

Take care of your body and health.

Our bodies and health are gifts. Caring for them is essential to living long and healthy lives. The Michigan Department of Health and Human Services offers free screenings to help women improve their well-being and get free medical care.

Discover two programs available to women in Michigan.

BC3NP

The Breast & Cervical Cancer Control Navigation Program covers the costs of follow-up medical care for low-income women – ages 21 to 64 – whether they have insurance or not. And while the BC3NP does not pay for cancer treatment, women diagnosed with breast or cervical cancer may be eligible for a special Medicaid program that does.

For questions, contact BC3NP@michigan.gov.

WISEWOMAN

Available in select areas of the state, the WISEWOMAN Program can help you understand your chronic disease risk factors and make healthy lifestyle choices. Every participant will receive a free health screening and the opportunity to talk to a health coach. Plus, eligible women can choose to participate in free healthy behavior support services.

For questions, contact MDHHS-MIWISEWOMAN@michigan.gov.
