

Mission

The Bureau of HIV and STI Programs supports communities, programs and people who prevent, treat and respond to HIV/STIs through culturally informed education and services.

Vision

A stigma-free world where HIV/STI programs and services are accessible to all communities, thereby enhancing quality of life.

Values

Accountable Driven Results - Innovative Thinking - Unity Towards Common Goal - Diverse and Inclusive Workforce - Listen to Understand - Value Community Voice - Resource Stewardship - Honoring Disempowered Voices - Cross-Bureau Collaboration - Thoughtful Communication

Goal 1

Provide and foster effective programs and services.

- Address unmet need(s) through sustainable, evidence-based programs.
- Promote co-learning between partners through technical assistance.
- Conduct and respond to continuous quality improvement and evaluation at all levels.
- Align and allocate resources in a fiscally accountable manner.

Goal 2

Empower people to make informed choices through increased health literacy and education.

- Assure a capable and culturally informed HIV/STI workforce.
- Design, promote and facilitate community-led messaging that inspires action and positive health outcomes.

Goal 3

Create and/or refine policies and practices to promote health and wellness.

- Reduce health disparities through an anti-racist lens.
- Eliminate stigma through policy change and program guidance.

Goal 4

Maintain a high level of program data integrity, security and confidentiality.

- Ensure ongoing communication to verify that data reported complies with both state and federal guidelines is thorough, timely and transmitted with ease.
- Create, maintain and adhere to policies and processes that address the unique security and confidentiality needs of HIV/STI data.
- Utilize data gathered to allocate, improve, evaluate, and support evidence-based and promising practices.
- Guarantee that data products prioritize accessibility, are user-centered and interactive.
