This report refers only to commercial tobacco use. It does not include tobacco used by Native Americans for ceremonial and religious purposes.

Introduction

Tobacco use is one of the largest public health threats to American youth.¹ The popularization of electronic cigarettes (“e-cigarettes”) and other next-generation tobacco products has caused youth tobacco rates to skyrocket. In fact, the Surgeon General declared youth e-cigarette use an epidemic in 2018.¹

In the 2019 High School Risk Behavior Health Survey, 20.8% of Michigan high school students reported current use of electronic cigarettes.²

Our public school districts alone reach over 2,600,000 students each year, giving schools over 2,600,000 opportunities to prevent tobacco initiation and use in youth. Preventing initiation is crucial: nearly 90% of adult tobacco users began using tobacco before the age of 18. Simply delaying tobacco use until 25 years of age can significantly reduce a person’s likelihood of becoming a habitual user.³

Tobacco-Free School Policy

How can schools prevent youth tobacco use? The most cost-efficient and sustainable answer is tobacco-free school policy (TFSP) when implemented as part of a comprehensive effort.⁴ The current body of scientific literature on the topic suggests that comprehensive TFSPs result in lower student tobacco use rates. Comprehensive TFSPs prohibit use of any and all tobacco and nicotine products, including e-cigarettes, by everyone at all times on school grounds and at school-sponsored off-grounds events.

Implementation

Research shows that there are three key parts to TFSP implementation:

1. Consistent enforcement. Enforcing the policy one day but not the next, or only in certain situations, sends mixed signals to students.
2. Remedial measures rather than punitive measures. There is evidence that tobacco education and cessation support resources are more effective in preventing further tobacco use in students than detention or suspension.

-
3. Thorough training of school staff. School staff must be equipped with the skills to identify next-generation tobacco products and to intervene when they witness students engaging in tobacco use.

Particular care needs to be given to at-risk student populations. These include students from low socioeconomic status families, students who reside in rural areas, and LGBTQIA+ students.

Training and Technical Assistance

The Michigan Department of Health and Human Services (MDHHS) Tobacco Section offers training and technical assistance to support tobacco-free school policies. This may include training presentations; resources and support with policy adoption, implementation, and enforcement; model policy development, and resources for quitting.

Contact the MDHHS Tobacco Section at 517-335-8376 or MDHHS-TobaccoSection@michigan.gov to request training or technical assistance. Visit Michigan.gov/Tobacco to learn more about tobacco prevention and cessation resources in Michigan.

Methodology

Data Collection

The list of Michigan K-12 public school districts was downloaded from the State of Michigan's Educational Entity Master Repository for the 2022-2023 school year. An MDHHS intern collected and reviewed policies from January 2023 to March 2023. Policies were collected from school district websites and student handbooks or by contacting school districts directly. The MDHHS Tobacco Section keeps the policies on file with the date of when the policy was collected.

Policy Analysis and Categorization

An MDHHS intern reviewed and categorized the policies using standard comprehensiveness criteria. Implementation and enforcement of the policies were not reviewed. Policies were assigned a category based on the following scale:

Category 1: Prohibition of tobacco use within buildings at all times, but outdoor use is allowed after 6 p.m. on regularly scheduled school days, during weekends, and any other days on which there are no regularly scheduled school hours. This is the minimum tobacco-free school policy required by Michigan law (MCL 333.12603; MCL 750.473).

Category 2: Prohibition of tobacco use that applies to everyone on school grounds but not at off-grounds school-sponsored events. Policies that only address tobacco use on school property or fail to explicitly prohibit tobacco at off-campus events fall under this category.

Category 3: Prohibition of tobacco use that applies to everyone at all times, on-campus and off-campus at school-sponsored events. Policies that meet this criterion but that do not mention e-cigarettes and similar next-generation tobacco products fall under this category.

Category 4: Has the same degree of prohibition as category 3, but also includes e-cigarettes and other next-generation tobacco products. This is the most comprehensive policy category.

Report Findings

Summary

Among Michigan's K-12 public school districts, 87% have a category 4 TFSP as of March 2023. This is a 240% increase in category 4 TFSPs since 2014.

