CONNECT WITH A PROVIDER HEPATITIS C, HIV & STI CONSULT PROGRAM

Have you recently diagnosed someone with hepatitis C, HIV or syphilis?

Contact us to receive free provider-to-provider advice on hepatitis C, HIV and syphilis diagnoses, management and prevention.

Consultations are provided by Henry Ford Hospital hepatitis C, HIV and STI experts.

CALL US

Our experts are here to counsel and support health care providers about HIV and hepatitis C care management, current and previous syphilis diagnoses and best practices.

VISIT OUR WEBSITE

Learn more about drug interactions, perinatal treatment, syphilis and hepatitis C testing and treatment, the Ryan White Care Program and view up-to-date resources and guidelines.

REQUEST IN-PERSON DETAILING

Have our expert public health detailers visit your practice and provide education, resources and recommendations.

What is HIV PrEP?

Pre-exposure prophylaxis (PrEP) is medicine that, when taken as prescribed, reduces the chance of getting HIV from sex by up to 99% and by at least 74% from sharing drug injection equipment.

Learn more at Michigan.gov/MIPrEP or by scanning the code below.

STI Screening and Treatment Guidelines
