Remainder/Discretionary Funds [Section 675C(b) of the CSBG Act]

E.7. Describe how the State used remainder/discretionary funds as it directly relates to the CSBG CARES Supplemental funds in the table below

7

Instructional Note: This table in the administrative report must be based on actual dollars obligated to each budget category using funds awarded in this federal fiscal year. States that do not have remainder/discretionary funds will not complete this item. If a funded activity fits under more than one category in the table, allocate the funds among the categories. For example, if the State provides funds under a contract with the State Community Action Association to provide T/TA to CSBG Eligible Entities and to create a statewide data system, the funds for that contract should be allocated appropriately between Row A and Row C. If an allocation is not possible, the State may allocate the funds to the main category with which the activity is associated.

Note: This information is associated with State Accountability Measures 3Sa.

Section A: CSBG CARES Supplemental Expenditures by CSBG Eligible Entity

Section A: Local Agency CSBG Expenditures Date Entry Form meets the Congressional requirement for an explanation of the <u>total amount of</u> <u>CSBG funding expended during the reporting period (identified below)</u> based on categories referenced in the CSBG Act.

Notes: CSBG funding expended during the reporting period should be reported in the domain that best reflects the services delivered and strategies implemented. Further instructions will be provided but please keep the following in mind, per domain.

Domain A.2g Services Supporting Multiple Domains: Expenditures reported under Services Supporting Multiple Domains are those that span or support outcomes achieved across multiple domains for families and individuals, such as case management, transportation, and childcare.

Domain A.2h Linkages: Many of the activities that were associated with Linkages are now captured in Domain A2.i. Agency Capacity Building. This narrows the definition of Linkages, but continues to include community initiatives and information and referral calls.

Domain A.2i Agency Capacity Building: Agency Capacity Building expenditures are detailed in A.4 on this form.

A.3 Reporting on Administration: Administrative costs for CSBG reporting are defined by the Office of Community Services as "equivalent to typical indirect costs or overhead." As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service.

CSBG CARES Supplemental Instructional Notes

Section A: Individual and Family NPIs Data Entry Form is comprised of indicators to report outcomes that fall under National Goal 1: Individuals and families with low incomes are stable and achieve economic security. The indicators are the vehicle by which CSBG Eligible Entities measure and report the outcomes they have achieved for individuals and families. All Individual and Family NPIs are optional, and there is a category for "Other Outcome Indicator." For the CSBG CARES Supplemental submission, please include only information on people, services and outcomes directly supported with CSBG CARES Supplemental resources. This information may be determined based on a direct count of individuals for services and activities supported only with CSBG CARES Supplemental funds or based on a proportional analysis of recipients of services funded through regularly-appropriated CSBG funds or other sources and supplemented by CSBG CARES Act funds.

Instructional Note: This table in the administrative report must be based on actual dollars obligated to each budget category using funds awarded in this federal fiscal year. States that do not have remainder/discretionary funds will not complete this item. If a funded activity fits under more than one category in the table, allocate the funds among the categories. For example, if the State provides funds under a contract with the State Community Action Association to provide T/TA to CSBG Eligible Entities and to create a statewide data system, the funds for that contract should be allocated appropriately between Row A and Row C. If an allocation is not possible, the State may allocate the funds to the main category with which the activity is associated.

Note: This information is associated with State Accountability Measures 3Sa.

Section A: CSBG CARES Supplemental Expenditures by CSBG Eligible Entity

Section A: Local Agency CSBG Expenditures Date Entry Form meets the Congressional requirement for an explanation of the <u>total amount of</u> <u>CSBG funding expended during the reporting period (identified below)</u> based on categories referenced in the CSBG Act.

Notes: CSBG funding expended during the reporting period should be reported in the domain that best reflects the services delivered and strategies implemented. Further instructions will be provided but please keep the following in mind, per domain.

Domain A.2g Services Supporting Multiple Domains: Expenditures reported under Services Supporting Multiple Domains are those that span or support outcomes achieved across multiple domains for families and individuals, such as case management, transportation, and childcare.

Domain A.2h Linkages: Many of the activities that were associated with Linkages are now captured in Domain A2.i. Agency Capacity Building. This narrows the definition of Linkages, but continues to include community initiatives and information and referral calls.

Domain A.2i Agency Capacity Building: Agency Capacity Building expenditures are detailed in A.4 on this form.

A.3 Reporting on Administration: Administrative costs for CSBG reporting are defined by the Office of Community Services as "equivalent to typical indirect costs or overhead." As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service.

CSBG CARES Supplemental Instructional Notes

Section A: Individual and Family NPIs Data Entry Form is comprised of indicators to report outcomes that fall under National Goal 1: Individuals and families with low incomes are stable and achieve economic security. The indicators are the vehicle by which CSBG Eligible Entities measure and report the outcomes they have achieved for individuals and families. All Individual and Family NPIs are optional, and there is a category for "Other Outcome Indicator." For the CSBG CARES Supplemental submission, please include only information on people, services and outcomes directly supported with CSBG CARES Supplemental resources. This information may be determined based on a direct count of individuals for services and activities supported only with CSBG CARES Supplemental funds or based on a proportional analysis of recipients of services funded through regularly-appropriated CSBG funds or other sources and supplemented by CSBG CARES Act funds.