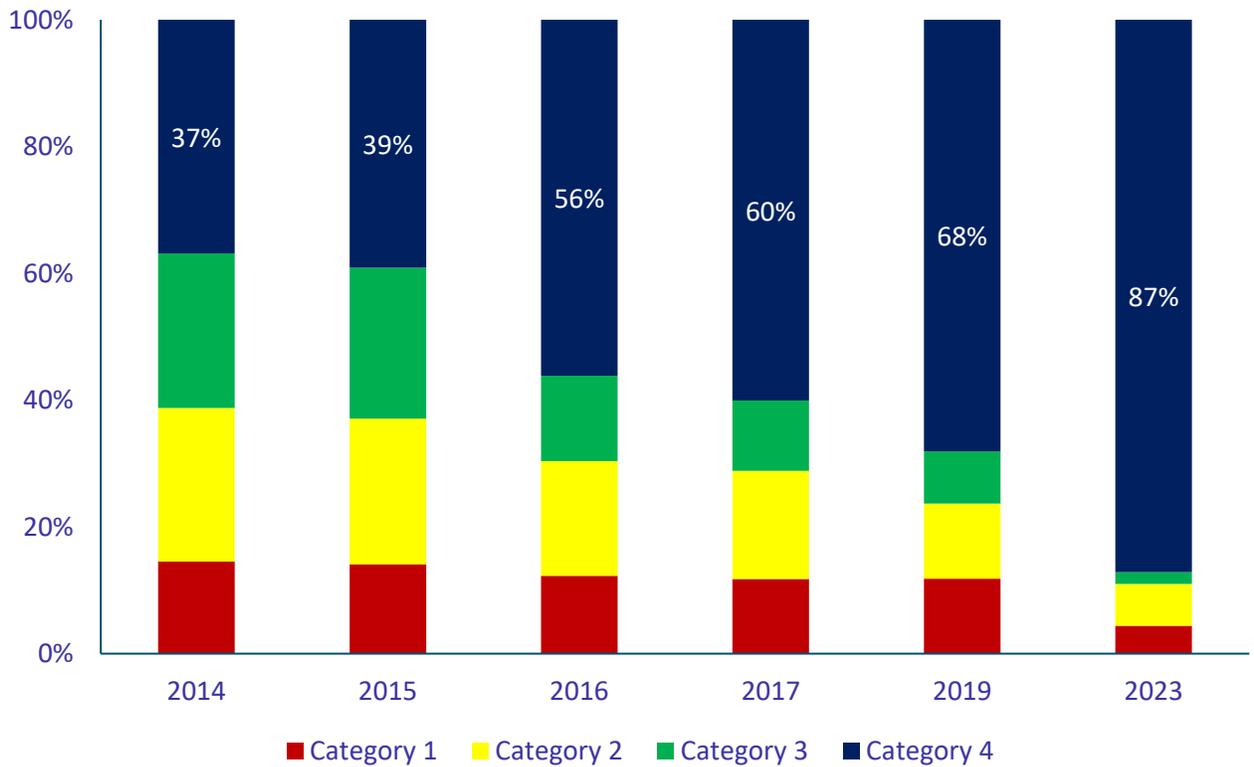

Figure 1. Proportion of Michigan K-12 public school districts per each category of TFSP, 2014-2023.

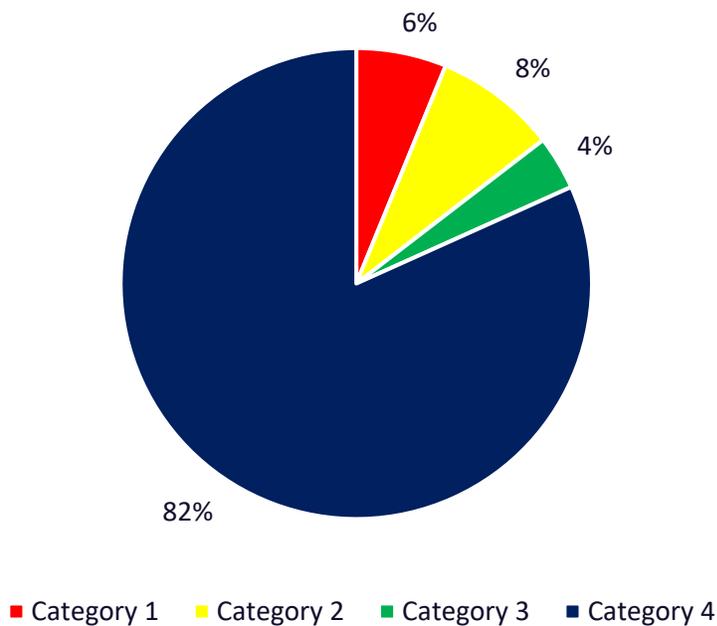

Figure 2. Proportion of Michigan K-12 public school students covered by each category of TFSP as of March 2023.

K-12 Public School Districts and Categories

594 of 597 Michigan K-12 public school districts had their policy available online or responded to inquiry. Each policy was categorized based on their comprehensiveness.

Category 1: Prohibition of tobacco use within buildings at all times, but outdoor use is allowed after 6 p.m. on regularly scheduled school days, during weekends, and any other days on which there are no regularly scheduled school hours. This is the minimum tobacco-free school policy required by Michigan law (MCL 333.12603; MCL 750.473).

Category 2: Prohibition of tobacco use that applies to everyone on school grounds but not at off-grounds school-sponsored events.

Category 3: Prohibition of tobacco use that applies to everyone at all times, on-campus and off-campus at school-sponsored events.

Category 4: Has the same degree of prohibition as category 3, but also includes e-cigarettes and other next-generation tobacco products. This is the most comprehensive policy category.

About the MDHHS Tobacco Section

Our Mission: To reduce morbidity and mortality and alleviate the social and economic burden caused by commercial tobacco use in Michigan, particularly for those disparately impacted.

Our Vision: A healthier Michigan, free of health inequities plus all forms of commercial tobacco use and secondhand smoke and thirdhand smoke exposure.

Our Work: Our work is guided by the five goals of the Tobacco Section Strategic Plan.

1. Identify and eliminate tobacco-related health disparities.
2. Eliminate exposure to secondhand smoke.
3. Promote tobacco treatment (cessation) among adults and youth.
4. Prevent initiation among youth and young adults.
5. Expand and stabilize tobacco control infrastructure and funding.

MDHHS Non-Discrimination Clause

The Michigan Department of Health and Human Services (MDHHS) does not discriminate against any individual or group on the basis of race, national origin, color, sex, disability, religion, age, height, weight, familial status, partisan considerations, or genetic information. Sex-based discrimination includes, but is not limited to, discrimination based on sexual orientation, gender identity, gender expression, sex characteristics, and pregnancy.
