

# Become an ambassador for women's wellness in Michigan.

Did you know cancer and heart disease are the leading causes of death for Michigan women? To support health across the state, the Michigan Department of Health and Human Services has two programs: the Breast and Cervical Cancer Control Navigation Program (BC3NP) and WISEWOMAN Program, that offer free health screenings to low-income women.

We need your help to raise awareness of these free, lifesaving programs.

The Cancer Section of MDHHS needs your help to promote BC3NP and WISEWOMAN. You are invited to become a partner and ambassador in our Women's Health Partnership Campaign to:

- **Enroll** women for lifesaving health screenings.
- **Engage** women in services for themselves and their families.
- Help women take advantage of **FREE health services** in the communities you serve. Share the attached flyer that contains links to websites with more information about screening programs.

Become an ambassador today.
