

No-Cost Breast and Cervical Cancer Services Available for Women

The Breast and Cervical Cancer Control Navigation Program (BC3NP) will help low-income women receive the care they need.

The BC3NP can arrange for program-eligible women to receive breast and cervical cancer screenings, follow-up care for an abnormal test result, and treatment if breast or cervical cancer is diagnosed.

Eligible women must be between the ages of 21-64 (cervical) and 40-64 (breast) with a yearly income at or below 250% of federal poverty guidelines.

# of People in Household	Yearly Income	# of People in Household	Yearly Income	# of People in Household	Yearly Income
1	\$39,125	3	\$66,625	5	\$94,125
2	\$52,875	4	\$80,375	6	\$107,875

Uninsured women can enroll in the program and receive cancer screening services (mammograms and Pap tests) at no cost.

Women who have insurance, but have high-deductibles, or insurance that does not cover all services, may receive screening and/or diagnostic breast/cervical services not paid by their insurance.

Women diagnosed with breast or cervical cancer may also be eligible to receive treatment through the BC3NP Medicaid Treatment Act (MTA).

For questions, contact BC3NP@michigan.gov or 844-446-8727.
