

Going Fishing? Remember to Eat Safe Fish!

Fishing is fun! But, before you eat your catch, make sure your fish is safe to eat.

Do not eat the fish caught in the Lange or Revere Canals in St. Clair Shores.

These fish have unsafe levels of chemicals called PCBs. The chemicals can stay in your body for a long time, and may affect your health later.

Look for signs

Signs like this are posted around the Lange and Revere Canals that advise to **not** eat the fish caught from these waters.

Check to see if your fish is safe to eat

Scan this QR code with your phone's camera to check the Eat Safe Fish guidelines on fish from the area.

To learn about Eat Safe Fish guidelines for this area and other lakes and rivers see Michigan.gov/EatSafeFish, or call the Michigan Department of Health and Human Services (MDHHS) at **800-648-6942**.
