

2023 Social Determinants of Health Summit

A CALL TO ACTION

CALL FOR PRESENTATIONS

January 24-26, 2023

VIRTUAL CONFERENCE
9:00 AM- 1:00 PM EACH DAY

About the SDOH Summit

Michigan Department of Health and Human Services Division of Policy and Planning is excited to host the Social Determinants of Health Summit. The goal of the conference is to connect with all State of Michigan Departments and external partners to address important topics focused on the Social Determinants of Health (SDOH) initiatives.

Michigan's Roadmap to Healthy Communities, takes a focused approach to align efforts at the state and local level for a greater impact in communities. Share your work at our upcoming virtual Social Determinants of Health (SDOH) Summit.

Please submit your session proposal by clicking the button below and completing the form. Proposals must be submitted by **November 1st, 2022**. Applicants will be notified by November 30th regarding if your proposal was selected.

PRESENTER SUBMISSION

Things to keep in mind as you submit your session proposal:

Michigan Department of Health and Human Services released **Phase 1** of the Social Determinants of Health Strategy entitled *Michigan's Roadmap to Healthy Communities* in April 2022. Three focus areas establish the foundation for the Strategy: health equity, housing stability, and food security.

Through a multitude of engagement strategies, we are focused on:

- Better alignment of existing food security, housing stability, and health equity programs for a greater impact,
- Seeking opportunities to better align programs and policies with our state, local, and community partners,
- And creating space for innovation through innovative initiatives and cross-cutting policies to address upstream prevention

Phase 2 of *Michigan's Roadmap to Healthy Communities* will launch at the Summit.

In Phase 2 of the SDOH Strategy, we are exploring:

- Community health worker expansion and alignment to support health equity
- Community information exchange to maximize a person-centered approach that incorporates social care information, promoting streamlined access to health enhancing, non-clinical services (e.g., social services and supports), helping to coordinate care across a variety of clinical and non-clinical partners, and using data on existing community resources, needs, and gaps to drive policy change.
- Bridging our food security, housing stability, and built environment efforts to develop a Chronic Disease SDOH Accelerator Plan.

Presenters will have the opportunity to reach hundreds of State of Michigan Employees, directors, and policy-makers at this summit. Presentations will provide an opportunity to educate attendees about vital community resources and opportunities for collaboration.

Please visit www.michigan.gov/SDOH for more information about the Social Determinants of Health Strategy for Michigan.

We look forward to hearing about your work and how we can connect to better support Michigan communities.

Who should attend?

- Public Health Professionals
- State of MI Employees
- Directors
- Policy-makers
- Food Security Organizations
- Housing Stability Organizations
- Community Based Organizations
- Healthcare Professionals
- Educators
- Health Systems
