

Are your patients putting off cancer screenings because of the costs?

The Breast and Cervical Cancer Control Navigation Program (BC3NP) helps women receive the screening services they need. The BC3NP can arrange for program-eligible women to receive breast and cervical cancer screenings, follow-up medical care for an abnormal test result, and treatment if breast or cervical cancer is diagnosed.

SERVICES PROVIDED

Ages 21-64 Cervical cancer screening (Pap/HPV test) and follow-up procedures (colposcopy, biopsy, etc.).

Ages 21-39 Breast diagnostic procedures due to a breast lump or other abnormal breast findings (ultrasound, MRI, biopsy, etc.).

Ages 40-64 Breast cancer screening (mammogram) and follow-up procedures (ultrasound, biopsy, etc.).

Cancer treatment is not provided through the program, but women diagnosed with breast or cervical cancer may be eligible for a special Medicaid program through the BC3NP.

Your patients may be eligible for free or low-cost screenings if they meet the following qualifications:

- No insurance or insurance that does not cover follow-up exams.
- Yearly income at or below 250% of federal poverty guidelines.

# of People in Household	Yearly Income	# of People in Household	Yearly Income
1	\$39,125	4	\$80,375
2	\$52,875	5	\$94,125
3	\$66,625	6	\$107,875

For questions, contact BC3NP@michigan.gov or 844-446-8727.
