	Financial Status Report – Opioid Health Home Services	1 of 9

## 1.0 General Report Overview

Effective October 1, 2017, the Michigan Department of Health and Human Services (MDHHS) has modified the functionality of the Financial Status Report (FSR) bundle. The modification to the FSR bundle is designed to increase reporting efficiency for the Community Mental Health Services Programs (CMHSP) and the Prepaid Inpatient Health Plans (PIHPs). The FSR bundle will now allow FSR reporting specific to the needs of the reporting board. There are three FSR report types; CMHSP (Non-Medicaid reporting), PIHP (Medicaid/Affiliate CMHSP reporting) and Stand Alone (Detroit-Wayne, Oakland, Macomb). The selected FSR will only display the applicable report tabs, columns and rows.

Please note that the report tabs, columns and rows that are not applicable are hidden or relabeled to condense the FSR bundle. Additionally, the financial reporting instructions for each form within the FSR bundle have not been modified. All column, row, cell and formula references remain intact and should only be considered if applicable to the selected FSR.

The Financial Status Report (FSR) – Opioid Health Home (OHH) Services is a comprehensive report of all activity of the Community Mental Health Service Program (CMHSP), that is a Prepaid Inpatient Health Plan (PIHP), or the Regional Authority that holds the Medicaid Managed Specialty Supports and Services Concurrent 1115 and 1915(c)/(i) Waiver Program Contract (Medicaid Contract) with the Michigan Department of Health and Human Services (MDHHS) for the provision of Opioid Health Home Services. Section 2703 of the Patient Protection and Affordable Care Act allows State Medicaid programs to develop Health Home services for Medicaid beneficiaries with substance use disorders, serious mental illness, and other comorbid physical and behavioral health conditions. The FSR – Opioid Health Home Services summarizes the revenues and expenditures of the PIHP related to the provision of Opioid Health Home Services and will identify whether there is a net deficit prior to any redirection of funding to address a deficit.

Opioid Health Home services are authorized through a Medicaid State Plan Option (Section 1945 of the Social Security Act) that provides a comprehensive system of care coordination for Medicaid individuals with an opioid use disorder, alcohol use disorder and stimulant use disorder diagnosis living in eligible geographic areas. Opioid Health Home providers integrate and coordinate all primary, acute, behavioral, and physical health services and supports to treat the “whole person” across the lifespan. The Opioid Health Home services include:

- Comprehensive care management
- Care coordination
- Health promotion
- Comprehensive transitional care/follow-up
- Patient and family support
- Referrals to community and social support services

MDHHS designates Prepaid Inpatient Health Plans (PIHPs) to serve as the central point for directing patient-centered care, reducing avoidable health care costs (specifically

preventing hospital admissions/readmissions and avoidable emergency room visits), providing timely post-discharge follow-up, and improving patient outcomes by addressing whole-person health care needs through provision of comprehensive, integrated behavioral health (mental health and substance use disorder), medical, care coordination and management services.

The Opioid Health Home (OHH) benefit is managed on a full risk basis by the PIHP. PIHPs shall develop and establish contracts with CMHSPs/designated Health Home Partners (HHPs) to provide Opioid Health Home services. A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When a surplus in funding exists the unspent Opioid Health Home Services funds become local funds in the following fiscal year. When an overall deficit exists, the PIHP must report what funding will be used to cover the costs above the capitation received.

**Per the approved CMS State Plan Amendment, the OHH contract contains a Pay-for-Performance (P4P) withhold. The P4P distribution methodology can be found in the [OHH Handbook](#). MDHHS will calculate and distribute earned P4P within one year of the performance year (PY) (e.g., for FY22, the amount earned will be distributed by the end of FY23). Please note that the distribution of the P4P withhold in a measurement year (MY) will be based on a quarterly increase in enrollment.**

**The OHH P4P withhold will be reported on a cash basis in the fiscal year following the MY/PY (e.g., for FY22, the earned OHH P4P will be reported in the FY23 reporting period).**

The FSR – Opioid Health Home Services will be utilized by the Michigan Department of Health and Human Services (MDHHS) as a tool to monitor the fiscal operations of the PIHP. In addition, this report will provide the basis for the annual contract reconciliation of the Opioid Health Home Services.

