Permit No. 1200

As of May 1, 2010, all indoor workplaces in Michigan will be smoke-free.

What are the requirements of the law?

Owners and operators shall prohibit smoking at their workplace. Indoor smoking rooms will not be permitted. Compliance is determined by the following:

- Clearly and conspicuously post “no smoking” signs or the international “no smoking” symbol at each entrance and in other areas where smoking is prohibited under this act.
- Remove ashtrays and other smoking paraphernalia from anywhere where smoking is prohibited.
- Inform individuals that smoking in the establishment is a violation of state law.
- Refuse service to an individual smoking in violation of this act.
- Ask an individual smoking in violation of this act to refrain from smoking and, if the individual continues to smoke in violation of this act, ask him or her to leave.

How will the law be enforced?

Management or supervisory personnel overseeing the indoor space or workplace are responsible for enforcing smoke-free rules. Employees and customers may report violations. More information about enforcement will be available at: www.michigan.gov/smokefreelaw

For more information about the law including free resources to help you meet requirements, visit www.michigan.gov/smokefreelaw
