

Winter is Coming

Natasha Bagdasarian MD, MPH, FIDSA
Chief Medical Executive, State of Michigan

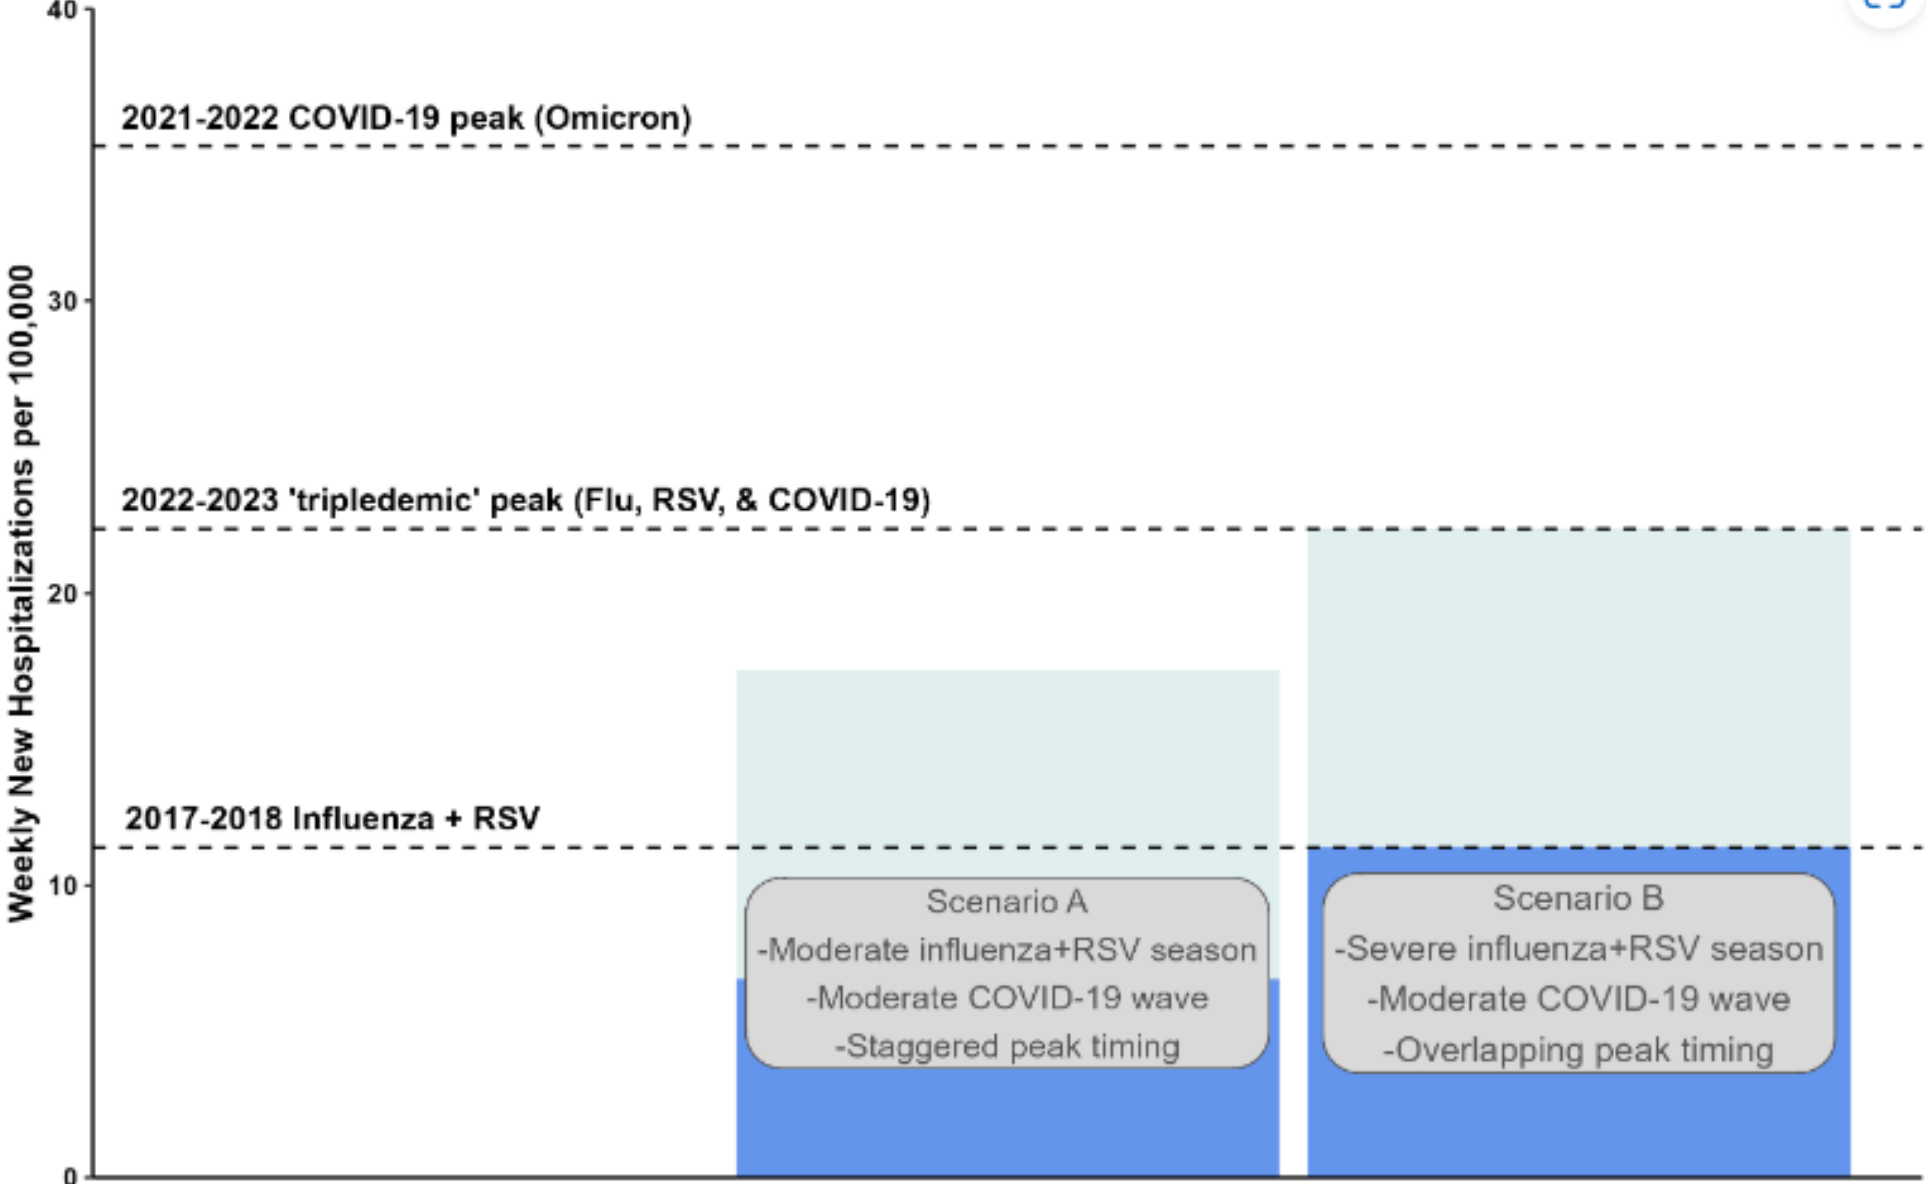

Michigan

● COVID-19 ● Influenza ● RSV ● Combined

Potential Scenarios for Combined Peak Burden of COVID-19, Influenza, and RSV

COVID-19 Influenza + RSV

Fall and Winter Virus Season

Stop the spread of viruses by washing hands, covering coughs and sneezes, and staying home if feeling unwell.

	VACCINES	PROTECTIVE ANTIBODIES	TESTING	THERAPEUTICS
INFLUENZA 	Available for ages 6 months and up.		Available in clinical settings.	Available.
COVID-19 	Available for ages 6 months and up.		At-home tests or tests in clinical settings.*	Available.

Speak to your health care provider for additional information on eligibility. Visit Michigan.gov/COVIDFluRSV for more information.

*Order free at-home tests at COVIDTests.org.

Vaccine Ordering Information

MDHHS will only have federal vaccine allocations for the Vaccines for Children (VFC) program and through the Bridge Access Program to Michigan Adult Vaccine Program (MI-AVP) providers.

Providers should place all private vaccine orders for COVID-19 vaccine directly through the manufacturer.

Providers have the following options to order the newly commercialized COVID-19 vaccine:

- 1 Directly from the manufacturers to obtain private COVID-19 vaccine supply, as they do with other ACIP-recommended vaccines.
- 2 Through a new temporary program called the Bridge Access Program. This program consists of two components:
 - The first uses existing public health infrastructure including state immunization programs, local health departments, and HRSA-supported health centers to provide COVID-19 vaccines to uninsured and underinsured adults. Michigan Bridge Access providers are current MI-AVP providers. Ordering of Bridge COVID-19 vaccine will be placed through MCIR e-ordering.
 - The second is implemented through pharmacies. This will enable them to continue offering free COVID-19 vaccinations to the uninsured and underinsured. Pharmacies interested in joining this program can reach out to eTrueNorth to learn more.
- 3 Through the existing VFC program.
 - Michigan VFC providers will order COVID-19 vaccine through MCIR e-ordering.