The PIHP/CMHSP shall comply with Generally Accepted Accounting Principles, along with any other federal and state regulations as defined in the PIHP Contract. All revenue and expenditures are required to be reported on an accrual basis of accounting, unless otherwise directed by MDHHS policy. As such, the revenue and expenditure amounts reported must include all earned reimbursements and/or obligations regardless of whether they have been billed or collected. Additionally, any adjustments for uncollectible amounts or write-offs should be included. The FSR – Opioid Health Home Services must reconcile to the PIHP/CMHSP's general ledger.

The PIHPs with affiliate CMHSP contracts for the provision of the Opioid Health Home Services will report summary level revenue and expenditure information in separate columns for each contract. The amounts reported by the PIHP should reconcile to the FSR – All Non-Medicaid – Section IB – PIHP to Affiliate Opioid Health Home Services Contracts for each affiliate CMHSP.

The PIHP/CMHSP must certify the accuracy and completeness of the FSR –Medicaid and identify a contact person, phone number and email address that questions regarding the

The following numbering / sequencing have been utilized in the FSR – Opioid Health Homes

100	Title row for revenue
101-189	Detail rows for reporting revenue
190	Total row for revenue
200	Title row for expenditures
201-289	Detail rows for reporting expenditures
290	Total row for expenditures
295	Sub-total row identifying net surplus (deficit) prior to any redirection
300	Title row for redirection of funds (TO) and FROM
301-389	Detail rows for reporting redirection. May include sub-totals
390	Total row for redirection of funds (TO) and FROM
400	Total row identifying the remaining balance. The balance is calculated by taking into consideration available revenue less expenditures and adjusting for retained surplus funding, and any redirections (TO) or FROM.

Column A: Column A is to be used by the reporting Regional Authority or PIHP for the revenues, expenditures, redirection of funds, sub-totals and totals.

Column B through H: Columns B through H will be used by the PIHP to report summary level information of their contracts with affiliate CMHSPs for the provision of the Opioid Health Home benefit. The amounts reported by the PIHP should reconcile to the revenues, expenditures, redirection of funds, sub-totals and totals of the affiliate CMHSPs.

Column I: Column I is formula driven and represents the total revenues, expenditures and redirections entered in columns B through H.

Row Layout: For the most part, all rows contain an alpha reference, a numeric reference, a description and then the amount associated to the listed elements. The alpha reference refers to the Opioid Health Home benefit. The number reference refers to the character of the line (revenue, expenditures, etc.). The description could be a label (revenue, expenditure, etc.) or a more detailed description of the item. The redirection rows include at the end of the description a reference to the partner row.

For example – AE 332 (FROM) Local Funds M301.3, the “M” refers to the Local Funds section of the FSR All Non-Medicaid, the 301.3 represents the partner row of the FSR All Non-Medicaid redirection to row “AE 332”.

REDIRECTS – (TO) FROM – Each PIHP/CMHSP is expected to maintain a balanced budget. However, it is acknowledged that funding and expenditures, by category may not always be equal. The “Redirected Funds (To) From” sections will be the mechanism in which the PIHP/CMHSP will identify how any funding surplus or deficit was resolved by category. The “redirects” will identify how surplus funds are used by other programs or how deficits were covered by other funding sources. In either case, the funding source

must be a legitimate source of funding for the program the funding is being redirected to cover.

Every “TO” redirection will have an offsetting “FROM” transaction. The converse is also true, for every “FROM” redirection there will be a “TO” transaction. The “TO” and “From” amounts will be equal; thus, all redirections will sum to zero. Following is an example:

AE 332 FROM Local Funds – M301.3 \$10

This line is within the Local Funds section and indicates that \$10 is being received “FROM” the Local Funds section to fund Opioid Health Home Services expenditures that exceed Opioid Health Home Services funding.

M 301.3 (TO) Opioid Health Home Services (AE 332) (\$10)

This line is within the FSR - All Non-Medicaid – Local Funds section and indicates that \$10 is being redirected “(TO)” the FSR – Opioid Health Home to fund the PIHP share of a funding deficit.

Redirection amounts are entered in the FROM redirects and automatically linked to the TO redirects as the opposite or converse amount.
