2a. Completed MAGI and other non-disability related applications as of the last day of the reporting period	92	
2b. Completed disability-related applications as of the last day of the reporting period	97	
3. Of those applications included in Monthly Metric 1, the total number of applications that remain pending as of the last day of the reporting period (3a+3b)	256	Number increased slightly due to the way applications are counted prior to being ru through the eligibility rules. A single application may contain multiple individuals, but is only counted as 1 application until it is run through the eligibility rules. Once it is run through the eligibility rules and the type of Medicaid coverage is determined, then each individual on the application is counted seperately with the type of coverage they are eligible under (example - family of 5 is counted as 1 before eligibility rules are ru and then counted as 5 after the eligibility rules are run).
