible to receive.

The total amount of the rural access pool payments is the sum of each hospital's allocation from this pool described above.

In the aggregate, the State reimburses hospitals up to maximum allowable under the Federal upper payment limits for inpatient services provided to Medicaid beneficiaries. To keep total Medicaid fee-for-service payments to hospitals within the Federal upper payment limits, the State will reduce the size of the applicable year's MACI Pool payments by the size of the Rural Access Pool.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of MICHIGAN

Policy and Methods for Establishing Payment Rates (Other than Inpatient Hospital and Long Term Care Facilities)

Rural Access Pool

The State will establish a Rural Access Pool beginning in State FY 2013 for hospitals that provide Medicaid services to low income rural residents. Effective State FY 2021, eligibility for the rural access pool is limited to non-critical access hospitals. To be eligible for this pool, hospitals must be categorized by the Centers for Medicare & Medicaid Services as a sole community hospital, or meet both of the following criteria.

1. A hospital must have 50 or fewer staffed beds. The State will calculate staffed beds by dividing the total hospital days reported by the hospital on its Medicaid cost report with a fiscal year ending between October 1, 2010 and September 30, 2011, by the number of days covered in the cost report; and
2. A hospital must be located in a county with a population of not more than 195,000 and within a city, village, or township with a population of not more than 15,000. The population threshold will be measured against population counts from the 2020 federal decennial census.

Each hospital's allocation from this pool will be calculated as the unreimbursed cost the hospital incurred providing outpatient services to Michigan Medicaid beneficiaries during its cost period that ended during the second previous fiscal year. For example, to calculate the 2013 pool, hospital cost reports with fiscal years ending between October 1, 2010 and September 30, 2011 will be used.

Provider costs will be determined using data reported on the following lines of the CMS 2552-96 or their equivalent lines on the CMS 2552-10: GME costs are determined. First, Total Medicaid Outpatient Program Charges (reported on Worksheet D, Part V, Column 5, Lines 37.00 through 65.99, excluding Lines 63.50 through 63.99 of the CMS 2552-96) are divided by Total Hospital Charges Net of Hospital Based Physicians, for all provider types (reported on Worksheet G2, Column 1, Lines 1, 2, 10-14, 17, and 18 of the CMS 2552-96). This ratio is then multiplied by the Intern and Resident Cost (reported on the Worksheet B, Part 1, Columns 22 and 23, Line 95 of the CMS 2552-96) to determine GME costs. Non-GME costs are obtained from Worksheet D, Part V, Column 9, Lines 37.00 through 65.99, excluding lines 63.50 through 63.99. GME and Non-GME costs are combined to determine total costs. The following gross Medicaid payments from this cost report period will be applied against cost to determine unreimbursed cost: operating, capital, graduate medical education, and Medicaid Access to Care Initiative, or any other supplemental payment.

Payments will be made within 45 days of the beginning of each quarter. The quarterly payments will be made in four equal installments based on the total annual amount the hospital is eligible to receive.

The total amount of the rural access pool payments is the sum of each hospital's allocation from this pool described above.

In the aggregate, the State reimburses hospitals up to maximum allowable under the Federal upper payment limits for outpatient services provided to Medicaid beneficiaries. To keep total Medicaid fee-for-service payments to hospitals within the Federal upper payment limits, the State will reduce the size of the applicable year's MACI Pool payments by the size of the Rural Access Pool.
