

Community Information Exchange June Meeting Summary

On Thursday, July 20th, 2023, the Michigan Department of Health and Human Services (MDHHS), with the support of the Michigan Public Health Institute (MPHI) and Open Referral Initiative, convened the final Community Information Exchange Task Force meeting. Members of the task force include representatives from community-based organizations (CBOs), health care organizations, health payers, health IT, consumers, and government entities.

At the July CIE Task Force meeting, the task force reviewed the CIE Task Force Final Report. Task Force members broke into small groups to discuss dissemination strategies and next steps for supporting implementation of recommendations. The Task Force closed the meeting with reflections and gratitudes.

The CIE Task Force final report will be published in late August 2023. Recommendations from the report will be disseminated to impacted parties, including CBOs, health care organizations, health payers, and government agencies.

About CIE: The Community Information Exchange (CIE) is a localized effort to create and sustain the technology and relationships required to support the social needs of both individual and community. CIE maximizes a person-centered approach by ensuring social care information is collected only as needed and is stored safely. CIE also promotes streamlined access to health enhancing non-clinical services (e.g., social services and supports), helping to coordinate care across a variety of clinical and non-clinical partners, while using data on existing community resources, needs, and gaps to drive policy change.
